3. In accordance to the terms of the Cedar Bay Cogeneration Project (CBCP), Site Certification proceedings, SKC is limited to 640,000 lbs/hr total steam production [380,00 lbs/hr imported from CBCP facility and 260,000 lbs/hr produced from the SKC 3 packaged boilers under normal operating conditions]. When CBCP facility is not in operation or operating at reduced rates, SKC is permitted to make up the difference between the 380,000 lbs/hr imported steam rate and the steam production level that CBCP facility provides. This allows a maximum firing rate of 524 MMBTU/hr for all three packaged boilers when the CBCP facility is down.
4. The three packaged boilers may be operated continuously (8,760 H/Y).
5. The three packaged boilers shall be fired with natural gas as the primary fuel and #2 Fuel Oil with a sulfur content not to exceed 0.05 percent, by weight, as the secondary fuel.
6. All deliveries of No. 2 fuel oil shall be accompanied by a laboratory analysis quantifying the density and percent sulfur, by weight.
7. The permitted maximum allowable emission rate for each pollutant is as follows:

POLLUTANT	LOCATION LD.	EMISSION RATE			FAC RULE
		lb/MMBTU	lb/hr	TPY	
NO _x	Each Packaged Boiler	0.2	23.6	103.4	62-296.800(2)(a)2
SO ₂	All Three Packaged Boilers Totaled	---	---	25 Sec S.C. 8	BACT
Visible Emissions	Common Exhaust Stack	5 % Opacity During Natural Gas Firing			BACT
Visible Emissions	Common Exhaust Stack	10% Opacity During No. 2 Fuel Oil Firing			BACT

SPECIFIC CONDITIONS:

8. Annual SO₂ emissions from No. 2 fuel oil firing, total all three boilers, shall not exceed 25 tons per year. In the event that the ceiling for SO₂ is expected to be exceeded due to unavailability of natural gas caused by factors beyond the control of SKC, SKC shall notify the Department that it anticipates exceeding the ceiling as provided herein; and, the emissions of SO₂ during the period of such curtailment shall not be counted against the yearly emissions ceiling of 25 tons unless administrative proceedings result in a finding that the exceedance was within SKC's control. In no event shall the total annual emissions of SO₂ from the three steam boilers exceed 41 tons/year. The notice shall include a statement or reasons for the request and supporting documentation, and shall be published by SKC, without supporting documents, in a newspaper of general circulation in Jacksonville, Florida, as defined in Section 403.5115(2), F.S. The filing and publication of the notice no later than 7 days following the date of exceedance, shall preclude any finding of violation by the Department until final disposition of any administrative proceedings.
9. The monitoring system (CEMS) for nitrogen oxides shall be operated, and maintained in accordance with the requirements of 40 CFR 60.48(b). In addition, the natural gas, No. 2 fuel oil, and steam flows (both from the packaged boilers and from the CBCP facility), shall be metered and continuously recorded. The data shall be logged daily and maintained so that it can be provided to the Department upon request.
10. A stoichiometric quantification for SO₂ emissions shall be utilized using the actual density and sulfur weight percent and the quantity of No. 2 fuel oil fired monthly.
11. Test the emissions for the following pollutant(s) at the intervals indicated, notify the Northeast District Office and the City of Jacksonville's Regulatory and Environmental Services Department (RESD), 15 days prior to compliance testing [FAC Rule 297.340(1)(i)], and submit the test report documentation to the Northeast District Office, the Bureau of Air Regulation Office, and RESD within 45 days after completion of the testing [FAC Rule 297.570(2)]:

Tests and test reports shall comply with the requirements of 40 CFR 60.49b, 40 CFR 60 Appendix A, and FAC Rules 62-297.330 and 62-297.570.

12. In each test report, submit the maximum input/production rate at which this source was operated since the most recent test.
13. Pursuant to 40 CFR 60.49b(r), quarterly reports shall be submitted to the RESD office (i.e., Administrator), certifying that only very low sulfur oil (i.e., less than 0.05% sulfur, by weight), meeting this definition was combusted in the affected facility during the preceding quarter. The firing of any fuel oil and its associated SO₂ emissions shall be quantified on a monthly and per boiler basis and submitted to the RESD office by the end of the month following the end of each quarter. The quarters are defined as January - March, April - June, July - September, and October - December; also, and per boiler, the final quarterly report shall include the total amount of the fuel oil fired and the quantified associated SO₂ emissions from the year.

Re: Extension of Time on Transfer of Permits

Dear Mr. Smith:

Pursuant to our conversation today, on behalf of Seminole Kraft Corporation and Stone Container Corporation, we are hereby requesting an extension of time to submit to the Department Form 62-1.201(1) to transfer the permits listed below from Seminole Kraft Corporation to Stone Container Corporation pursuant to Rule 62-4.120, F.A.C.:

- a. DEP Construction Permit AC16-222359, PSD-FL-198A;
- b. DEP Proposed Operating Permit No. A016-262702;
- c. DEP Industrial Wastewater Permit No. I016-200147;
- d. DEP Construction Permit AC16-144791, No. 3, Lime Slaker; and
- e. DEP Operation Permit AO16-155275, No. 3, Lime Slaker

The merger of Seminole Kraft Corporation and Stone Container Corporation occurred on April 28, 1995. Stone Container Corporation has always been the parent corporation of Seminole Kraft and Stone Container Corporation will continue to be the owner of the facility under which the above-listed permits apply. In an abundance of caution, we have assumed that Rule 62-4.120, F.A.C., applies in the transfer of permits from Seminole Kraft Corporation to Stone Container Corporation. Under that rule, the thirty (30) to apply for the transfer of permits would expire on May 30, 1995 due to Memorial Day holiday. Therefore, we request a two-week extension of time in which to submit an applications for transfer of permits, or until June 9, 1995.

We are in the process of completing the appropriate forms, and we will submit the

application for transfer of permits as soon as possible.

Thank you for your assistance in this matter. Please call me if you have any questions. In my absence please contact Mr. Timothy P. Atkinson.

Sincerely,

Segundo J. Fernandez
