

Florida Department of
Environmental Protection

Memorandum

TO: Michael G. Cooke
FROM: Trina L. Vielhauer *TV*
DATE: November 12, 2003
SUBJECT: Southern Gardens Citrus Processing Corp.
Addition of Two New Juice Extractors
DEP File No: 0510015-013-AC

Attached for approval and signature is a final air construction permit for Southern Gardens Citrus Processing Corp. The permit allows the addition of two additional juice extractors at their existing citrus processing facility. The applicant did not seek any relaxation in currently enforceable conditions in its other existing emissions units.

No comments were received during the public comment period.

I recommend your approval and signature.

December 30, 2003 is day 90.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF FINAL PERMIT

In the Matter of an
Application for Permit by:

Mr. Tristan Chapman, VP and General Mgr.
Southern Gardens Citrus Processing Corp.
PO Box 130
Clewiston, Florida 33440

DEP File No. 0510015-013-AC
PSD-FL-299(B)
Addition of Two New Juice Extractors
Hendry County

Enclosed is Final Permit Number 0510015-013-AC (PSD-FL-299(B)). This permit authorizes Southern Gardens Citrus Processing Corp. to install two new juice extractors at its existing facility located at 755 County Road 833, Clewiston, Hendry County. This permit is issued pursuant to Chapter 403, Florida Statutes.

Any party to this order has the right to seek judicial review of it under Section 120.68 of the Florida Statutes, by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General Counsel, Mail Station #35, 3900 Commonwealth Boulevard, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

Executed in Tallahassee, Florida.

Trina L. Vielhauer, Chief
Bureau of Air Regulation

CERTIFICATE OF SERVICE

The undersigned duly designated deputy agency clerk hereby certifies that this Notice of Final Permit (including the Final permit) was sent by certified mail (*) and copies were mailed by U.S. Mail before the close of business on 11/13/03 to the person(s) listed:

Mr. Tristan Chapman, Southern Gardens Citrus Processing Corporation *
Mr. David Buff, P.E., Golder Associates
Mr. Ron Blackburn, DEP SD

11/13/03 cc: Ed Spec Reading Site

Clerk Stamp

FILING AND ACKNOWLEDGMENT FILED, on this date, pursuant to §120.52, Florida Statutes, with the designated Department Clerk, receipt of which is hereby acknowledged.

(Clerk) (Date) 11/13/03

1 APPLICANT NAME AND ADDRESS

Southern Gardens Citrus Processing Corp.
PO Box 130
Clewiston, Florida 33440

Authorized Representative: Tristan Chapman, VP and General Manager

2 FACILITY DESCRIPTION, PROJECT DETAILS AND RULE APPLICABILITY

The facility is an existing citrus juice processing facility. The project is the installation of two new additional citrus juice extractors. The addition of these juice extractors will bring the total number of extractors at the facility to forty-one.

There is no increase in annual potential emissions associated with this project. The applicant indicated in the application that they are not requesting any change in the capacity limitation of 20 million boxes of fruit processed per year, a change in the minimum citrus oil recovery rate of fifty percent, or any change to any other permit condition imposed by permits 0510015-007-AC (PSD-FL-299) and 0510015-010-AC (PSD-FL-299A).

The proposed project is subject to preconstruction review requirements under the provisions of Chapter 403, F.S., and Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297, F.A.C. The existing facility is located in an area designated, in accordance with Rule 62-204.340, F.A.C., as attainment or unclassifiable for the criteria pollutants ozone, PM₁₀, carbon monoxide, SO₂, nitrogen dioxide and lead. This facility is classified as a Major or Title V Source of air pollution, because emissions of at least one regulated air pollutant exceeds 100 tons per year (TPY). At this facility potential emissions of PM/PM₁₀, NO_x, SO₂, CO and VOC exceed 100 TPY.

This facility is not within an industry included in the list of the 28 Major Facility Categories per Table 62-212.400-1 of Chapter 62-212, F.A.C. Because emissions are greater than 250 TPY for at least one criteria pollutant, the facility is also an existing Major Facility with respect to Rule 62-212.400, Prevention of Significant Deterioration (PSD). There is no net increase in emissions of any criteria pollutant as a result of this project. Therefore, the project is not subject to New Source Review (NSR) requirements of Rule 62-212.400, F.A.C.

An impact analysis was not required for this project because it is not subject to the requirements of NSR.

The facility is subject to the requirements of the current valid Title V permit that are not changed by this permitting action. It is also subject to the requirements of the state rules as indicated in this permit. This permitting action is not subject to any requirements under the New Source Performance Standards, 40 CFR 60, or any NESHAP requirements of 40 CFR 61 or 63.

3 COMPLIANCE

The compliance methods, previously specified by permits 0510015-007-AC (PSD-FL-299) and 0510015-010-AC (PSD-FL-299A), are not affected by this permitting action.

4 PRELIMINARY DETERMINATION

Based on the foregoing technical evaluation of the application and additional information submitted by the applicant and other available information, the Department has made a preliminary determination that the proposed project will comply with all applicable state and federal air pollution regulations. The Department's preliminary determination is to issue the draft permit to allow installation of two additional juice extractors, subject to the terms and conditions of the draft permit.

