November 30, 2000

Dear Andy:

This letter is to notify you and your agency that we did initial startup of our two gas fired boilers at the McDavid plant.

More specifically, we lit a fire in the east boiler on November 22, 2000. While we maintained a flame we did not get it where it created any steam until Nov. 27, 2000. We would consider initial startup to be the 27th – but provide the initial flame date in case that is the date you are looking for. The west boiler was lit and held started up on November 29th, 2000.

We are providing this notification NSPS subsection 60.7.

If you have questions, you can contact me at 587-1002 or Don Johnson at 587-1010.

Thanks

Dave Stevens
Plant Manager

November 13, 2000

Dear Andy:

As I stated on the phone with you this morning, it looks like we will be further delayed in the start up of our two gas fired boiler and 3 wood drying steam kilns. Hurst boiler folks and the water chemical were in this morning and they plan to do the chemical treatment of the boiler and start the first fire later this week. If all goes well they will be back in to fire up the boilers and tune them the week of the 27th. We expect to be drying lumber sometime soon after that (within a week or two).

We really appreciate you patience and understanding in this matter.

- I will obviously notify you within 15 days of initial startup.

We are providing this notification NSPS subsection 60.7.

If you have questions, you can contact me at 587-1002 or Don Johnson at 587-1010.

Thanks

Dave Stevens

October 19, 2000

Dear Joe:

This letter is to advise you that on June 16, 2000, Champion International Corporation ("Champion") was acquired by a wholly-owned subsidiary of International Paper Company ("IP"), whereupon Champion became a wholly-owned subsidiary of IP. Champion will continue to exist as a separate corporate entity for several months, thus, it will remain the owner of the McDavid softwood converting facility mill/plant and the permittee/licensee of the permits/licenses issued by the State of Florida to the plant. Following that interim period, it is expected that Champion will be merged into IP and will cease to exist. It will be in connection with the merger of Champion into IP that we will file the necessary applications to change the name of the permittee/licensee to IP. Your assistance in that process will be appreciated. If you have any questions or would like further information, please call me at 850-587-1002.

Thanks

October 19, 2000

Dear Andy:

This letter is to notify you and your agency that we are delayed in the startup of our two gas package boilers here at the Pine Barren (McDavid) facility. We had sent you a notification in August stating our projected date for Hurst (manufacturer) to test and commission the systems as sometime between September 12 and the 22nd. It now looks like it will be somewhere between the 26th of October and the 10th of November.

Both of these gas boilers were mass-produced at the Hurst boiler manufacturing plant in Coolridge, Georgia.

This notification is provided to fulfill NSPS subsection 60.7 requirements.

If you have questions, you can contact me at 587-1002 or Don Johnson at 587-1010.

Thanks

June 26, 2000

Dear Andy:

This letter is to notify you that our two gas package boilers arrived on site last week and the contractor is busy piping them and installing the peripheral attachments.

Both of these gas boilers were mass-produced at the Hurst boiler manufacturing plant in Coolidge, Georgia. NSPS subsection 60.7 exempts notification of mass-produced boilers, but we thought you might want to know they were on site and being hooked together.

If you have questions, you can contact me at 587-1002 or Don Johnson at 587-1010.

Thanks

Subject: Boilers at McDavid plant

News from the Champion project site in Pine Barren, Florida.

We have recently been purchased by International Paper. Officially operating as a subsidiary until they can get all the paperwork complete. Don't be surprised if you hear us called IP. Wanted to notify you that our two package boilers arrived on site last week and the contractor is busy hooking them up. These were mass-produced boilers from Hurst Corporation and the only thing they are doing on site is all the associated plumbing external to the boilers (DA tank, catwalks, etc.).

A hard copy of the official notification will follow - but wanted to give you earliest notice.

I can be reached at 587-1002 if you have questions.
Still looking at a September initial startup.
Thanks
Dave

Re: Extension of Expiration Date of Permit No. 0330260-001-AC, PSD-FL-271
McDavid Sawmill

The applicant, Champion International Corporation, applied on April 3, 2000, to the Department for an extension of the expiration date of air construction permit number 0330260-001-AC for its McDavid Sawmill located at US Highway 29, Pine Barren, Escambia County. The applicant also requested correction of a typographical error in Section II, specific condition 8. The Department has reviewed the request. The expiration date is hereby extended from September 6, 2000 to September 6, 2001 to allow completion of physical construction.

