Subject: RE: Southeast Renewable Fuels Sweet Sorghum to Ethanol Biorefinery

Dear Mr. Markley:

Thank you very much for your time on Monday October 25 for our discussion regarding your recent submittal (application update) received by the Department on October 12, 2010.

As we explained then, we intended to issue a package tomorrow October 28 constituting our official draft decision for your proposed Sweet Sorghum to Ethanol Advanced Biorefinery.

This is to let you know that we will no longer send you the package tomorrow because it is now my understanding that, per your company representative, SRF wishes to have a follow up meeting prior to issuance of the official draft.

Accordingly, we have reset our permitting clock marked to the date of your latest submittal. Thus we would need to determine completeness on or before November 11th. If complete, we are required to take action on your application on or before January 10, 2011.

Please let me know right away if you actually do expect the official draft on October 28! !

If you have any questions, feel free to call me at 850-921-9523 (w) or 850-591-7364 (c).

Sincerely,

Alvaro Linero, P.E.
