Dear Mr. Koerner:

**Subject: Extension of Construction Permit Expiration**

The above referenced construction permits have expiration dates of June 1, 2002. It will not be possible for Florida Gas Transmission Company (FGT) to complete the modifications to these facilities, perform the required initial emissions compliance tests and apply for a Title V operating permit at least 90 days before their expiration dates.

FGT requests a 90-day extension to both of the referenced construction permits in order to complete construction, perform the required initial emissions performance tests and to submit applications for the Title V operating permits.

If you have any questions or need additional information, please call me at (800) 381-1477 or Dr. Duane Pierce at (281) 373-5365.

Sincerely,
