RE: CEMEX Cement, Inc.  
Brooksville Cement Plant  
Air Construction Permit Application submitted on November 2002

Dear Mr. DeAngelo;

CEMEX Cement, Inc. at this time, wishes to withdraw our Title V Air Construction Permit application that was submitted in November 2002 to change our Title V air permit. The application addressed changes that would allow the plant to burn whole tire derived fuel on our #2 Kiln, the additional use of petroleum coke as a fuel in both kilns and changing the 30 day rolling average on kiln production to an annual average.

If there are any questions concerning this matter, please contact Mr. Charles Walz, at (352) 799-2011.

Sincerely,

Tom Delvecchio  
Plant Manager  
CEMEX Cement, Inc.  
Brooksville Cement Plant