5 FINAL DETERMINATION

An "INTENT TO ISSUE AIR CONSTRUCTION PERMIT" to Southern Gardens Citrus Processing Corporation for their existing citrus juice processing plant located at 755 County Road 883, Clewiston, Hendry County was clerked on October 9, 2003. The "PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION PERMIT" was published in The Clewiston News on October 23, 2003. The Draft Air Construction Permit was available for public inspection at the South District office in Ft. Myers and the permitting authority's office in Tallahassee. Proof of publication of the "PUBLIC NOTICE OF INTENT TO ISSUE TITLE V AIR OPERATION PERMIT" was received on November 12, 2003.

No comments were received during the fourteen (14) day public comment period. As a result, the Final Air Construction permit will be issued, as noticed.

Re: Permit Amendment No. PSD-FL-299(B)
DEP File No. 0510015-013-AC

Dear Mr. Chapman:

The Department of Environmental Protection has reviewed Southern Gardens Citrus Processing Corp.'s August 15, 2003 application requesting an amendment to its existing PSD permit (PSD-FL-299) to allow the construction of two additional new juice extractors at their plant located at 755 County Road 833, Clewiston, Hendry County, Florida 33440. The existing permit allows the construction of three additional juice extractors, for a total of thirty-nine extractors; limits the annual fruit throughput to twenty million boxes; and, specifies a minimum citrus oil recovery of fifty percent. The application requests the construction of two additional new juice extractors, bringing the total number of extractors to forty-one; requests no change to the annual fruit throughput; and, requests no change in the citrus oil recovery rate.

This request is acceptable and the permit is hereby amended as follows:

From:

PLACARD PAGE

PROJECT AND LOCATION

This permit authorizes Southern Gardens Citrus Processing Corp. to install three additional citrus juice extractors at its existing citrus processing facility, raising the total number of extractors to thirty nine.

SECTION I. FACILITY INFORMATION

FACILITY DESCRIPTION, PROJECT DETAILS AND RULE APPLICABILITY

The applicant proposed in this project to install three additional juice extractors, bringing the total number of juice extractors at the facility to thirty nine. This will raise the annual processing

"More Protection, Less Process"

Printed on recycled paper.

capacity of the facility to 20 million boxes of citrus fruit per year (based on 90 pounds of oranges or 85 pounds of grapefruit per box).

.....Briefly, although this project results in a physical change to the facility by the addition of the three juice extractors, the applicant is not constructing emissions units, and the applicant's requested relaxation of current federally enforceable limits on the existing d-limonene storage tanks does not result in a requirement to install control technology.

SECTION II. FACILITY-WIDE SPECIFIC CONDITIONS

The following specific conditions apply to all emissions units at this facility addressed by this permit after installation of any or all of the three additional juice extractors. The throughput and oil recovery limitations shall apply to the facility as a whole. These conditions shall revise and supplement conditions imposed by previous permitting actions. Except for the conditions of this subsection, no other conditions of previous permitting actions shall be changed by this permit.

SECTION III. EMISSIONS UNITS SPECIFIC CONDITIONS

Subsection A. The following specific conditions apply to the following emissions units after installation of any or all of the three additional juice extractors. These conditions shall revise and supplement conditions imposed by previous permitting actions. Except for the conditions of this subsection, no other conditions of previous permitting actions shall be changed by this permit.

Subsection B. The following specific conditions apply to the following emissions unit after installation of any or all of the three additional juice extractors. These conditions shall revise and supplement conditions imposed by previous permitting actions. Except for the conditions of this subsection, no other conditions of previous permitting actions shall be changed by this permit.

Subsection C. The following specific conditions apply to the following emissions unit after installation of any or all of the three additional juice extractors. These conditions shall revise and supplement conditions imposed by previous permitting actions. Except for the conditions of this subsection, no other conditions of previous permitting actions shall be changed by this permit.

To:

PLACARD PAGE

PROJECT AND LOCATION

This permit authorizes Southern Gardens Citrus Processing Corp. to install three additional citrus juice extractors, plus two additional new extractors, at its existing citrus processing facility, raising the total number of extractors to forty-one.

SECTION I. FACILITY INFORMATION

FACILITY DESCRIPTION, PROJECT DETAILS AND RULE APPLICABILITY

The applicant proposed in this project to install three additional juice extractors, plus two additional new extractors, bringing the total number of juice extractors at the facility to forty-one. This will raise the annual processing capacity of the facility to 20 million boxes of citrus fruit per year (based on 90 pounds of oranges or 85 pounds of grapefruit per box).

.....Briefly, although this project results in a physical change to the facility by the addition of the three juice extractors, plus two additional new extractors, the applicant is not constructing emissions units, and the applicant's requested relaxation of current federally enforceable limits on the existing d-limonene storage tanks does not result in a requirement to install control technology.

**PUBLIC NOTICE OF INTENT TO ISSUE
AIR CONSTRUCTION PERMIT AMENDMENT**

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
PSD-R-2399(B)
DEP File No. 0510015-013-AC

Southern Gardens Citrus Processing Corp.
Hernando County

The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction permit amendment to Southern Gardens Citrus Processing Corp. for its existing citrus juice processing facility located at 755 County Road 833, Clewiston, Hernando County, Florida 33440. The permit amendment is to authorize Southern Gardens Citrus Processing Corp. to construct two additional new juice extractors, for a total of forty-one extractors. The permitted annual fault throughput and minimum citrus oil recovery rate will not change. The applicant's mailing address is: PO Box 130, Clewiston, Florida 33440. This project is not subject to the requirements of New Source Review. An air quality impact analysis was not required.

