Thank you, Al, for forwarding the message to me. We will respond to Ms Blackwell on the cooling water.

Sally:

I received the response below from Ms. Blackwell.

I had already directed her to your office regarding water and non-air permitting.

Can you respond to her latest email?

Thank you.

Al.

Subject: Fwd: Public Records Request

Mr. Linero,

Would you please review my Public Records Request below concerning the information requested concerning the amount and the source of the water which

the proposed biomass plant in Port St. Joe is expected to require? Also, what is the plan for the disposal of the water after being used for cooling?

I have reviewed all information received including the Application for Permit and have failed to find information on this important issue.

Thank you for your continued help.
