---

Hi Scott,

Attached is the stormwater permit w/o attachments – the engineering firm that acted as agent for NWFREC was Langan Engineering and Environmental Services in Tallahassee. Please let us know if you would like to discuss process modifications and any implications to the approved stormwater permit.

sincerely,  
Sally Cooley

Scott, Sally Cooley from the NWD branch office in Panama City asked me to inquire if a new or revised stormwater construction permit (see below) will be required for the new NWFREC project.

**Subject:** RE: Biomass application anticipated/NWFREC

NWFREC withdrew their Air permit application, but they were issued a stormwater permit on 1/27/10 for construction proposed at that time.

Depending on proposed construction, this ERP permit could need modification or a new application.