The Department will issue the final permit amendment with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed permit amendment issuance action for a period of fourteen (14) days from the date of publication of this Public Notice of Intent to Issue Air Construction Permit Amendment. Written comments should be provided to the Department's Bureau of Air Regulation at 2600 Blair Stone Road, Mail Station #5505, Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit amendment and require, if applicable, another Public Notice.

The Department will issue the permit amendment with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57 Florida Statutes (F.S.), before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code (F.A.C.).

A petition that disputes the material facts upon which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Dept. of Environmental Protection
Bureau of Air Regulation
Suite 4, 711 S. Magnolia Drive
Tallahassee, Florida 32301
Telephone: 850/488-0114
Fax: 850/522-6979

Dept. of Environmental Protection
South District
2295 Victoria Avenue, Suite 364
Ft. Myers, Florida 33902-2549
Telephone: 239/332-6975
Fax: 239/332-6969

The complete project file includes the application, technical evaluation, draft permit amendment, and the information submitted by the responsible official, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact the Administrator, Title V Section, or the Department's reviewing engineer for this project, Edward J. Svec, at the Bureau of Air Regulation in Tallahassee, Florida, or call 850/488-0114, for additional information. Written comments directed to the Department's reviewing engineer should be sent to the following mailing address: Dept. of Environmental Protection, Bureau of Air Regulation, Mail Station #5505, Tallahassee, Florida, 32399-2400.

Memorandum

Florida Department of Environmental Protection

TO: Trina Vielhauer

THRU: Scott Sheplak *SS*

FROM: Ed Svec *ES*

DATE: September 15, 2003

SUBJECT: Southern Gardens Citrus Processing Corp.
Two Additional New Citrus Juice Extractors

Attached for approval and signature is an intent to issue an amendment to their existing PSD permit (PSD-FL-299) to allow Southern Gardens Citrus Processing Corp. to construct two additional new juice extractors at their plant located at 755 County Road 833, Clewiston, Hendry County, Florida 33440. The existing permit allows the construction of three additional juice extractors, for a total of thirty-nine extractors; limits the annual fruit throughput to twenty million boxes; and, specifies a minimum citrus oil recovery of fifty percent. The application requests the construction of two additional new juice extractors, bringing the total number of extractors to forty-one; requests no change to the annual fruit throughput; and, requests no change in the citrus oil recovery rate. There will be no emissions increase, so no further PSD review is required.

I recommend your approval and signature.

Re: Draft Permit Amendment No. PSD-FL-299(B)
DEP File No. 0510015-013-AC

Dear Mr. Chapman:

Enclosed is one copy of the Draft Amendment to the Permit for the Prevention of Significant Deterioration of Air Quality (PSD Permit) for the Southern Gardens Citrus Processing Corp. facility located at 755 County Road 833, Clewiston, Hendry County, Florida 33440. The Department's Intent to Issue Air Construction Permit Amendment, the Draft Permit Amendment, Technical Evaluation and Preliminary Determination, and the "PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION PERMIT AMENDMENT" are also included.

The "PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION PERMIT AMENDMENT" must be published one time only, as soon as possible, in the legal advertisement section of a newspaper of general circulation in the area affected, pursuant to the requirements Chapter 50, Florida Statutes. Proof of publication, i.e., newspaper affidavit, must be provided to the Department's Bureau of Air Regulation office within seven days of publication pursuant to Rule 62-110.106(5), F.A.C. Failure to publish the notice and provide proof of publication may result in the denial of the permit pursuant to Rule 62-110.106(11), F.A.C.

Please submit any written comments you wish to have considered concerning the Department's proposed action to Scott M. Sheplak, P.E., Administrator, Title V Section at the above letterhead address. If you have any other questions, please contact Edward J. Svec at 850/921-8985.

Sincerely,

Trina Vielhauer, Chief

In the Matter of an
Application for Permit Amendment by:

Mr. Tristan Chapman, Vice President and General Manager
Southern Gardens Citrus Processing Corp.
PO Box 130
Clewiston, Florida 34737

PSD-FL-299(B)
DEP File No. 0510015-013-AC
Addition of Two New Juice Extractors
Hendry County

INTENT TO ISSUE AIR CONSTRUCTION PERMIT AMENDMENT

The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction permit amendment (copy of draft permit amendment attached) for the proposed project, detailed in the application specified above and the enclosed Technical Evaluation and Preliminary Determination, for the reasons stated below.

The applicant, Southern Gardens Citrus Processing Corp., applied on August 15, 2003, to the Department for an air construction permit amendment for its existing citrus juice processing facility located at 755 County Road 833, Clewiston, Hendry County, Florida 33440. The permit amendment is to authorize Southern Gardens Citrus Processing Corp. to construct two additional new juice extractors, for a total of forty-one extractors. The permitted annual fruit throughput and minimum citrus oil recovery rate will not change.

