Ref: Soda Ash System At Pollyphos
AC24-165588 31JAX24000253

Dear Mr. Thomas:

By letter of April 30, 1990, Occidental requested an extension of this construction permit until December 31, 1990. This was necessitated by construction problems and initial operational problems with the pneumatic conveyor system. Because of continuing problems with the pneumatic conveyor system, I am requesting that the permit be extended until May 1, 1991.

Any changes to the system will be documented in the Certificate of Completion of Construction and in the operating permit application.

If you should require further information, please do not hesitate to contact me.

Sincerely,

Charles B. Pults
Environmental Engineer