To correct the typographical error, specific condition 8 shall be deleted entirely and replaced with the following:

8. Title V Operation Permit Required: This permit authorizes construction and/or installation of the permitted emissions units and initial operation to determine compliance with Department rules. A Title V operation permit is required for regular operation of the permitted emissions units. The owner or operator shall apply for a Title V operation permit at least ninety days prior to expiration of this permit, but no later than 180 days after commencing operation. To apply for a Title V operation permit, the applicant shall submit the appropriate application form, compliance test results, and such additional information as the Department may by law require. The application shall be submitted to the Department's Northwest District office. [Rules 62-4.030, 62-4.050, 62-4.220, and Chapter 62-213, F.A.C.]

A copy of this letter shall be filed with the referenced permit and shall become part of the permit. This permitting decision is issued pursuant to Chapter 403, Florida Statutes.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under section 120.60(3), however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 F.S., or to intervene in this

"More Protection, Less Process"

Printed on recycled paper.

proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available in this proceeding.

In addition to the above, a person subject to regulation has a right to apply for a variance from or waiver of the requirements of particular rules, on certain conditions, under Section 120.542 F.S. The relief provided by this state statute applies only to state rules, not statutes, and not to any federal regulatory requirements. Applying for a variance or waiver does not substitute or extend the time for filing a petition for an administrative hearing or exercising any other right that a person may have in relation to the action proposed in this notice of intent.

The application for a variance or waiver is made by filing a petition with the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. The petition must specify the following information: (a) The name, address, and telephone number of the petitioner; (b) The name, address, and telephone number of the attorney or qualified representative of the petitioner, if any; (c) Each rule or portion of a rule from which a variance or waiver is requested; (d) The citation to the statute underlying (implemented by) the rule identified in (c) above; (e) The type of action requested; (f) The specific facts that would justify a variance or waiver for the petitioner; (g) The reason why the variance or waiver would serve the purposes of the underlying statute (implemented by the rule); and (h) A statement whether the variance or waiver is permanent or temporary and, if temporary, a statement of the dates showing the duration of the variance or waiver requested.

The Department will grant a variance or waiver when the petition demonstrates both that the application of the rule would create a substantial hardship or violate principles of fairness, as each of those terms is defined in Section 120.542(2) F.S., and that the purpose of the underlying statute will be or has been achieved by other means by the petitioner.

Persons subject to regulation pursuant to any federally delegated or approved air program should be aware that Florida is specifically not authorized to issue variances or waivers from any requirements of any such

federally delegated or approved program. The requirements of the program remain fully enforceable by the Administrator of the EPA and by any person under the Clean Air Act unless and until the Administrator separately approves any variance or waiver in accordance with the procedures of the federal program.

This permitting decision is final and effective on the date filed with the clerk of the Department unless a petition is filed in accordance with the above paragraphs or unless a request for extension of time in which to file a petition is filed within the time specified for filing a petition pursuant to Rule 62-110.106, F.A.C., and the petition conforms to the content requirements of Rules 28-106.201 and 28-106.301, F.A.C. Upon timely filing of a petition or a request for extension of time, this order will not be effective until further order of the Department.

Any party to this permitting decision (order) has the right to seek judicial review of it under section 120.68 of the Florida Statutes, by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General Counsel, Mail Station #35, 3900 Commonwealth Boulevard, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

Executed in Tallahassee, Florida.

Re: DEP File No. 0330260-001-AC, PSD-FL-271
McDavid Sawmill

Dear Joseph Kahn, P.E.,

We are requesting a 12-month extension to the referenced permit due to construction delays. Attached is the \$50 extension fee.

Regarding Specific Condition No. 8, it is our understanding the words "and receive" will be deleted and a revision issued with the extension.

Look forward to hearing from you soon, and if you have any questions please don't hesitate to call (850) 587-1002.

Regards,
