Subject: Request for Construction Permit Extensions  
Occidental Chemical Corporation  
Hamilton County, Florida  
AC24-119008 - Sulfur Pellets Facility  
AC24-61435 - Sulfur Vats and Reclamation Facility

Dear Mr. Fancy:

On behalf of Occidental Chemical Corporation, I would like to request that the expiration dates of the above air construction permits be extended from December 31, 1989 to December 31, 1991.

This request is based upon the fact that the market price of sulfur over the past several years has not made it economically feasible to proceed with construction of the sulfur pellet and vating facilities. Occidental Chemical Corporation believes, however, that future market conditions will justify completion of the project. A two-year extension is needed to properly evaluate future market trends and to complete the construction.

Thank you for your consideration in this matter. Please feel free to call me if you have any questions.

Sincerely,

KOOGLER & ASSOCIATES

Richard B. Tedder, P.E.