The Department has permitting jurisdiction under the provisions of Chapter 403, Florida Statutes (F.S.), and Florida Administrative Code (F.A.C.) Chapters 62-4, 62-210, and 62-212. The above action is not exempt from permitting procedures. The Department has determined that an air construction permit amendment is required to perform the proposed work.

The Department intends to issue this air construction permit amendment based on the belief that reasonable assurances have been provided to indicate that operation of these emission units will not adversely impact air quality, and the emission units will comply with all appropriate provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-296, and 62-297, F.A.C.

Pursuant to Section 403.815, F.S., and Rule 62-110.106(7)(a)1., F.A.C., you (the applicant) are required to publish at your own expense the enclosed Public Notice of Intent to Issue Air Construction Permit Amendment. The notice shall be published one time only in the legal advertisement section of a newspaper of general circulation in the area affected. Rule 62-110.106(7)(b), F.A.C., requires that the applicant cause the notice to be published as soon as possible after notification by the Department of its intended action. For the purpose of these rules, "publication in a newspaper of general circulation in the area affected" means publication in a newspaper meeting the requirements of Sections 50.011 and 50.031, F.S., in the county where the activity is to take place. If you are uncertain that a newspaper meets these requirements, please contact the Department at the address or telephone number listed below. The applicant shall provide proof of publication to the Department's Bureau of Air Regulation, at 2600 Blair Stone Road, Mail Station #5505, Tallahassee, Florida 32399-2400 (Telephone: 850/488-0114; Fax 850/ 922-6979). You must provide proof of publication within seven days of publication, pursuant to Rule 62-110.106(5), F.A.C. No permitting action for which published notice is required shall be granted until proof of publication of notice is made by furnishing a uniform affidavit in substantially the form prescribed in Section 50.051, F.S. to the office of the Department issuing the permit amendment. Failure to publish the notice and provide proof of publication may result in the denial of the permit amendment pursuant to Rules 62-110.106(9) & (11), F.A.C.

The Department will issue the final permit amendment with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed permit amendment issuance action for a period of fourteen (14) days from the date of publication of Public Notice of Intent to Issue Air Construction Permit Amendment. Written comments should be provided to the Department's Bureau of Air Regulation at 2600 Blair Stone Road, Mail Station #5505, Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit amendment and require, if applicable, another Public Notice.

The Department will issue the permit amendment with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57, F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the

information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available in this proceeding.

In addition to the above, a person subject to regulation has a right to apply for a variance from or waiver of the requirements of particular rules, on certain conditions, under Section 120.542, F.S. The relief provided by this state statute applies only to state rules, not statutes, and not to any federal regulatory requirements. Applying for a variance or waiver does not substitute or extend the time for filing a petition for an administrative hearing or exercising any other right that a person may have in relation to the action proposed in this notice of intent.

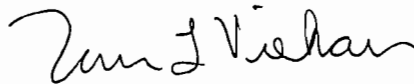

The application for a variance or waiver is made by filing a petition with the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. The petition must specify the following information: (a) The name, address, and telephone number of the petitioner; (b) The name, address, and telephone number of the attorney or qualified representative of the petitioner, if any; (c) Each rule or portion of a rule from which a variance or waiver is requested; (d) The citation to the statute underlying (implemented by) the rule identified in (c) above; (e) The type of action requested; (f) The specific facts that would justify a variance or waiver for the petitioner; (g) The reason why the variance or waiver would serve the purposes of the underlying statute (implemented by the rule); and (h) A statement whether the variance or waiver is permanent or temporary and, if temporary, a statement of the dates showing the duration of the variance or waiver requested.

The Department will grant a variance or waiver when the petition demonstrates both that the application of the rule would create a substantial hardship or violate principles of fairness, as each of those terms is defined in Section

120.542(2), F.S., and that the purpose of the underlying statute will be or has been achieved by other means by the petitioner.

Persons subject to regulation pursuant to any federally delegated or approved air program should be aware that Florida is specifically not authorized to issue variances or waivers from any requirements of any such federally delegated or approved program. The requirements of the program remain fully enforceable by the Administrator of the EPA and by any person under the Clean Air Act unless and until the Administrator separately approves any variance or waiver in accordance with the procedures of the federal program.

Executed in Tallahassee, Florida.

Trina Vielhauer, Chief
Bureau of Air Regulation

PUBLIC NOTICE OF INTENT TO ISSUE AIR CONSTRUCTION PERMIT AMENDMENT

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION

PSD-FL-299(B)
DEP File No. 0510015-013-AC

Southern Gardens Citrus Processing Corp.

Hendry County

The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction permit amendment to Southern Gardens Citrus Processing Corp. for its existing citrus juice processing facility located at 755 County Road 833, Clewiston, Hendry County, Florida 33440. The permit amendment is to authorize Southern Gardens Citrus Processing Corp. to construct two additional new juice extractors, for a total of forty-one extractors. The permitted annual fruit throughput and minimum citrus oil recovery rate will not change. The applicant's mailing address is: PO Box 130, Clewiston, Florida 33440. This project is not subject to the requirements of New Source Review. An air quality impact analysis was not required.

The Department will issue the final permit amendment with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed permit amendment issuance action for a period of fourteen (14) days from the date of publication of this Public Notice of Intent to Issue Air Construction Permit Amendment. Written comments should be provided to the Department's Bureau of Air Regulation at 2600 Blair Stone Road, Mail Station #5505, Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit amendment and require, if applicable, another Public Notice.

