Dear Tom:

Concerning our telephone conversation today, I am enclosing a disk containing all ISCST input and output files performed for Seminole Kraft's permit application. The files are archived in a logical manner, and I have included a copy of the archiving software with brief instructions. One hard copy of all outputs is being prepared and will be sent under a different cover. Should you encounter any problems in reading the disk, or have any other questions, please don't hesitate to call me.

Sincerely yours,

A handwritten signature in cursive script that reads "Steven R. Marks".
