CERTIFIED MAIL - RETURN RECEIPT REQUESTED

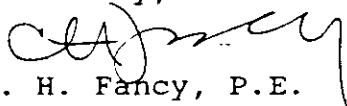

Mr. Randy Thompson
Environmental Department
Florida Crushed Stone Company
Post Office Box 490300
Leesburg, Florida 34749-0300

Dear Mr. Thompson:

Re: Request for Authorization to Utilize/Fire Whole Tires
Continuously in the Facility's Cement Kiln
AC 27-222095 and PSD-FL-091C

Attached is one copy of the proposed construction permit to allow continuous utilization of whole tires as a supplement to the current permitted fuels in Florida Crushed Stone Company's (FCSC) cement kiln. FCSC proposes a utilization/feed rate of 15.0% of the total Btu heat input, or 1.33 tons per hour. The cement kiln was permitted under the construction permit, No. AC 27-118674 (PSD-FL-091), and is not permitted to utilize/fire whole tires in accordance with the referenced permit.

If there are any questions, please call Mr. Bruce Mitchell at (904)488-1344 or submit any written comments you wish to have considered concerning the Department's proposed action to me.

Sincerely,

C. H. Fancy, P.E.
Chief
Bureau of Air Regulation

CHF/BM/rbm

BEFORE THE STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL REGULATION

In the Matter of
Application for Permit by:

Florida Crushed Stone Company
P. O. Box 490300
Leesburg, Florida 34749-0300

DER File Nos. AC 27-222095
PSD-FL-091C

INTENT TO ISSUE

The Department of Environmental Regulation (Department) hereby gives notice of its intent to issue to Florida Crushed Stone Company (FCSC) a construction permit, No. AC 27-222095, and an amendment to the federal permit, No. PSD-FL-091C, authorizing continuous utilization of whole tires in the facility's cement kiln, as detailed in the request for a construction permit specified above. The Department is issuing this Intent to Issue for the reasons stated below and in the attached proposed construction permit.

The applicant, FCSC, submitted a request and processing fee on November 17, 1992, to the Department's Bureau of Air Regulation (BAR) for authorization to utilize/fire whole tires on a continuous basis in the facility's cement kiln. FCSC requests a maximum utilization/firing rate of 15.0% of the total Btu heat input, or 1.33 tons per hour. The cement kiln was permitted under the construction permit, No. AC 27-118674 (PSD-FL-091), and is not permitted to utilize/fire whole tires in accordance with the referenced permit.

The proposed project will occur at the applicant's facility located on U.S. Highway 98 NW of Brooksville, Hernando County, Florida.

The Department has permitting jurisdiction under Chapter 403, F.S., Florida Administrative Code (F.A.C.) Chapters 17-210 and 17-4, and 40 CFR (July, 1991 version). The project is not exempt from permitting procedures. The Department has determined that a construction permit is required for the proposed activity.

Pursuant to Section 403.815, F.S. and Rule 17-103.150, F.A.C., you (the applicant) are required to publish at your own expense the enclosed Notice of Intent to Issue a Permit. The notice shall be published one time only within 30 days, in the legal ad section of a newspaper of general circulation in the area affected. For the purpose of this rule, "publication in a newspaper of general circulation in the area affected" means publication in a newspaper meeting the requirements of Sections 50.011 and 50.031, F.S., in the county where the activity is to take place. The applicant shall provide proof of publication to the Department's Bureau of Air

Regulation, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within seven days of publication. Failure to publish the notice and provide proof of publication within the allotted time may result in the denial of the permit.

The Department will issue the permit with attached conditions unless a petition for an administrative proceeding (hearing) is filed pursuant to the provisions of Section 120.57, F.S.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400. Petitions filed by the permit applicant and the parties listed below must be filed within 14 days of receipt of this intent. Petitions filed by other persons must be filed within 14 days of publication of the public notice or within 14 days of receipt of this intent, whichever first occurs. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, F.S.

