**RE: METAL CONTAINER CORPORATION
JACKSONVILLE, FLORIDA
SEMI-ANNUAL COMPLIANCE STATEMENT
FACILITY ID# 31DVL1600097**

Dear Director:

This letter provides semi-annual reporting as required under 40 CFR 60.495(b) for the period July 1, 1999 through December 31, 1999. During the aforementioned period, Metal Container Corporation's Jacksonville can plant used only coatings which directly complied with federal New Source Performance Standards for VOC content, as specified in 40 CFR 60.492.

Please contact me at (314) 957-0714 if you have any questions or need additional information.

Sincerely,
METAL CONTAINER CORPORATION

Mary S. Mahaffey

Dear Mr. Roberson:

Re: Metal Container Corporation-AC 16-199113

This is in regard to your telephone conversation with
Teresa Heron regarding the Company's request for minor permit
revisions.

It is our opinion these permit revisions should be processed by
the local air program staff. We do not have any adverse comments.

We would appreciate you revising the above referenced permit.
If you have any additional questions, please feel free to contact
me or Teresa Heron of my staff at (904) 488-1344.

Sincerely,

for John Reynolds

Dear Mr. Fancy:

The purpose of this letter is to request some minor modifications to our existing permit in order to make the format consistent with the Title V format established by the state. Specifically:

- 1) Specific Conditions #2 - 6 specify VOC emission limits for each line and the total plant in terms of tons/day, tons/month and tons/year. We would request that these limits be changed to limit VOC in terms of lbs/hour and tons/year.
- 2) Specific Condition #12 has limitations on the number and type (i.e. basecoated vs. nonbasecoated) of cans produced by each line. This condition should be deleted.. It is not required since conditions #2-6 would specifically limit the emissions from each line.

These minor modifications would assist in the smooth transition from our current permit to the new Title V program without causing a relaxation in permitted conditions. We would appreciate your thoughts on these changes and if you have any questions please call me at (314) 957-0769.

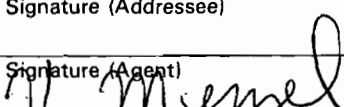

Sincerely,
 METAL CONTAINER CORPORATION

INTENT TO ISSUE
STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION

CERTIFIED MAIL

In the Matter of an
Application for Permit by:

File No. AC16-199113(A)
Duval County

Metal Container Corporation
3636 South Geyer Road
Suite 400
St. Louis, MO 63127-1218

INTENT TO ISSUE

The Department of Environmental Protection (Department) gives notice of its intent to issue an amendment (copy attached) for the proposed changes detailed in the application specified above, for the reasons stated below.

The applicant, Metal Container Corporation, applied on November 10, 1995, to the Department for a permit amendment to change the basis for volatile organic compound (VOC) emission limits and reporting requirements from tons per day to pounds per hour and to delete number and type (basecoated versus non-basecoated) of cans produced by each line at its facility located in Jacksonville, Duval County, Florida.

The Department has permitting jurisdiction under the provisions of Chapter 403, Florida Statutes (F.S.), and Chapters 62-212 and 62-4, Florida Administrative Code (F.A.C.). The project is not exempt from permitting procedures. The Department has determined that a permit amendment is required for the proposed work.

Pursuant to Section 403.815, Florida Statutes and DEP Rule 62-103.150, F.A.C., you (the applicant) are required to publish at your own expense the enclosed Notice of Intent to Issue Permit. The notice shall be published one time only within 30 days in the legal ad section of a newspaper of general circulation in the area affected. For the purpose of this rule, "publication in a newspaper of general circulation in the area affected" means publication in a newspaper meeting the requirements of Sections 50.011 and 50.031, F.S., in the county where the activity is to take place. Where there is more than one newspaper of general circulation in the county, the newspaper used must be one with significant circulation in the area that may be affected by the permit. If you are uncertain that a newspaper meets these

requirements, please contact the department at the address or telephone number listed below. The applicant shall provide proof of publication to the Department's Bureau of Air Regulation, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within seven days of publication. Failure to publish the notice and provide proof of publication within the allotted time may result in the denial of the permit.

The Department will issue the permit with the attached conditions unless a petition for an administrative proceeding (hearing) is filed pursuant to the provisions of Section 120.57, F.S.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400. Petitions filed by the permit applicant and the parties listed below must be filed within 14 days of receipt of this intent. Petitions filed by other persons must be filed within 14 days of publication of the public notice or within 14 days of their receipt of this intent, whichever first occurs. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, Florida Statutes.

