Re: Notice of Completeness for Proposed Jacksonville Lime PSD Application

Dear Mr. Bittner: Project 0310583-001-AC-426

The U.S. Environmental Protection Agency has reviewed your greenhouse gas Prevention of Significant Deterioration permit application for the proposed Jacksonville Lime Manufacturing Facility (Jacksonville) that was received by the EPA on June 11, 2012, and determined that as of August 16, 2013, your application is complete. Even though your application is deemed complete, in the course of this review we may identify further information that will be essential to enable the EPA to continue processing your application, including information that may be needed to respond to public comments.

If you have any questions please contact Natasha Hazziez at (404) 562-8409 or hazziez.natasha@epa.gov.

Sincerely,

Heather M. Ceron