The Petition shall contain the following information;

(a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed;

(b) A statement of how and when each petitioner received notice of the Department's action or proposed action;

(c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;

(d) A statement of the material facts disputed by Petitioner, if any;

(e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;

(f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and,

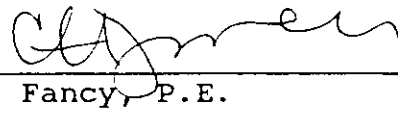

(g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the request/application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office in General Counsel at the above address of the Department.

Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C.

State of Florida
Department of Environmental Regulation
Notice of Intent to Issue

Florida Crushed Stone Company

AC 27-222095 (PSD-FL-091C)

The Department of Environmental Regulation (Department) hereby gives notice of its intent to issue to Florida Crushed Stone Company (FCSC) a construction permit, No. AC 27-222095, and an amendment to the federal permit, No. PSD-FL-091C, authorizing continuous utilization of whole tires in the facility's cement kiln, as detailed in the request for permit. The Department is issuing this Intent to Issue for the reasons stated below and in the proposed construction permit.

The applicant, FCSC, Post Office Box 490300, Leesburg, Florida 34749-0300, submitted a request and processing fee on November 17, 1992, to the Department's Bureau of Air Regulation (BAR) for authorization to utilize/fire whole tires as a supplemental fuel on a continuous basis in the facility's cement kiln. FCSC requests a maximum utilization/firing rate of 15.0% of the total BTU heat input, or 1.33 tons per hour. The cement kiln was permitted under the construction permit, No. AC 27-118674 (PSD-FL-091), and is not permitted to utilize/fire whole tires in accordance with the referenced permit.

Based on the emissions test results (baseline versus whole tire fuel conditions) conducted July 21-29, 1992, actual pollutant emissions of total hydrocarbons (THC) increased by approximately 1.2 lbs/hr (4.8 TPY @ 8300 hrs/yr operation; Note: the PSD significant emission rate is 40 TPY). Since there is no specific source emission limiting standard for THC contained in the Department's regulations nor in the federal New Source Performance Standards, then the proposed construction permit will, for PSD tracking purposes only, contain the maximum projected potential THC emissions level of 22.8 TPY from the cement kiln while firing coal with whole tires; also, a condition will be established limiting whole tire utilization to 8300 hrs/yr.

The proposed project will occur at the applicant's facility located on U.S. Highway 98 NW of Brooksville, Hernando County, Florida.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes (F.S.). The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone

Road, Tallahassee, Florida 32399-2400, within fourteen (14) days of publication of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, F.S.

The Petition shall contain the following information:

(a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed;

(b) A statement of how and when each petitioner received notice of the Department's action or proposed action;

(c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;

(d) A statement of the material facts disputed by Petitioner, if any;

(e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;

(f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and,

(g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the request/application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, Florida Administrative Code.

The request/application is available for public inspection during business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Department of Environmental Regulation
Bureau of Air Regulation
2600 Blair Stone Road
Tallahassee, Florida 32399-2400

PERMITTEE:
Florida Crushed Stone Company
Post Office Box 490300
Leesburg, Florida
34749-0300

Permit Number: AC 27-222095
PSD-FL-091C
Expiration Date: December 31, 1994
County: Hernando
Latitude/Longitude: 28°35'00"N
82°25'53"W
Project: Cement Kiln Modification

This permit is issued under the provisions of Chapter 403, Florida Statutes (F.S.), Florida Administrative Code (F.A.C.) Chapters 17-210 and 17-4, and 40 CFR (July, 1991 version). The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans, and other documents attached hereto or on file with the Department and made a part hereof and specifically described as follows:

For the modification of the cement kiln to allow continuous utilization of whole tires as a supplemental fuel. The maximum utilization/firing rate is 15.0% of the total Btu heat input, or 1.33 tons per hour. The kiln's primary fuel is coal and is supplemented with shredded tires. The facility is located in Brooksville, Hernando County, Florida. The UTM coordinates are Zone 17, 360.102 km East and 3162.125 km North.