The Department will issue the permit amendment with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57 Florida Statutes (F.S.), before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code (F.A.C.).

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise

NOTICE TO BE PUBLISHED IN THE NEWSPAPER

statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Dept. of Environmental Protection
Bureau of Air Regulation
Suite 4, 111 S. Magnolia Drive
Tallahassee, Florida, 32301
Telephone: 850/488-0114
Fax: 850/922-6979

Dept. of Environmental Protection
South District
2295 Victoria Avenue, Suite 364
Ft. Myers, Florida 33902-2549
Telephone: 239/332-6975
Fax: 239/332-6969

The complete project file includes the application, technical evaluation, draft permit amendment, and the information submitted by the responsible official, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact the Administrator, Title V Section, or the Department's reviewing engineer for this project, Edward J. Svec, at the Bureau of Air Regulation in Tallahassee, Florida, or call 850/488-0114, for additional information. Written comments directed to the Department's reviewing engineer should be sent to the following mailing address: Dept. of Environmental Protection, Bureau of Air Regulation, Mail Station #5505, Tallahassee, Florida, 32399-2400.

NOTICE TO BE PUBLISHED IN THE NEWSPAPER

1 APPLICANT NAME AND ADDRESS

Southern Gardens Citrus Processing Corp.
PO Box 130
Clewiston, Florida 33440

Authorized Representative: Tristan Chapman, VP and General Manager

2 FACILITY DESCRIPTION, PROJECT DETAILS AND RULE APPLICABILITY

The facility is an existing citrus juice processing facility. The project is the installation of two new additional citrus juice extractors. The addition of these juice extractors will bring the total number of extractors at the facility to forty-one.

There is no increase in annual potential emissions associated with this project. The applicant indicated in the application that they are not requesting any change in the capacity limitation of 20 million boxes of fruit processed per year, a change in the minimum citrus oil recovery rate of fifty percent, or any change to any other permit condition imposed by permits 0510015-007-AC (PSD-FL-299) and 0510015-010-AC (PSD-FL-299A).

The proposed project is subject to preconstruction review requirements under the provisions of Chapter 403, F.S., and Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297, F.A.C. The existing facility is located in an area designated, in accordance with Rule 62-204.340, F.A.C., as attainment or unclassifiable for the criteria pollutants ozone, PM₁₀, carbon monoxide, SO₂, nitrogen dioxide and lead. This facility is classified as a Major or Title V Source of air pollution, because emissions of at least one regulated air pollutant exceeds 100 tons per year (TPY). At this facility potential emissions of PM/PM₁₀, NO_x, SO₂, CO and VOC exceed 100 TPY.

This facility is not within an industry included in the list of the 28 Major Facility Categories per Table 62-212.400-1 of Chapter 62-212, F.A.C. Because emissions are greater than 250 TPY for at least one criteria pollutant, the facility is also an existing Major Facility with respect to Rule 62-212.400, Prevention of Significant Deterioration (PSD). There is no net increase in emissions of any criteria pollutant as a result of this project. Therefore, the project is not subject to New Source Review (NSR) requirements of Rule 62-212.400, F.A.C.

An impact analysis was not required for this project because it is not subject to the requirements of NSR.

The facility is subject to the requirements of the current valid Title V permit that are not changed by this permitting action. It is also subject to the requirements of the state rules as indicated in this permit. This permitting action is not subject to any requirements under the New Source Performance Standards, 40 CFR 60, or any NESHAP requirements of 40 CFR 61 or 63.

3 COMPLIANCE

The compliance methods, previously specified by permits 0510015-007-AC (PSD-FL-299) and 0510015-010-AC (PSD-FL-299A), are not affected by this permitting action.

4 PRELIMINARY DETERMINATION

Based on the foregoing technical evaluation of the application and additional information submitted by the applicant and other available information, the Department has made a preliminary determination that the proposed project will comply with all applicable state and federal air pollution regulations. The Department's preliminary determination is to issue the draft permit to allow installation of two additional juice extractors, subject to the terms and conditions of the draft permit.

5 FINAL DETERMINATION

Re: Permit Amendment No. PSD-FL-299(B)
DEP File No. 0510015-013-AC

Dear Mr. Chapman:

The Department has reviewed Southern Gardens Citrus Processing Corp.'s August 15, 2003 application requesting an amendment to their existing PSD permit (PSD-FL-299) to allow the construction of two additional new juice extractors at their plant located at 755 County Road 833, Clewiston, Hendry County, Florida 33440. The existing permit allows the construction of three additional juice extractors, for a total of thirty-nine extractors; limits the annual fruit throughput to twenty million boxes; and, specifies a minimum citrus oil recovery of fifty percent. The application requests the construction of two additional new juice extractors, bringing the total number of extractors to forty-one; requests no change to the annual fruit throughput; and, requests no change in the citrus oil recovery rate.

This request is acceptable and the permit is hereby amended as follows:

From:

PLACARD PAGE

PROJECT AND LOCATION

This permit authorizes Southern Gardens Citrus Processing Corp. to install three additional citrus juice extractors at its existing citrus processing facility, raising the total number of extractors to thirty nine.

