File Copy

State of Florida
Department of Environmental Regulation
Regulation
Bureau of Air Quality Management

The Department gives notice of its intent to issue permits to Occidental Chemical Agricultural Products, Inc. to modify the existing C and D plants at the existing Occidental New Chemical Complex (SNCC), located in White Springs, Hamilton County, Florida. The project will involve an increase in the acid production of C and D plants from 1500 tons per day (TPD) to 2000 TPD (each plant) and a reduction in the production of acid on plant A and B plants from 1000 TPD to 800 TPD (each plant). Piping size changes, if required, would be the only physical change associated with this modification. A demonstration of best available control technology (BACT) or lowest achievable emission rate (LAER) will not be required.

Persons whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative determination of the propriety of such action under Section 120.57, Florida Statutes. The petition must conform to the requirements of Chapters 17-103 and 28-5, Florida Administrative Code, and must be filed (received) in the Department's Office of General Counsel, 2900 Blue Stone Road, Tallahassee, Florida 32309-2400, within fourteen (14) days of publication of this notice. Failure to file a petition within this time period constitutes a waiver of any right such person has to request an administrative determination (hearing) under Section 120.57, Florida Statutes.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the proposed agency action. Therefore, persons who may not wish to file a petition may wish to intervene in the proceeding. A petition for intervention must be filed pursuant to Rule 28.5-207, Florida Administrative Code, at least ten (10) days before the final hearing and be filed with the hearing officer if one has been assigned, or at the Division of Administrative Hearings, Department of Administrative Services, 2009 N. Apalachee Parkway, Tallahassee, Florida 32301. If no hearing officer has been assigned, the petition is to be filed with the Department's Office of General Counsel, 2900 Blue Stone Road, Tallahassee, Florida 32309-2400. Failure to petition to intervene within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, Florida Statutes.

The application is available for public inspection during normal business hours, 9:00 a.m. to 5:00 p.m. Monday through Friday, except legal holidays at:

Dept. of Environmental Regulation
Bureau of Air Quality Management
2900 Blue Stone Road
Tallahassee, Florida 32309-2400
Dept. of Environmental Regulation
Northwest District
3428 Dale Road
Jacksonville, Florida 32207

Any person may send written comments on the proposed action to Mr. Bill Thomas, of the Department's Tallahassee address. All comments mailed within 14 days of the publication of this notice will be considered by the Department. A final determination August 13, 1987.
