RE: Champion International Corporation (PSD-FL-200)

Dear Mr. Fancy:

This is to acknowledge receipt of your revised preliminary determination and draft Prevention of Significant Deterioration (PSD) permit for the above referenced facility by letter dated March 8, 1993. The proposed project includes the construction of a new gas-fired power boiler, the modification of the existing lime kiln, and the modification of the existing bleach lines. The project is subject to PSD review for the emissions of NO_x, CO, and VOC. The revised preliminary determination includes several minor changes such as clarification of averaging times for emission limits, clarification of test methods, modification of the allowable heat input to the lime kiln, and modification to the allowable steam produced by the #6 power boiler.

We have reviewed the package as requested and have no adverse comments. If you have any questions or comments, please contact Mr. Gregg Worley of my staff at (404) 347-5014.
