Dear Mr. Sheplak:

RE: CRIST ELECTRIC GENERATING PLANT
PUBLIC NOTICE AFFIDAVIT – CAM TESTING
PERMIT No: 0330045-001-AV

Attached, please find proof of publication, i.e. newspaper affidavit of “Public Notice Of Intent To Issue An Air Construction Permit” for the Crist Electric Generating Plant – Authorization to conduct CAM protocol testing per your instructions dated March 19, 2001.

Gulf Power would like to thank you and your staff for meeting with me in January and for working with us to meet our goal to develop a Compliance Assurance Monitoring (CAM) protocol for Plant Crist.

If you have any questions regarding CAM or the protocol development for Crist Unit 7, please call me at (850) 444.6527.

Sincerely,

A handwritten signature in black ink that reads "G. Dwain Waters Q.E.P.".

PUBLIC NOTICE OF INTENT TO ISSUE AN AIR

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Draft Air Construction Permit No.: 033
Gulf Power Company
Crist Electrical Generating Plant
Escambia County

The Department of Environmental Protection (permitting authority) is issuing a Draft Air Construction Permit to Gulf Power Company for its Crist Electrical Generating Plant located in Escambia County, Florida. The applicant's name and address are: Gulf Power Company, 32520-0328, Pensacola, Florida 32520-0328.

The permittee, Gulf Power Company, applied on March 8, 2001, for a Draft Air Construction Permit for the development of a CAI (Crist Unit #7's ESP (electrostatic precipitator)), which is located in Pensacola, Escambia County. The evaluation will require Gulf Power Company to establish a performance curve between opacity, particulates, and sulfur dioxide to create an operational condition near or in excess of the Florida part gathered will allow the calibration of an EPRI (Electrical Power Research Institute) performance of the Crist Unit #7's ESP. The pollutants and parameters to be included include sulfur dioxide, nitrogen oxides, particulate matter, visible emission, ultimate fuel analyses, unit operational parameters including temperature, and other unit specific parameters that are needed for testing is scheduled to run from April 14 to May 4, 2001.

The permitting authority will issue the Air Construction Permit in accordance with the conditions of the Draft Air Construction Permit. The permittee's compliance with the following procedures results in a different set of conditions.

The permitting authority will accept written comments concerning the permit issuance action for a period of 14 (fourteen) days from the date of the permit issuance. Comments should be provided to the Department's Bureau of Air Station #5505, Tallahassee, Florida 32399-2400. Any written comments received will be reviewed. If written comments received result in a significant change, the permitting authority shall issue a Revised Draft Air Construction Permit.

A person whose substantial interests are affected by the proposed permit issuance action may file a petition for a hearing in accordance with Sections 120.569 and 120.603, F.S., within 14 (fourteen) days of the date of the permit issuance. The petition must contain the information set forth below and must be filed with the Department of Environmental Protection, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000 (Telephone: 850/488-9730; Fax: 850/487-4938). Those entitled to written notice under Section 120.603(3), F.S., must be notified of the public notice or within fourteen days of receipt of the notice under Section 120.603(3), F.S., however, any person who asked the permitting authority to file a petition within fourteen days of receipt of that notice, regardless of whether the person filed a petition, shall mail a copy of the petition to the applicant at the address indicated on the public notice or within the applicable time period shall request an administrative determination (hearing) under Sections 120.569 and 120.603(3), F.S., to participate as a party to it. Any subsequent intervention by a party shall be upon the filing of a motion in compliance with Rule 17.04, F.A.C.

A petition that disputes the material facts on which the permitting authority is basing its decision shall contain the following information:

- (a) The name and address of each agency affected and each agency's representative;
- (b) The name, address and telephone number of the petitioner, name of petitioner's representative, if any, which shall be the address for service of process; and an explanation of how petitioner's substantial rights will be affected;
- (c) A statement of how and when the petitioner received notice of the proposed permit issuance;
- (d) A statement of all disputed issues of material fact. If there are no disputed issues of material fact, the petitioner shall so state;
- (e) A concise statement of the ultimate facts alleged, as well as the relief requested;
- (f) A demand for relief.

