Mr. Bill Thomas, P.E.
Air Engineering Section
FDER-Southwest District
4520 Oak Fair Boulevard
Tampa, Florida 33610-7347

SUBJECT: Florida Mining and Materials
Permit No. AC27-173474 - Kiln No. 2
Permit Nos. AC27-185898; AC27-185900 through 185907
Kiln No. 2 Auxiliary Sources
C/TA # F03.175

Dear Mr. Thomas:

This correspondence, concerning the subject sources, is in accordance with my March 25, 1991, telephone conversation with Mr. Chi Sun Lee of your staff. From our conversation, it is our understanding that due to medical problems, Mr. Joe Tessitore, P.E, was absent from work today and unable to sign and seal the FDER Air Pollution Sources Certificate of Completion of Construction on the subject sources, so these items were not delivered to your office today. It is anticipated that Mr. Tessitore will be at work on Tuesday, March 26, 1991 and sign and seal the packages. It is with your approval that we will then deliver them to your office on March 26, 1991.

Should you have any questions, please do not hesitate to call.

Sincerely,

Gregory R. Gonzales
Environmental Specialist