The Petition shall contain the following information;

- (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed;
- (b) A statement of how and when each petitioner received notice of the Department's action or proposed action;
- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;
- (d) A statement of the material facts disputed by Petitioner, if any;
- (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;
- (f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and
- (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's

final action may be different from the position taken by it in this intent. Persons whose substantial interests will be affected by any decision of the Department with regard to the application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of receipt of this intent in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF INTENT TO ISSUE PERMIT AMENDMENT

The Department of Environmental Protection (Department) gives notice of its intent to issue an amendment of Permit AC 16-199113 to Metal Container Corporation, 3636 South Geyer Road, Suite 400, St. Louis, Missouri 63127-1218 to change the basis for volatile organic compound (VOC) emission limits and reporting requirements from tons per day to pounds per hour and to delete the type (basecoated versus non-basecoated) of cans produced by each line at its facility located at 1100 N. Ellis Road, Jacksonville, Duval County, Florida.

The changes will simplify plant reporting requirements and will not result in an increase of any air emissions.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within 14 days of publication of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, Florida Statutes.

The Petition shall contain the following information; (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts disputed by Petitioner, if any; (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by

any decision of the Department with regard to the application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C.

The application is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. Robert M. Lanham, P.E.
Manager, Environmental Engineering
Metal Container Corporation
3636 South Geyer Road
St. Louis, Missouri 63127-1218

Dear Mr. Lanham:

RE: Metal Container Corporation
Construction Permit AC 16-199113(A)

The Department has reviewed your letters dated September 29 and November 10, 1995, requesting to change the VOC emissions limits in Specific Condition No. 2 through No. 6 and to delete Specific Condition No. 12. The Department has determined that there is no emission increase associated with these changes and amends the referenced permit as follows:

SPECIFIC CONDITIONS Nos. 2 Through 6

The Department agrees with the applicant request. The conditions will list short term emission limits in terms of pounds per hour (lbs/hr) instead of tons per day or tons per month.

FROM:

2. Maximum total VOC emissions for Can Coating Line No. 2 shall not exceed 0.32 tons/day, 9.50 tons/month and 114 tons/year.
3. Maximum total VOC emissions for Can Coating Line No. 3 shall not exceed 0.29 tons/day, 8.7 tons/month and 105 tons/year.
4. Maximum total VOC emissions for Can Coating Line No. 4 shall not exceed 0.29 tons/day, 8.7 tons/month and 105 tons/year.
5. Maximum total VOC emissions for Can Coating Line No. 5 shall not exceed 0.11 tons/day, 3.2 tons/month and 38.7 tons/year.
6. Total volatile organic compounds (VOC) and organic solvents emissions for the entire facility shall not exceed 1.1 tons/day, 30.7 tons/month and 368 tons/year.

DRAFT

Mr. Robert M. Lanham
December XX, 1995
Page Two

TO:

2. Maximum total VOC emissions for Can Coating Line No. 2 shall not exceed 26.6 lbs/hr, and 114 tons/year.
3. Maximum total VOC emissions for Can Coating Line No. 3 shall not exceed 24.2 lbs/hr, and 105 tons/year.
4. Maximum total VOC emissions for Can Coating Line No. 4 shall not exceed 24.2 lbs/hr, and 105 tons/year.
5. Maximum total VOC emissions for Can Coating Line No. 5 shall not exceed 9.2 lbs/hr, and 38.7 tons/year.
6. Total volatile organic compounds (VOC) and organic solvents emissions for the entire facility shall not exceed 91.6 lbs/hr, and 368 tons/year.

SPECIFIC CONDITION No. 12

Specific Condition No. 12 will be changed by deleting the percentages of basecoated versus non-basecoated of cans and their sizes. However a production limit based on the number of cans will be maintained.

FROM:

12. The permitted materials and utilization rates are as stated in the application. The following parameters shall not be exceeded on an annual average basis:

- | | |
|------------------------|--|
| Line No. 2 production: | 1300 cans per minute
all 16 oz cans
1400 cans per minute
all 12 oz cans
85% of 16 oz cans basecoated |
| Line No. 3 production: | 1400 cans per minute
all 12 oz cans
60% of cans basecoated |
| Line No. 4 production: | 1400 cans per minute
12 oz cans
60% of cans basecoated |
| Line No. 5 production: | 2160 cans per minute
All 12 oz cans
No basecoat cans |

DRAFT

Mr. Robert M. Lanham
December XX, 1995
Page Three

TO:

12. The permitted materials and utilization rates are as stated in the application. The following parameters shall not be exceeded on an annual average basis:

Line No. 2 production: 2700 cans per minute

Line No. 3 production: 1400 cans per minute

Line No. 4 production: 1400 cans per minute

Line No. 5 production: 2160 cans per minute

This letter must be attached to the above mentioned permit and shall become a part of that permit.