A petition that does not dispute the material facts upon which the permitting authority is basing its decision shall contain the same information as required by Rule 17.04, F.A.C.

Because the administrative hearing process is designed to formulate a decision on the merits of the proposed permit issuance, the final action may be different from the action proposed in the public notice. Persons whose substantial interests will be affected by any such final action have the right to petition to become a party to the proceedings set forth above.

Mediation is not available for this proceeding. A complete project file is available for public inspection during normal business hours, Monday through Friday, except legal holidays, at:

Permitting Authority: Department of Environmental Protection Bureau of Air Regulation 111 South Magnolia Drive, Suite 4 Tallahassee, Florida 32301 Telephone: 850/488-1344 Fax: 850/922-6979	Affected District Authority: Department of Environmental Protection Northwest District Office Air Resources 160 Governmental Place Pensacola, Florida 32520 Telephone: 850/595-8304 Fax: 850/595-4417

The complete project file includes the Draft Air Construction Permit, the permit application, and all other information submitted by the responsible official, exclusive of confidential information. Interested persons may contact Scott M. Sheplak, P.E., at the above address for more information.

Legal No. 61340

PUBLIC NOTICE OF INTENT TO ISSUE AN AIR CONSTRUCTION PERMIT

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Draft Air Construction Permit No.: 0330045-002-AC
Gulf Power Company
Crist Electrical Generating Plant
Escambia County

The Department of Environmental Protection (permitting authority) gives notice of its intent to issue an air construction permit to Gulf Power Company for its Crist Electric Generating Plant located in Pensacola, Escambia County. The applicant's name and address are: Gulf Power Company, One Energy Place, Pensacola, Florida 32520-0328.

The permittee, Gulf Power Company, applied on March 8, 2001, for authorization to conduct pollutant testing and parameter measurements for the development of a CAM protocol for the Gulf Power Company's Crist Unit #7's ESP (electrostatic precipitator), which is located at the Crist Electric Generating Plant in Pensacola, Escambia County. The evaluation will require Gulf Power Company to vary the collection efficiency of the ESP to establish a performance curve between opacity, particulate matter emissions and ash resistivity, thus creating an operational condition near or in excess of the Florida particulate matter emissions standard. The data gathered will allow the calibration of an EPRI (Electrical Power Research Institute) computer model to evaluate the performance of the Crist Unit #7's ESP. The pollutants and/or parameters to be measured or monitored will include sulfur dioxide, nitrogen oxides, particulate matter, visible emissions, carbon dioxide, ash content of the fuel, ultimate fuel analyses, unit operational parameters including load, fuel flow, excess air and flue gas temperature, and other unit specific parameters that are needed for the computer model. The development testing is scheduled to run from April 14 to May 4, 2001.

The permitting authority will issue the Air Construction Permit, and subsequent Final Air Construction Permit, in accordance with the conditions of the Draft Air Construction Permit unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The permitting authority will accept written comments concerning the proposed Draft Air Construction Permit issuance action for a period of 14 (fourteen) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulations, 2600 Blair Stone Road, Mail Station #5505, Tallahassee, Florida 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in this Draft Air Construction Permit, the permitting authority shall issue a Revised Draft Air Construction Permit and require, if applicable, another Public Notice.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57 of the Florida Statutes (F.S.). The petition must contain the information set forth below and must be filed (received) in Office of General Counsel of the Department of Environmental Protection, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000 (Telephone: 850/488-9730; Fax: 850/487-4938). Petitions filed by any person other than those entitled to written notice under Section 120.60(3), F.S., must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of the notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the permitting authority for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the applicable time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, Florida Administrative Code (F.A.C.).

A petition that disputes the material facts on which the permitting authority's action is based must contain the following information:

- (a) The name and address of each agency affected and each agency's file(s) or identification number(s), if known;
- (b) The name, address and telephone number of the petitioner, name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how petitioner's substantial rights will be affected by the agency determination;
- (c) A statement of how and when the petitioner received notice of the agency action or proposed action;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so state;
- (e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle petitioner to relief; and
- (f) A demand for relief.

