Subject: 40 CFR Part 63 – Section 112(j) Applicability Notification Report

Dear Sirs:

This correspondence is submitted to FDEP and EPA in compliance with the requirements found in 112(j) of the Clean Air Act Amendments (CAAA) and 40 CFR 63.50-63.56 concerning the requirement to submit an applicability notification by May 15, 2002 for the following facility:

Stone Container Corporation  
9469 Eastport Road  
Jacksonville FL, 32218

The above facility has the potential to be a major source of HAPs and, as indicated in the attached Part 1 MACT Application, has emission units that may be subject to 40 CFR 63 Subpart DDDDD (Industrial Boilers and Process Heaters), when the rule is finally promulgated. We have also investigated proposed 40 CFR 63 Subpart JJJJ (Paper and Other Web Coating) and have determined that Subpart JJJJ does not apply to our facility because we do no off-machine coating. We do not believe that any other MACT rules, including any not yet promulgated, apply to our facility.

If you have any questions regarding this matter, please call me at 904/ 714-3278 or Michael Riddle at 904/ 714-3203.

Sincerely,

  
Michelle Rundlet  
Environmental Manager

Re: 112(j) Notification Information Submittal – Jacksonville FL Mill

Dear Ms. Rundlet:

Thank you for submitting the referenced information in your letter dated May 15, 2002. Your information submittal appears to meet our current 112(j) requirements.

Please be aware that, although your letter refers to this information submittal as a "Part 1 Title V Application," the Department does not recognize your submittal as a state permit application and has no plans to process it as such.

No further 112(j) information is needed from you at this time.

If you have any questions, please call me at 850/921-9534.

Sincerely,

Cindy L. Phillips, P.E.
