BUREAU OF AIR REGULATION

DEP Facility # ~~168521800~~ 0310050

Dear Mrs. Phillips,

RE: Notification of a Source Subject to the Requirements Under 40 CFR Part 63 Subpart LLLLL, National Emissions Standards for Hazardous Air Pollutants, Asphalt Processing and Asphalt Roofing Manufacturing.

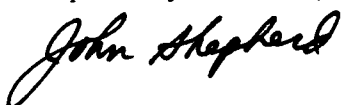

On April 29, 2003 EPA promulgated MACT standards under section 112 of the Clean Air Act for new and existing asphalt processing and asphalt roofing manufacturing facilities. 68 Fed. Reg. 22976. Section 63.8962 and Table 7 of the new regulations require the owner of every existing source subject to these regulations to file notice to the Administrator or her delegate by August 27, 2003. The contents of that notice are specified in 40 CFR 63.9(b). See 68 Fed. Reg. 23005.

While this facility's permit limitations make this standard currently applicable, Owens Corning will revise this permit and reduce potential/allowable HAPs emissions such that this facility will be rendered a synthetic minor for HAPs via a federally enforceable operating permit. This will occur before the April 29, 2006 compliance deadline.

In accordance with these provisions, I am writing to give you the required information about such a source, as follows:

<b>Name and address of owner or operator, see 40 CFR 63.9(b)(2)(i)</b>	<b>Owens Corning One Owens Corning Parkway Toledo, Ohio 43659</b>
<b>Physical location of source, see 40 CFR 63.9(b)(2)(ii)</b>	<b>Owens Corning 1035 Talleyrand Avenue Jacksonville, FL 32206</b>
<b>Identification of relevant standard, see 40 CFR 63.9(b)(2)(iii)</b>	<b>40 CFR Part 63, Subpart LLLLL, as promulgated on April 29, 2003, 68 Fed. Reg. 22976</b>
<b>Compliance date, see 40 CFR 63.9(b)(2)(iii)</b>	<b>April 29, 2006</b>
<b>Is the source major or area, see 40 (CFR 63.9(b)(2)(v)</b>	<b>The source will be rendered a synthetic minor for HAPs via a federally-enforceable operating permit prior to the compliance date</b>

Respectfully submitted,

John Shepherd  
EH&S Leader  
Jacksonville Roofing & Asphalt Plants
