re: Soda Ash Storage And Handling
AC24-165588

Dear Mr. Smallwood:

Due to continuing construction and installation problems with this project, I find it necessary to request an additional extension of this construction permit. The current expiration date is May 1, 1991. I am requesting an extension until July 1, 1991.

Any changes to the system will be documented in the Certificate of Completion of Construction and in the operating permit application.

If you should require further information, please do not hesitate to contact me.

Sincerely,

Charles B. Pults
Environmental Engineer