Dear Ms. Heron:

Attached for your information and use is the certification of publication for the revisions to the above referenced permit. This should complete the permitting process for this modification. You stated in our last conversation that all the requested changes in my December 14, 1995 letter to A.A. Linero were included in the final permit language. Please forward a copy of the final language to my attention at your earliest convenience since I have not seen the final version to date.

Please contact me at (314) 957-0769 with any questions regarding submittal.

Sincerely,
METAL CONTAINER CORPORATION

Robert M. Lanham, P.E.
Manager, Environmental Engineering
c:\data\jaxmod3.doc

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF INTENT TO ISSUE PERMIT AMENDMENT

The Department of Environmental Protection (Department) gives notice of its intent to issue an amendment of Permit AC 16-199113 to Metal Container Corporation, 3636 South Geyer Road, Suite 400, St. Louis, Missouri 63127-1218 to change the basis for volatile organic compound (VOC) emission limits and reporting requirements from tons per day to pounds per hour and to delete the type (basecoated versus non-basecoated) of cans produced by each line at its facility located at 1100 N. Ellis Road, Jacksonville, Duval County, Jacksonville, Florida. The changes will not simplify plant reporting requirements and will not result in an increase of any air emissions.

A person whose substantial interests are affected by The Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within 14 days of publication of this notice. Petitioner shall mail a copy of this petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, Florida Statutes.

The Petition shall contain the following information: (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed; (b) a statement of how and when each petitioner received notice of the Department's action or proposed action; (c) a statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) a statement of the material facts disputed by Petitioner, if any; (e) a statement of facts which petitioner contends require reversal or modification of the Department's action or proposed action; (f) a statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and (g) a statement to the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57 F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C.

The application is available for public inspection during normal business hours, 8am to 5pm, Monday-Friday, except legal holidays, at:

Department of Environmental Protection
Division of Air Resources Management
111 S. Magnolia - Suite 4
Tallahassee, Florida 32301
Department of Environmental Protection
Northeast District
7825 Baymeadows Way, Suite 2008
Jacksonville, Florida 32256-7577
Department of Regulatory and Environmental Services
421 West Church Street, Suite 412
Jacksonville, Florida 32202-4111

Any person may send written comments on the proposed action Administrator, New Source Review Section at the Department's Tallahassee address. All comments received within 14 days of the publication of this notice will be considered in the Department's final determination.

FACILITY ID #31DVL160097**

Dear Director:

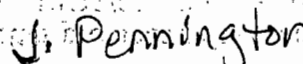

This letter provides semi-annual reporting as required under 40CFR 60.495(b) for the period 7/1/95 - 12/31/95. During the aforementioned period, Metal Container Corporation's Jacksonville can plant used only coatings which directly complied with federal New Source Performance Standards for VOC content, as specified in 40 CFR 60.492.

Please contact me at (314)957-0714 or Bob Lanham at (314)957-0769 if you have any questions or need additional information.

Sincerely,

Anna C. Nabb

Re: Metal Container Corporation
AC 16-199113

RECEIVED
DEC 18 1995
BUREAU OF
AIR REGULATION

Dear Mr. Linero:

In reference to the draft permit issued December 8, 1995 Metal Container Corporation (MCC) requests clarification for not incorporating any of the changes requested in my November 10, 1995 letter to Ms. Teresa Heron (copy attached). I have separated my comments below into two groups:

- 1) Specific Conditions 2 - 6, and
- 2) Specific Condition #12.

SPECIFIC CONDITIONS #2 - 6:

The changes requested did not increase potential annual emissions above currently permitted limits. They did request that the hourly rate be slightly higher than a strictly numeric average of the current ton/day limitation. This was requested to ensure that the worst case hourly emissions would be covered. The worst case hourly rate would not typically occur for an entire day. Downtime, changing labels, etc. would lower the average hourly emissions to be in line with current daily limits.

