ELECTRONIC MAIL - RECEIVED RECEIPT REQUESTED

Alex C. George, Vice President
Hardee Power Partners Limited
One South Wacker Drive, Suite 2020
Chicago, Illinois 60606

Re: **Request for Additional Information**
Project No. 0490015-008-AC (PSD-FL-140A)
Project No. 0490015-009-AV (Concurrent Title V Revision)
Combustion Turbine 2B Heat Input Increase

Dear Mr. George:

On February 7, 2007, the Department received your application and sufficient fee for an air construction permit to increase the maximum heat input to Unit 2B approximately 10 percent at Hardee Power Station. The application was incomplete. On March 9, 2007, the Department requested you to submit additional information that would allow continued processing of your application. We have not yet received the requested additional information. Rule 62-4.055(1) of the Florida Administrative Code requires the following:

"The applicant shall have ninety days after the Department mails a timely request for additional information to submit that information to the Department. If an applicant requires more than ninety days in which to respond to a request for additional information, the applicant may notify the Department in writing of the circumstances, at which time the application shall be held in active status for one additional period of up to ninety days. Additional extensions shall be granted for good cause shown by the applicant. A showing that the applicant is making a diligent effort to obtain the requested additional information shall constitute good cause. Failure of an applicant to provide the timely requested information by the applicable deadline shall result in denial of the application."

It has been more than 60 days since our last request for additional information (copy attached). You are reminded that the permit processing time clock has stopped for this project and that we will not continue our review until we receive the additional information. If you require a period of time in addition to the 90 days allowed by rule, please submit a written request indicating the amount of time necessary. If you fail to provide the additional information or request additional time to submit the additional information by June 7, 2007, the Department will deny your application.

If you have any questions regarding this matter, please call the project engineer, Bruce Thomas, at 850/921-7744 or Jeff Koerner at 850/921-9536.

Sincerely,

Jeffery F. Koerner, P.E.