SECTION I. FACILITY INFORMATION

FACILITY DESCRIPTION, PROJECT DETAILS AND RULE APPLICABILITY

The applicant proposed in this project to install three additional juice extractors, bringing the total number of juice extractors at the facility to thirty nine. This will raise the annual processing

capacity of the facility to 20 million boxes of citrus fruit per year (based on 90 pounds of oranges or 85 pounds of grapefruit per box).

.....Briefly, although this project results in a physical change to the facility by the addition of the three juice extractors, the applicant is not constructing emissions units, and the applicant's requested relaxation of current federally enforceable limits on the existing d-limonene storage tanks does not result in a requirement to install control technology.

SECTION II. FACILITY-WIDE SPECIFIC CONDITIONS

The following specific conditions apply to all emissions units at this facility addressed by this permit after installation of any or all of the three additional juice extractors. The throughput and oil recovery limitations shall apply to the facility as a whole. These conditions shall revise and supplement conditions imposed by previous permitting actions. Except for the conditions of this subsection, no other conditions of previous permitting actions shall be changed by this permit.

SECTION III. EMISSIONS UNITS SPECIFIC CONDITIONS

Subsection A. The following specific conditions apply to the following emissions units after installation of any or all of the three additional juice extractors. These conditions shall revise and supplement conditions imposed by previous permitting actions. Except for the conditions of this subsection, no other conditions of previous permitting actions shall be changed by this permit.

Subsection B. The following specific conditions apply to the following emissions unit after installation of any or all of the three additional juice extractors. These conditions shall revise and supplement conditions imposed by previous permitting actions. Except for the conditions of this subsection, no other conditions of previous permitting actions shall be changed by this permit.

Subsection C. The following specific conditions apply to the following emissions unit after installation of any or all of the three additional juice extractors. These conditions shall revise and supplement conditions imposed by previous permitting actions. Except for the conditions of this subsection, no other conditions of previous permitting actions shall be changed by this permit.

To:

PLACARD PAGE

PROJECT AND LOCATION

This permit authorizes Southern Gardens Citrus Processing Corp. to install three additional citrus juice extractors, plus two additional new extractors, at its existing citrus processing facility, raising the total number of extractors to forty-one.

SECTION I. FACILITY INFORMATION

FACILITY DESCRIPTION, PROJECT DETAILS AND RULE APPLICABILITY

The applicant proposed in this project to install three additional juice extractors, plus two additional new extractors, bringing the total number of juice extractors at the facility to forty-one. This will raise the annual processing capacity of the facility to 20 million boxes of citrus fruit per year (based on 90 pounds of oranges or 85 pounds of grapefruit per box).

.....Briefly, although this project results in a physical change to the facility by the addition of the three juice extractors, plus two additional new extractors, the applicant is not constructing emissions units, and the applicant's requested relaxation of current federally enforceable limits on the existing d-limonene storage tanks does not result in a requirement to install control technology.

SECTION II. FACILITY-WIDE SPECIFIC CONDITIONS

The following specific conditions apply to all emissions units at this facility addressed by this permit after installation of any or all of the three additional juice extractors, plus two additional new extractors. The throughput and oil recovery limitations shall apply to the facility as a whole. These conditions shall revise and supplement conditions imposed by previous permitting actions. Except for the conditions of this subsection, no other conditions of previous permitting actions shall be changed by this permit.

SECTION III. EMISSIONS UNITS SPECIFIC CONDITIONS

Subsection A. The following specific conditions apply to the following emissions units after installation of any or all of the three additional juice extractors, plus two additional new extractors. These conditions shall revise and supplement conditions imposed by previous permitting actions. Except for the conditions of this subsection, no other conditions of previous permitting actions shall be changed by this permit.

Subsection B. The following specific conditions apply to the following emissions unit after installation of any or all of the three additional juice extractors, plus two additional new extractors. These conditions shall revise and supplement conditions imposed by previous permitting actions. Except for the conditions of this subsection, no other conditions of previous permitting actions shall be changed by this permit.

Subsection C. The following specific conditions apply to the following emissions unit after installation of any or all of the three additional juice extractors, plus two additional new extractors. These conditions shall revise and supplement conditions imposed by previous permitting actions. Except for the conditions of this subsection, no other conditions of previous permitting actions shall be changed by this permit.

A copy of this letter shall be filed with the referenced permit and shall become part of the permit.

Sincerely,

Michael G. Cooke, Director
Division of Air Resource
Management

Attention: Mr. Ed Svec, Air Permitting Engineer

BUREAU OF AIR REGULATION

RE: SOUTHERN GARDENS CITRUS PROCESSING CORP.
PERMIT NO. 0510015-007-AC
ADDITIONAL JUICE EXTRACTORS

Dear Mr. Svec:

Project No. : 0510015-013-AC

Southern Gardens Citrus Processing Corporation (SGCPC) was issued the above referenced air construction permit on December 12, 2000, for the installation of three additional juice extractors at their citrus processing plant located west of Clewiston, Florida. This permit was later amended on May 10, 2002, by permit no. 0510015-010-AC. These permits allowed SGCPC to increase the number of juice extractors from thirty-six (36) to thirty-nine (39). The permits also imposed a throughput capacity limitation on the entire facility of 20 million boxes of fruit per year. Minimum citrus oil recovery was specified as 50% on a 12-month rolling average.