SPECIFIC CONDITION #12:

The language change requested for Specific Condition #12 would provide the plant with a degree of operational flexibility that is supposed to be an integral part of the Title V program. It is not necessary to impose specific line speed limitations on the facility when there are already specific emission limitations for each line. The requested change would allow the facility to increase the speed of individual lines above the current limit provided that the established emission limitation could be met. This would not relieve the obligation to modify the existing permit if a "modification" is required to increase the speed, but would allow the facility to work with existing equipment to obtain the maximum production rates possible.

I would request that you reconsider the requests made in my November 10, 1995 letter along with the further explanation given above and modify the permit language accordingly. We appreciate the opportunity to submit these comment and if you have any questions please contact me at (314) 957-0769.

Sincerely,
METAL CONTAINER CORPORATION

Re: Metal Container Corporation
AC 16-199113

Dear Ms. Heron:

In reference to our conversation on November 6, 1995, I have included requested language changes for the modifications to Specific Conditions 2 - 6 and 12 of Permit AC 16-199113. Also attached is a check in the amount of \$250.00 to cover the required fee for this modification.

The permit should be amended as stated below:

SPECIFIC CONDITIONS:

- 2) Maximum total VOC emissions for Can Coating Line No. 2 shall not exceed 31.6 pounds/hour or 114 tons/year.
- 3) Maximum total VOC emissions for Can Coating Line No. 3 shall not exceed 26.4 pounds/hour or 105 tons/year.
- 4) Maximum total VOC emissions for Can Coating Line No. 4 shall not exceed 26.4 pounds/hour or 105 tons/year.
- 5) Maximum total VOC emissions for Can Coating Line No. 5 shall not exceed 10.3 pounds/hour or 38.7 tons/year.
- 6) Total volatile organic compounds (VOC) and organic solvent emissions for the entire facility shall not exceed 96.7 pounds/hour or 368 tons/year.
- 12) The permitted materials and utilization rates are as stated in the application. The following parameters shall not be exceeded on an annual average basis unless compliance with Specific Conditions Nos. 2 - 6 can be maintained.

Line No. 2 production: 1400 cans/minute

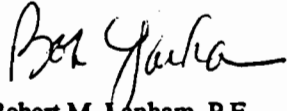

Line No. 3 production: 1400 cans/minute

Line No. 4 production: 1400 cans/minute

Line No. 5 production: 2160 cans/minute

Please contact me at (314) 957-0769 with any questions regarding this request.

Sincerely,
METAL CONTAINER CORPORATION

October 31, 1995

Mr. A.A. Linero, P.E., Administrator
New Source Review Section
Bureau of Air Regulation
Department of Environmental Protection
2600 Blair Stone Road
Tallahassee, Florida 32399-2400

**RE: Metal Container Corporation Permit Revision Request
Permit AC16-199113
Jacksonville, Florida**

Dear Mr. Linero:

The Regulatory and Environmental Services Department, Air Quality Division (AQD) has reviewed the Department's referral dated October 18, 1995, for processing Metal Container Corporation minor permit revisions. After further review, AQD has determined that the allowable emissions for VOC were derived from a LAER Determination dated July 22, 1987, and any revisions or modification should be processed by the Department.

The following comments are provided regarding the permit revision request:

1. Specific Conditions Nos. 2 - 6; AQD has no objections to changing the units of expressing allowable VOC emissions if it is in accordance with the LAER Determination.
2. Specific Conditions No. 12; If deleted, maximum operating capacity could not be determined during compliance testing. Also, since emissions are tied to the process/production rate, you would not be able to guarantee continuous compliance if they operated at a rate of their choice on the day of the compliance testing and then at a different, presumably higher rate when testing is not being performed.

The expiration date of this permit has been extended numerous times to allow for an Alternate Sampling Procedure (ASP) approval for capture efficiency testing. What is the status of the ASP request?

NOTICE OF PERMIT AMENDMENT

In the matter of an
Application for Permit Amendment by:

DEP File No. AC16-199113(A)

Mr. Robert M. Lanham, P.E.
Manager, Environmental Engineering
Metal Container Corporation
3636 South Geyer Road
St. Louis, Missouri 63127-1218

Enclosed is amended permit No. AC16-199113(A) which includes emission limits and reporting requirements in pounds per hour along with operational flexibility of the can lines. The amendment authorizes operation in Jacksonville, Florida. This permit amendment is issued pursuant to Section 403, Florida Statutes.

Any party to this Order (permit) has the right to seek judicial review of the permit pursuant to Section 120.68, Florida Statutes, by filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 14 days from the date this Notice is filed with the Clerk of the Department.

