Dear Ms. Veazey:

RE: CRIST ELECTRIC GENERATING PLANT  
RESPONSIBLE OFFICIAL REQUEST CHANGE  
PERMIT No: 0330045-001-AV

Attached, please find a revised "Responsible Official Notification Form" for Gulf Power's Crist Electric Generating Plant. This request is pursuant to a personnel change within Gulf Power for the Vice-President, Power Generation from Robert G. Moore to Gene L. Ussery, Jr.

If you have any questions or need further information regarding this change of Responsible Official for the Crist Electric Generating Plant, please call me at (850) 444.6527.

Sincerely,

G. Dwain Waters  
Air Quality Programs Supervisor, QEP

BUREAU OF AIR REGULATION

A SOUTHERN COMPANY

May 29, 2002

R. Bruce Mitchell  
Title V Section – Bureau of Air Regulation  
Florida Department of Environmental Protection  
2600 Blair Stone Road  
Mail Station #5510  
Tallahassee, Florida 32399-2400

Dear Mr. Mitchell:

RE: SCHOLZ ELECTRIC GENERATING PLANT  
AUTHORIZATION TO CONDUCT CAM PROTOCOL TESTING  
PERMIT No: 0630014-001-AV

-002

Gulf Power hereby requests authorization to conduct Compliance Assurance Monitoring (CAM) testing at Plant Scholz for Units 1 & 2 during 2002. As you are aware, CAM is a requirement that must be addressed in the next round of Title V permit renewals for all facilities having pollution control equipment. In order to meet this goal, Gulf Power is planning a series of special particulate emission tests to calibrate a EPRI (Electric Power Research Institute) computer model to evaluate the performance of the Smith ESPs. Simply stated, this evaluation will require Gulf Power to vary the collection efficiency of the ESP to establish a performance curve between opacity, particulate emissions and ash resistivity, thus creating an operational condition near or in excess of the Florida particulate emissions standard.

Therefore, Gulf Power requests a permit amendment to allow CAM protocol developmental testing on Smith Units 1 and 2 from July 15 through September 31, 2002 as needed to complete all tests and measurements. Authorization of these tests is consistent with the Department's power and duty under Section 403.061(18), Florida Statutes, to "[e]ncourage and conduct studies, investigations, and research relating to pollution and its causes, effects, prevention, abatement, and control."

Mr. R. Bruce Mitchell  
May 29, 2002  
Page 2

The specific equipment to be tested is the Scholz Unit 1 & 2 electrostatic precipitators. The pollutants and or parameters measured or monitored will include sulfur dioxide, nitrogen oxides, particulate matter, carbon dioxide, ash content of the fuel, ultimate fuel analyses, unit operational parameters including load, fuel flow, excess air, flue gas temperature and other unit specific parameters that are needed for the computer model. Test methods to be utilized include EPA Method 9, EPA Method 17, CEM monitoring data (SO<sub>2</sub>, NO<sub>x</sub>, CO<sub>2</sub>), and possible particulate size distribution.

Attached is an authorization statement by Robert G. Moore, the Responsible Official outlining his approval of this permit amendment request. Also attached is a statement by a professional engineer regarding the certification of the test protocol and schedule. Please note that we recently talked with the permitting staff at the Northwest Florida District office to outline this request, our test schedule and the basic CAM procedure. Ms. Sandra Veazey and her staff are being copied on this correspondence.

If you have any questions or need further information regarding the test procedures or CAM protocol development for Plant Scholz please call me at (850) 444.6527.

Sincerely,

G. Dwain Waters, Q.E.P.