SGCPC would now like to amend the previous construction permit to allow an additional two (2) juice extractors to be installed. This will bring the total number of juice extractors at the facility to forty-one (41).

It is noted that this change will not cause SGCPC's citrus production to increase above historical production, or above its permit limitation of 20 million boxes per year. SGCPC is not requesting any change in the capacity limitation of 20 million boxes of fruit per year, or any change to any other permit condition in permit no. 0510015-007-AC or 0510015-010-AC. This change will not increase emissions of any regulated air pollutant.

It is requested that the above referenced air construction permit be amended to allow the installation of two (2) additional juice extractors at the SGCPC facility.

Thank you for consideration of this request. Please call (352-336-5600) or e-mail me or Derek Pridgen of SGCPC (863-902-4178) if you have any questions concerning this request.

Sincerely,

GOLDER ASSOCIATES INC.

Initial Title V air operation permit for a facility which, upon start up of one or more newly constructed or modified emissions units addressed in this application, would become classified as a Title V source.

Current construction permit number: _____

Title V air operation permit revision to address one or more newly constructed or modified emissions units addressed in this application.

Current construction permit number: _____

Operation permit number to be revised: _____

Title V air operation permit revision or administrative correction to address one or more proposed new or modified emissions units and to be processed concurrently with the air construction permit application. (Also check Air Construction Permit Application below.)

Operation permit number to be revised/corrected: _____

Title V air operation permit revision for reasons other than construction or modification of an emissions unit. Give reason for the revision; e.g., to comply with a new applicable requirement or to request approval of an "Early Reductions" proposal.

Operation permit number to be revised: _____

Reason for revision: _____

Air Construction Permit Application

This Application for Air Permit is submitted to obtain: (Check one)

Air construction permit to construct or modify one or more emissions units.

Air construction permit to make federally enforceable an assumed restriction on the potential emissions of one or more existing, permitted emissions units.

Air construction permit for one or more existing, but unpermitted, emissions units.

Owner/Authorized Representative or Responsible Official

1. Name and Title of Owner/Authorized Representative or Responsible Official: Tristan Chapman, Vice President, General Manager
2. Owner/Authorized Representative or Responsible Official Mailing Address: Organization/Firm: Southern Gardens Citrus Processing Corp. Street Address: 755 CR 833 City: Clewiston State: FL Zip Code: 33440
3. Owner/Authorized Representative or Responsible Official Telephone Numbers: Telephone: (863) 983 - 3030 Fax: (863) 983 - 3060
4. Owner/Authorized Representative or Responsible Official Statement: <i>I, the undersigned, am the owner or authorized representative*(check here [], if so) or the responsible official (check here [X], if so) of the Title V source addressed in this application, whichever is applicable. I hereby certify, based on information and belief formed after reasonable inquiry, that the statements made in this application are true, accurate and complete and that, to the best of my knowledge, any estimates of emissions reported in this application are based upon reasonable techniques for calculating emissions. The air pollutant emissions units and air pollution control equipment described in this application will be operated and maintained so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof. I understand that a permit, if granted by the Department, cannot be transferred without authorization from the Department, and I will promptly notify the Department upon sale or legal transfer of any permitted emissions unit.</i>  _____ Signature 8/14/03 _____ Date

* Attach letter of authorization if not currently on file.

Professional Engineer Certification

1. Professional Engineer Name: David A. Buff Registration Number: 19011
2. Professional Engineer Mailing Address: Organization/Firm: Golder Associates Inc.* Street Address: 6241 NW 23rd Street, Suite 500 City: Gainesville State: FL Zip Code: 32653-1500
3. Professional Engineer Telephone Numbers: Telephone: (352) 336 - 5600 Fax: (352) 336 - 6603

*Board of Professional engineers Certificate of Authorization #00001670.

4. Professional Engineer Statement:

I, the undersigned, hereby certify, except as particularly noted herein, that:*

(1) To the best of my knowledge, there is reasonable assurance that the air pollutant emissions unit(s) and the air pollution control equipment described in this Application for Air Permit, when properly operated and maintained, will comply with all applicable standards for control of air pollutant emissions found in the Florida Statutes and rules of the Department of Environmental Protection; and

(2) To the best of my knowledge, any emission estimates reported or relied on in this application are true, accurate, and complete and are either based upon reasonable techniques available for calculating emissions or, for emission estimates of hazardous air pollutants not regulated for an emissions unit addressed in this application, based solely upon the materials, information and calculations submitted with this application.

If the purpose of this application is to obtain a Title V source air operation permit (check here [], if so), I further certify that each emissions unit described in this Application for Air Permit, when properly operated and maintained, will comply with the applicable requirements identified in this application to which the unit is subject, except those emissions units for which a compliance schedule is submitted with this application.

If the purpose of this application is to obtain an air construction permit for one or more proposed new or modified emissions units (check here [X], if so), I further certify that the engineering features of each such emissions unit described in this application have been designed or examined by me or individuals under my direct supervision and found to be in conformity with sound engineering principles applicable to the control of emissions of the air pollutants characterized in this application.

If the purpose of this application is to obtain an initial air operation permit or operation permit revision for one or more newly constructed or modified emissions units (check here [], if so), I further certify that, with the exception of any changes detailed as part of this application, each such emissions unit has been constructed or modified in substantial accordance with the information given in the corresponding application for air construction permit and with all provisions contained in such permit.

