Re: Draft Air Construction Permit Modification  
 Stone Container Corporation – Jacksonville Mill  
 Permit ID No. 0310067-007-AC (PSD-FL-252A)

Dear Ms. Vielhauer:

Enclosed please find an Affidavit of Publication of the Public Notice of Intent to Issue Air Construction Permit Modification as received by Stone Container Corporation from the Department on January 25, 2004. The Public Notice was published in the Florida Times Union on January 29, 2004.

If you have any questions or need additional information, you may contact me at 904-714-3252.

Sincerely,

Michele Rundlett  
 Environmental Manager

**PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION PERMIT MODIFICATION**

STATE OF FLORIDA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DEP File No. 0310067-007-AC (PSD-FL-252A)

Stone Container Corporation  
Jacksonville Recycled Fiber Paper Mill  
Duval County

The Department of Environmental Protection (Department) gives notice of intent to issue an air construction permit modification to Stone Container Corporation (SCC) for the Jacksonville recycled fiber paper mill. The applicant's name and address are Stone Container Corporation, P.O. Box 26998, Jacksonville, FL, 32226-6998.

The main changes proposed in this action are a clarification of the steam consumption versus steam production limits at the paper mill and confirmation that the short term limits for nitrogen oxides (NOx) are to be calculated on a 30-day rolling average basis.

The recycled paper mill went on-line as the older paper mill was shutting down and the adjacent Cedar Bay Cogeneration Project (CBCP) was being built. Presently most of the steam required by the recycled paper mill is provided by the CBCP, with supplemental firing of three package boilers located on-site at the mill. The original permit for the recycled paper mill limited total consumption of steam at the mill to 640,000 lb/hr. The CBCP site certification specifies that the total steam produced by the three package boilers located at the mill is limited to 450,000 lb/hr. The site certification does not limit the amount of steam imported from CBCP. This permit modification clarifies the two applicable limits (i.e., up to 450,000 lb/hr steam produced at the mill and up to 640,000 lb/hr steam consumed by the mill).

The short term (lb/MMBtu and lb/hr) emission limits for NOx are derived from the applicable Federal requirements of 40 CFR Part 60, Subpart Db, the New Source Performance Standards (NSPS) for industrial, commercial, and institutional steam generating units. The NSPS are clear that these limits are to be evaluated as 30-day rolling averages. This permit modification confirms that the short term limits should be calculated as 30-day rolling averages.

The only annual testing required by the permit is a visible emissions evaluation, and the mill expects to be using the on-site package boilers only sparingly in the future. To avoid forcing the mill to start-up and fire the boilers at near their maximum capacity if the boilers would otherwise remain shutdown, this permit modification waives the requirement to conduct the annual visible emissions evaluation during years in which the boilers operate less than 400 hours in total.

The Department will issue the FINAL permit modification with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed permit issuance action for a period of fourteen (14) days from the date of publication of "Public Notice of Intent to Issue Air Construction Permit Modification." Written comments should be provided to the Department's Bureau of Air Regulation at 2600 Blair Stone Road, Mail Station #5505, Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit and require, if applicable, another Public Notice.

The Department will issue the permit with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57 of the Florida Statutes (F.S.), before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below. Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57 F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station # 35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code (F.A.C.).

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle the petitioner to relief; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the Administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Dept. of Environmental Protection Bureau of Air Regulation 111 S. Magnolia Drive, Suite 4 Tallahassee, Florida 32301 Telephone: (850) 488-0114 Fax: (850) 922-6979	Department of Environmental Protection Northeast District Office 7825 Baymeadows Way, Suite 200-B Jacksonville, Florida 32256-7590 Telephone: (904) 807-3300 Fax: (904) 448-4319	Environmental Resource Management Department 117 West Duval Street, Suite 225 Jacksonville, Florida 32202 Telephone: (904) 630-4900 Fax: (904) 630-3638
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------

The complete project file includes the application, technical evaluations, Draft Permit, and the information submitted by the responsible official, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact the Administrator, New Resources Review Section at 111 South Magnolia Drive, Suite 4, Tallahassee, Florida 32301, or call 850/488-0114, for additional information. Key documents can be viewed at <http://www.dep.state.fl.us/air/permitting/construct.htm>.
