State of Florida
Department of Environmental Regulation
Notice of Intent to Issue
The Department of Environmental Regulation hereby gives notice of its intent to issue permits to Anheuser-Busch, Inc., 202-4, One Busch Place, St. Louis, MO. 63118 to construct an anaerobic pretreatment facility at their existing beer brewery facility in Jacksonville, Duval County, Florida. A determination of Best Available Control Technology (BACT) was required for the wastewater boiler. The Department is issuing this intent to issue for the reasons stated in the Technical Evaluation and Preliminary Determination.
A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within fourteen (14) days of publication of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under section 120.57, Florida Statutes.
The Petition shall contain the following information:
(a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed;
(b) A statement of how and when each petitioner received notice of the Department's action or proposed action;
(c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;
(d) A statement of the material facts disputed by Petitioner, if any;
(e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;
(f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and
(g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.
If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C.
The application is available for public inspection during business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

**Re: Anheuser-Busch, Inc. Construction Permits AC16-170992 through
AC16-170995 - Anaerobic Pretreatment Facility**

Dear Mr. Thomas:

The Bio-Environmental Services Division (BESD) has received and reviewed the above referenced permits. BESD does not have any comments to be considered for the Department's proposed action.

BESD does have concerns on an item related to this project. The Department's correspondence dated January 19, 1990 - Modification of Construction Permits AC16-119130 and AC16-119132, established an expiration date of October 30, 1991 for both permits. Operation permits have been issued for both sources. BESD has concerns for the validity of the operation permits (A016-140099 [Four Boilers] and A016-147102 [Duct Burner]) with the extended expiration date of the construction permits.

Please advise BESD as to which permits (operation or construction) are applicable for determining compliance during this period in regard to emission limits, test frequency, and other compliance-related issues.

Please address comments or questions to the undersigned at (904) 630-3666.

Very truly yours,