FACILITY REGULATIONS**

Title V Core List

Effective:03/01/02

[Note: The Title V Core List is intended to simplify the completion of the "List of Applicable Regulations" that apply facility-wide (see Subsection II.B. of DEP Form No. 62-210.900(1), Application for Air Permit - Long Form. The Title V Core List is a list of rules to which all Title V Sources are presumptively subject. The Title V Core List may be referenced in its entirety, or with specific exceptions. The Department may periodically update the Title V Core List.

Requirements that apply to emissions units must be identified in Subsection III.B. of DEP Form No. 62-210.900(1), Application for Air Permit - Long Form.

Applicants must identify all "applicable requirements" in order to claim the "permit shield" described at Rule 62-213.460, F.A.C.]

ATTACHMENT A

ATTACHMENT A

Southern Gardens Citrus Processing Corporation (SGCPC) is a citrus processing facility located in Hendry County, west of Clewiston (see application form, Attachment SG-FE-1). This air construction permit application is requesting authorization to install two new citrus juice extractors. The facility currently has a total of thirty-nine (39) juice extractors in three extraction lines.

SGCPC received a construction permit in December 2000 (permit no. 0510015-007-AC) to install three (3) additional juice extractors, to bring the facility total to 39 extractors. This permit was later amended on May 10, 2002, by permit no. 0510015-010-AC. These permits also imposed a throughput capacity limitation on the entire facility of 20 million boxes of fruit per year. Minimum citrus oil recovery was specified as 50% on a 12-month rolling average.

SGCPC would now like to amend the previous construction permits to allow an additional two (2) juice extractors to be installed, bringing the total number of juice extractors to forty-one (41).

This change will not cause SGCPC's citrus production to increase above historical production, or above its permit limitation of 20 million boxes per year. During recent periods, SGCPC has processed up to 20 million boxes in a 12-month period. SGCPC is not requesting any change in the capacity limitation of 20 million boxes of fruit per year, or any change to any other permit condition in permit no. 0510015-007-AC or 0510015-010-AC. This change will not increase emissions of any regulated air pollutant.

It is requested that the above referenced air construction permits be amended to allow the installation of two (2) additional juice extractors at the SGCPC facility.

**PUBLIC NOTICE OF INTENT TO ISSUE
AIR CONSTRUCTION PERMIT AMENDMENT**

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
PSD-FL-299(B)
CEP File No. 0510015-013-AC

Southern Gardens Citrus Processing Corp.
Hendry County

The Department of Environmental Protection (Department) gives notice of its intent to issue an air construction permit amendment to Southern Gardens Citrus Processing Corp. for its existing citrus juice processing facility located at 755 County Road 833, Clewiston, Hendry County, Florida 33440. The permit amendment is to authorize Southern Gardens Citrus Processing Corp. to construct two additional new juice extractors, for a total of forty-one extractors. The permitted annual fruit throughput and minimum citrus oil recovery rate will not change. The applicant's mailing address is: PO Box 130, Clewiston, Florida 33440. This project is not subject to the requirements of New Source Review. An air quality impact analysis was not required.

The Department will issue the final permit amendment with the attached conditions unless a response received in accordance with the following procedures results in a different decision or significant change of terms or conditions.

The Department will accept written comments concerning the proposed permit amendment issuance action for a period of fourteen (14) days from the date of publication of this Public Notice of Intent to Issue Air Construction Permit Amendment. Written comments should be provided to the Department's Bureau of Air Regulation at 2600 Blair Stone Road, Mail Station #5505, Tallahassee, FL 32399-2400. Any written comments filed shall be made available for public inspection. If written comments received result in a significant change in the proposed agency action, the Department shall revise the proposed permit amendment and require, if applicable, another Public Notice.

The Department will issue the permit amendment with the attached conditions unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57 Florida Statutes (F.S.), before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

Mediation is not available in this proceeding.

A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. Petitions filed by the permit applicant or any of the parties listed below must be filed within fourteen days of receipt of this notice of intent. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3) of the Florida Statutes must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Department for notice of agency action may file a petition within fourteen days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205 of the Florida Administrative Code (F.A.C.).

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner, the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts upon which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

A complete project file is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Dept. of Environmental Protection
Bureau of Air Regulation
Suite 4, 411 S. Magnolia Drive
Tallahassee, Florida 32301
Telephone: 850/488-0114
Fax: 850/922-6979

Dept. of Environmental Protection
South District
2295 Victoria Avenue, Suite 364
Ft. Myers, Florida 33902-2549
Telephone: 239/332-6975
Fax: 239/332-6969

The complete project file includes the application, technical evaluation, draft permit amendment, and the information submitted by the responsible official, exclusive of confidential records under Section 403.111, F.S. Interested persons may contact the Administrator, Title V Section, or the Department's reviewing engineer for this project, Edward J. Svec, at the Bureau of Air Regulation in Tallahassee, Florida, or call 850/488-0114, for additional information. Written comments directed to the Department's reviewing engineer should be sent to the following mailing address: Dept. of Environmental Protection, Bureau of Air Regulation, Mail Station #5505, Tallahassee, Florida, 32399-2400.
