Why not discuss right after staff meeting?

I'm thinking more like the petitioners from the last project plus those who specifically asked to be advised about this project.

E.g. maybe not Leon, Tallahassee, FSU officials.

Subject: Distribution List for NWFREC Application

All,

Attached is the distribution list for the Intent package for the last NWFREC project according to Sylvia's spreadsheet. We don't need to send the application e-mail to the people associated with the facility so they are crossed off. Dick Fancher is no longer there so he is crossed off the list. Maybe we can replace him with Sally Cooley and Armando (we're going to send them hard copies anyway).

Mr. Gibby's e-mail was undeliverable, but we can send to his address anyway. Do we want to send a hard copy of the notice to Dr. Rodriguez?

I was also thinking that we can have Vickie add a note asking them to let us know if they do not wish to be included in email notifications regarding this project. We used the same distribution list for NWFREC as we did for the TREC at FSU, so we may get some takers. Do you think this is acceptable?