A petition that does not dispute the material facts upon which the permitting authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the permitting authority's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the permitting authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available for this proceeding.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

PUBLIC NOTICE OF INTENT TO ISSUE AN AIR CONSTRUCTION PERMIT

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Draft Air Construction Permit No. 0390043-002-AC
Gulf Power Company
Cris Electrical Generating Plant
Escambia County

The Department of Environmental Protection (permitting authority) gives notice of its intent to issue an air construction permit to Gulf Power Company for its Cris Electric Generating Plant located in Pensacola, Escambia County. The applicant's name and address are: Gulf Power Company, One Energy Place, Pensacola, Florida 32520-0328.

The permittee, Gulf Power Company, applied on March 8, 2001, for authorization to conduct pollutant testing and parameter measurements for the development of a CAM protocol for the Gulf Power Company's Cris Unit #7's ESP (electrostatic precipitator), which is located at the Cris Electric Generating Plant in Pensacola, Escambia County. The evaluation will require Gulf Power Company to vary the collection efficiency of the ESP to establish a performance curve between opacity, particulate matter emissions and ash resistivity thus creating an operational condition near or in excess of the Florida particulate matter emissions standard. The data gathered will allow the calibration of an EPRI (Electrical Power Research Institute) computer model to evaluate the performance of the Cris Unit #7's ESP. The pollutants and/or parameters to be measured or monitored will include sulfur dioxide, nitrogen oxides, particulate matter, visible emissions, carbon dioxide, ash content of the fuel, ultimate fuel analysis, unit operational parameters including load, fuel flow, exhaust air and flue gas temperature, and other unit specific parameters that are needed for the computer model. The development testing is scheduled to run from April 14 to May 4, 2001.

The permitting authority will issue the Air Construction Permit, and subsequent Final Air Construction Permit, in accordance with the conditions of the Draft Air Construction Permit unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The permitting authority will accept written comments concerning the proposed Draft Air Construction Permit issuance action for a period of 14 (fourteen) days from the date of publication of this Notice. Written comments should be provided to the Department's Bureau of Air Regulation, 2690 Blair Stone Road, Mail Station #3505, Tallahassee, Florida 32399-3480. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in this Draft Air Construction Permit, the permitting authority shall issue a Revised Draft Air Construction Permit and require, if applicable, another Public Notice.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57 of the Florida Statute (F.S.). The petition must contain the information set forth below and must be filed (received) in Office of General Counsel of the Department of Environmental Protection, 3900 Camdenworth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000 (Telephone: 850/488-9730; Fax: 850/487-4358). Petitions filed by any person other than those entitled to written notice under Section 120.60(3), F.S., must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of the notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the permitting authority for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the applicable time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, Florida Administrative Code (F.A.C.).

A petition that disputes the material facts on which the permitting authority's action is based must contain the following information:

- (a) The name and address of each agency affected and each agency's file(s) or identification number(s), if known;
- (b) The name, address and telephone number of the petitioner, name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding and an explanation of how petitioner's substantial rights will be affected by the agency determination;
- (c) A statement of how and when the petitioner received notice of the agency action or proposed action;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so state;
- (e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle petitioner to relief; and
- (f) A demand for relief.

A petition that does not dispute the material facts upon which the permitting authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the permitting authority's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the permitting authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available for this proceeding.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Permitting Authority Department of Environmental Protection Bureau of Air Regulation 111 South Magnolia Drive, Suite 4 Tallahassee, Florida 32301 Telephone: 850/488-1344 Fax: 850/922-6970	Affected District Authority: Department of Environmental Protection Northwest District Office Air Resources 160 Governmental Place Pensacola, Florida 32520-0328 Telephone: 850/595-8300 Fax: 850/595-4417
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

The complete project file includes the Draft Air Construction Permit, the application/request, and the information submitted by the responsible official, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact Scott M. Sheplek, P.E., at the above address, or call 850/921-9582, for additional information.
