FYI

Mr. Croft (reporter with The Star) will follow up on Port St. Joe with press office in the future.

Al Linero.

Mr. Linero,

Thanks. That sounds right. Being in front of the county they are apparently moving ahead with a resubmittal.

I will contact your press office in a few weeks and see where things are at.

Many thanks for the information.

Tim Croft

Dear Mr. Croft:

I am contacting you from my home since I am not at work due to a cold.

Definitely no application has been filed.

The consultant on this project left word today that he has been contacted regarding a possible resubmittal of an application for what appears to be essentially the same project.

I have no further details.

Please interact directly with our press office at 850-245-2112 on your inquiries and they will contact us for assistance or inclusion as needed.

Thank you.

Al Linero.
