Re: International Paper Company
Extension of Expiration Date of Permit No. 0330260-001-AC, PSD-FL-271
The McDavid Softwood Converting Facility

The applicant, International Paper Company (formerly Champion International Corporation), applied on August 16, 2001, to the Department for an extension of the expiration date of air construction permit number 0330260-001-AC, PSD-FL-271 for its McDavid Softwood Converting Facility located at Pine Barren, approximately 19 miles north of Pensacola, in Escambia County.

For construction permits, an extension shall be granted if the applicant can demonstrate that, upon completion, the extended permit will comply with the standards and conditions required by the applicable regulations. [Rule 62-4.080(3), F.A.C.]

The Department has reviewed the request. The facility has been physically constructed and tested. A copy of the Title V Operation Permit application is under review in the Department's Northwest District Office. The District requested a retest of a natural gas boiler for visible emissions. In an abundance of caution, the company wishes to extend the existing construction permit to insure that the facility operates under a valid permit while the Department's District Office reviews the Title V application and acts on it.

The Department has reasonable assurance that the facility can demonstrate compliance with the standards and conditions required by the permit and applicable regulations. The expiration date is hereby extended from September 6, 2001 to February 6, 2002 to allow sufficient time for processing of the Title V operating permit application.

A copy of this letter shall be filed with the referenced permit and shall become part of the permit. This permitting decision is issued pursuant to Chapter 403, Florida Statutes.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under section 120.60(3), however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections

"More Protection, Less Process"

Printed on recycled paper.

120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available in this proceeding.

In addition to the above, a person subject to regulation has a right to apply for a variance from or waiver of the requirements of particular rules, on certain conditions, under Section 120.542 F.S. The relief provided by this state statute applies only to state rules, not statutes, and not to any federal regulatory requirements. Applying for a variance or waiver does not substitute or extend the time for filing a petition for an administrative hearing or exercising any other right that a person may have in relation to the action proposed in this notice of intent.

The application for a variance or waiver is made by filing a petition with the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. The petition must specify the following information: (a) The name, address, and telephone number of the petitioner; (b) The name, address, and telephone number of the attorney or qualified representative of the petitioner, if any; (c) Each rule or portion of a rule from which a variance or waiver is requested; (d) The citation to the statute underlying (implemented by) the rule identified in (c) above; (e) The type of action requested; (f) The specific facts that would justify a variance or waiver for the petitioner; (g) The reason why the variance or waiver would serve the purposes of the underlying statute (implemented by the rule); and (h) A statement whether the variance or waiver is permanent or temporary and, if temporary, a statement of the dates showing the duration of the variance or waiver requested.

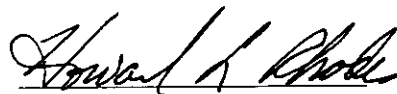

The Department will grant a variance or waiver when the petition demonstrates both that the application of the rule would create a substantial hardship or violate principles of fairness, as each of those terms is defined in Section 120.542(2) F.S., and that the purpose of the underlying statute will be or has been achieved by other means by the petitioner.

Persons subject to regulation pursuant to any federally delegated or approved air program should be aware that Florida is specifically not authorized to issue variances or waivers from any requirements of any such federally delegated or approved program. The requirements of the program remain fully enforceable by the Administrator of the EPA and by any person under the Clean Air Act unless and until the Administrator separately approves any variance or waiver in accordance with the procedures of the federal program.

This permitting decision is final and effective on the date filed with the clerk of the Department unless a petition is filed in accordance with the above paragraphs or unless a request for extension of time in which to file a petition is filed within the time specified for filing a petition pursuant to Rule 62-110.106, F.A.C., and the petition conforms to the content requirements of Rules 28-106.201 and 28-106.301, F.A.C. Upon timely filing of a petition or a request for extension of time, this order will not be effective until further order of the Department.

Any party to this permitting decision (order) has the right to seek judicial review of it under section 120.68 of the Florida Statutes, by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General Counsel, Mail Station #35, 3900 Commonwealth Boulevard, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

**Re: International Paper Company
McDavid Softwood Converting Facility
DEP Permit No. 0330260-001-AC, PSD-FL-271**

Dear Mr. Linero:

International Paper Company (IP) recently constructed a new lumber mill in Escambia County, Florida, approximately 30 kilometers (km) (19 miles) north of Pensacola. The McDavid Softwood Converting Facility processes southern yellow pine (SYP) logs and produces up to 225 million board feet per year (MMBF/yr) of lumber. The McDavid Softwood Converting Facility was previously owned by the Champion International Corporation (Champion).

Construction and initial operation of the McDavid Softwood Converting Facility is presently authorized by Department Permit No. 0330260-001-AC, PSD-FL-271. This permit expires on September 6, 2001. A Title V permit application for the McDavid Softwood Converting Facility was submitted to the Department's Northwest District office in June 2001.

As part of the Title V permit review, retesting of a natural gas-fired boiler for visible emissions was requested by the Department. This additional testing has been scheduled for August 13, 2001. Due to this additional testing, IP has recently been advised that by the Department that the Title V permit may not be issued prior to the expiration of Permit No. 0330260-001-AC, PSD-FL-271. Accordingly, IP requests an extension of Permit No. 0330260-001-AC, PSD-FL-271 until February 6, 2002 to allow sufficient time for processing and issuance of the Title V operating permit.

Your expeditious processing of this permit expiration date extension request is appreciated. Please contact Mr. Eric Gilmore at (850) 587-1084 if there are any questions regarding this request.