Executed in Tallahassee, Florida.

FINAL DETERMINATION

Metal Container Corporation - Can Coating Facility Permit Amendment AC 16-199113(A)

This facility consists of four can coating lines. This permit amendment did not change the intent of the previously issued construction permit nor did it result in an increase of annual emissions.

The Permit Amendment to Metal Container was distributed on December 8, 1995. The Notice of Intent To Issue was published in The Florida Times-Union on January 21, 1996. Copies of the permit amendment evaluation were available for inspection at the office of the Department of Regulatory and Environmental Services in Jacksonville and the Department of Environmental Protection's offices in Jacksonville and Tallahassee.

Comments were submitted by Mr. Robert M. Lanham, Manager Environmental Engineering, from Metal Container Corporation. He requested that the worst case hourly average be included as a permit condition and to revise Specific Condition No. 2. He clarified that the the worst case hourly average would not typically occur for an entire day due to downtime, changing labels etc. The wording of Specific Condition No. 12 will be revised to include operational flexibility. The allowable emission limits for each can coating line will meet permit specific condition on an annual basis.

The final action of the Department is to issue the permit amendment with the changes as mentioned above.

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. Robert M. Lanham, P.E.
Manager, Environmental Engineering
Metal Container Corporation
3636 South Geyer Road
St. Louis, Missouri 63127-1218

Dear Mr. Lanham:

RE: Metal Container Corporation
Construction Permit AC 16-199113(A)

The Department has reviewed your letters dated September 29 and November 10, 1995, requesting to change the VOC emissions limits in Specific Condition No. 2 through No. 6 and to delete Specific Condition No. 12. The Department has determined that there is no emission increase associated with these changes and amends the referenced permit as follows:

SPECIFIC CONDITIONS Nos. 2 Through 6

The Department agrees with the applicant request. The conditions will list short term emission limits in terms of pounds per hour (lbs/hr) instead of tons per day or tons per month.

FROM:

2. Maximum total VOC emissions for Can Coating Line No. 2 shall not exceed 0.32 tons/day, 9.50 tons/month and 114 tons/year.
3. Maximum total VOC emissions for Can Coating Line No. 3 shall not exceed 0.29 tons/day, 8.7 tons/month and 105 tons/year.
4. Maximum total VOC emissions for Can Coating Line No. 4 shall not exceed 0.29 tons/day, 8.7 tons/month and 105 tons/year.
5. Maximum total VOC emissions for Can Coating Line No. 5 shall not exceed 0.11 tons/day, 3.2 tons/month and 38.7 tons/year.
6. Total volatile organic compounds (VOC) and organic solvents emissions for the entire facility shall not exceed 1.1 tons/day, 30.7 tons/month and 368 tons/year.

"Protect, Conserve and Manage Florida's Environment and Natural Resources"

Printed on recycled paper.

Mr. Robert M. Lanham
February 22, 1996
Page Two

TO:

2. Maximum total VOC emissions for Can Coating Line No. 2 shall not exceed 31.6 lbs/hr, and 114 tons/year.
3. Maximum total VOC emissions for Can Coating Line No. 3 shall not exceed 26.4 lbs/hr, and 105 tons/year.
4. Maximum total VOC emissions for Can Coating Line No. 4 shall not exceed 26.4 lbs/hr, and 105 tons/year.
5. Maximum total VOC emissions for Can Coating Line No. 5 shall not exceed 10.3 lbs/hr, and 38.7 tons/year.
6. Total volatile organic compounds (VOC) and organic solvents emissions for the entire facility shall not exceed 96.7 lbs/hr, and 368 tons/year.

SPECIFIC CONDITION No. 12

Specific Condition No. 12 will be changed by deleting the percentages of basecoated versus non-basecoated of cans and their sizes. However a production limit based on the number of cans will be maintained.

FROM:

12. The permitted materials and utilization rates are as stated in the application. The following parameters shall not be exceeded on an annual average basis:

- | | |
|------------------------|--|
| Line No. 2 production: | 1300 cans per minute
all 16 oz cans
1400 cans per minute
all 12 oz cans
85% of 16 oz cans basecoated |
| Line No. 3 production: | 1400 cans per minute
all 12 oz cans
60% of cans basecoated |
| Line No. 4 production: | 1400 cans per minute
12 oz cans
60% of cans basecoated |
| Line No. 5 production: | 2160 cans per minute
All 12 oz cans
No basecoat cans |

Mr. Robert M. Lanham
February 22, 1996

**Re: Permit No. AC 16-199113
Metal Container Corporation
Jacksonville Can Plant**

Dear Mr. Fancy:

Metal Container Corporation (MCC) requests an extension of the expiration date of the referenced permit from May 31, 1996 to December 31, 1996. The project was constructed as specified in the permit and was completed in September 1992. A check in the amount of \$50.00 is enclosed for this request.

