Re: DEP File No. 0490045-001-AC (PSD-FL-307) (North)
South Pond Energy Park 0490046-001-AC (PSD-FL-306)

Dear Mr. Wolfinger:

The Department reviewed your application for permit received November 17, 2000 for the construction of the North Pond Energy Park and has found the information contained in the application to be incomplete. Please provide the following additional information, in writing, so that we may continue to process your request.

The North Pond Energy Park and the South Pond Energy Park appear to meet the EPA requirement for consideration as a single facility. Provide the rationale for classifying these two as separate facilities.

Provide documentation that this project will not be subject to the state Power Plant Siting Act.

Please submit an Ambient Air Quality Impact Analysis that combines the sources located at both the North and South Pond Energy Parks. This analysis should treat both facilities as a single source and should include a significant impact analysis for both the Class II and Class I Areas, as well as a Regional Haze Analysis for the Class I Area.

Permit applicants are advised that Rule 62-4.055(1), F.A.C. now requires applicants to respond to requests for information within 90 days. If you have any questions regarding this matter, please call Edward J. Svec at 850/921-8985.

Sincerely,

Scott Sheplak, P.E.