This extension is requested in order to comply with the compliance demonstration requirements of the permit. MCC has completed the destruction efficiency testing as required and a report was submitted September 8, 1994. A letter was received October 20, 1994 stating that MCC has fulfilled the VOC destruction efficiency requirements of the permit.

There continues to be one outstanding compliance demonstration that remains to be resolved which is beyond the control of MCC. The capture efficiency demonstration required by the permit must be approved by the Bureau and USEPA. We are currently waiting for approval of an ASP from FDEP to perform capture efficiency testing using the alternate method approved by EPA. We expect the approval of the ASP to be granted in the first quarter of 1996, but we would not have adequate time to retain a consultant, perform the testing and submit the required documentation within the guidelines established by the State. This extension of time should allow adequate time to receive the ASP, perform the testing and submit the results to FDEP in a timely manner.

If you have any questions regarding this request, please contact me at (314) 957-0769.

Sincerely,
METAL CONTAINER CORPORATION

Dear Mr. Lanham

Re: Extension of Permit No. AC 16-199113 Jacksonville Can Plant.

On February 20 the Department received your application letter, dated February 9, requesting an extension of the expiration date of the above referenced permit. Enclosed you will find a copy of the amended rule which accomodates the request you made. This amendment was approved by the Department on October, 1995. The permit referenced above, according to the attached rule amendment is automatically extended through the later of November 1, 1996 or 240 days after commencing operation. Further details of the conditions of this extension are contained in the amendment.

If you should require further information in response to your request, please call me at (904)488-1344.

Sincerely,

A. A. Linero, P.E., Administrator

Enclosure

NOTICE OF CHANGE IN PROPOSED RULE

DEPARTMENT OF ENVIRONMENTAL PROTECTION

DOCKET NO: 95-38R

CHAPTER TITLE:
Operation Permits for Major Sources of Air Pollution

CHAPTER NO.:
62-213

RULE TITLE:
Permit Applications

RULE NO.:
62-213.420

The Department has made a change to the proposed rule which appeared in the Florida Administrative Weekly, Volume 21, Number 30, dated July 28, 1995, page 4958, so that the following section(s) will read as set forth below:

62-213.420 Permit Applications

(1)(a)1.a. Acid Rain Sources will submit applications for the entire source by June 15, 1996 ~~January 1, 1996~~. The Acid Rain Part of each such application, however, shall be submitted no later than January 1, 1996.

b. (ii) June 15, 1996 ~~February 1, 1996~~, otherwise.

c. All other sources subject to the permitting requirements of this chapter will submit applications by June 15, 1996 ~~February 1, 1996~~.

2. Except as provided at Rule 62-213.420(1)(a)4., F.A.C., except for sources that are subject to the Florida Electrical Power Plant Siting Act (FEPPSA), a source that commences operation after January 1, 1996, must file an application for an operation permit under this chapter ninety days before expiration of the source's construction permit, but no later than 180 days after commencing operation. Except as provided at Rule 62-213.420(1)(a)4., F.A.C., a source that has applied for an Electrical Power Plant Siting Certification prior to January 1, 1996, but has not but has not been issued the certification as of that date, or a source that has been issued an Electrical Power Plant Siting Certification prior to January 1, 1996, but has not commenced operation by that date, shall file an application for an operation permit under this Chapter no later than 180 days after commencing operation. Sources subject to the FEPPSA that apply for Electrical Power Plant Siting Certification subsequent to January 1, 1996, may, at their option, shall apply for a permit under the provisions of this chapter at the same time the Florida Power Plant Siting Certification application is submitted.

4. The expiration dates of all air construction permits for Title V sources that expire between September 1, 1995, and November 1, 1996 ~~September 1, 1996~~, are hereby extended to the later of November 1, 1996, or 240 days after commencing operation ~~September 1, 1996~~. Facilities with such air construction permits which have not commenced operation on January 1, 1996, shall apply for a permit under the provisions of this chapter on the later of September 1, 1996, or 180 days after commencing operation.