The Source Industrial Code: 3241 Cement Manufacturing

The Source Classification Code numbers are:

- o 3-05-006-06 Cement Mfg-Dry Process Tons Cement Produced
- o 3-90-002-01 Bitum. Coal-Cement Kiln Tons Burned
- o 3-90-012-99 Solid Waste-General Tons Burned

The source shall be modified in accordance with the permit request/application, plans, documents, amendments and drawings, except as otherwise noted in the General and Specific Conditions.

Attachments are listed below:

1. FCSC's kiln test results received September 18, 1992.
2. Mr. David A. Buff's Preliminary Report dated November 3, 1992, and received November 10, 1992.
3. Mr. Tom Mountain's letter received November 10, 1992, via FAX.
4. Dr. John B. Koogler's letter and processing fee received November 17, 1992.
5. Construction permit No. AC 27-118674 and its Attachments; also, PSD-FL-091.

PERMITTEE:
Florida Crushed Stone Company

Permit Number: AC 27-222095
PSD-FL-091C
Expiration Date: December 31, 1994

Attachments cont.:

6. Amendment to construction permit No. AC 27-118674, signed November 20, 1992 (PSD-FL-091A).
7. 40 CFR (July, 1991 version).
8. Intent to Issue package dated November 24, 1992.

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations, and restrictions set forth in this permit are "Permit Conditions" and are binding and enforceable pursuant to Sections 403.161, 403.727, or 403.859 through 403.861, F.S. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.

2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.

3. As provided in Subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in the permit.

4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgement of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.

5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of F.S. and Department rules, unless specifically authorized by an order from the Department.

PERMITTEE:
Florida Crushed Stone Company

Permit Number: AC 27-222095
PSD-FL-091C
Expiration Date: December 31, 1994

GENERAL CONDITIONS:

6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed or used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at a reasonable time, access to the premises, where the permitted activity is located or conducted to:

- a. Have access to and copy any records that must be kept under the conditions of the permit;
- b. Inspect the facility, equipment, practices, or operations regulated or required under this permit; and,
- c. Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- a. a description of and cause of non-compliance; and,
- b. the period of noncompliance, including dates and times; or, if not corrected, the anticipated time the non-compliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

PERMITTEE:
Florida Crushed Stone Company

Permit Number: AC 27-222095
PSD-FL-091C
Expiration Date: December 31, 1994

GENERAL CONDITIONS:

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the F.S. or Department rules, except where such use is prescribed by Sections 403.73 and 403.111, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

10. The permittee agrees to comply with changes in Department rules and F.S. after a reasonable time for compliance, provided, however, the permittee does not waive any other rights granted by F.S. or Department rules.

11. This permit is transferable only upon Department approval in accordance with F.A.C. Rules 17-4.120 and 17-30.300, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. This permit constitutes compliance with:

- a. New Source Performance Standards (NSPS), 40 CFR 60.60, Subpart F, Portland Cement Plants;
- b. Prevention of Significant Deterioration; and,
- c. Best Available Control Technology (BACT).

14. The permittee shall comply with the following:

- a. Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
- b. The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.

PERMITTEE:
Florida Crushed Stone Company

Permit Number: AC 27-222095
PSD-FL-091C
Expiration Date: December 31, 1994

GENERAL CONDITIONS:

c. Records of monitoring information shall include:

- the date, exact place, and time of sampling or measurements;
- the person responsible for performing the sampling or measurements;
- the dates analyses were performed;
- the person responsible for performing the analyses;
- the analytical techniques or methods used; and,
- the results of such analyses.

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware that relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

SPECIFIC CONDITIONS:

1. Construction permit No. AC 27-118674 (PSD-FL-091) and all associated documents and conditions are incorporated by reference.

2. Amendment to construction permit No. AC 27-118674 (PSD-FL-091A), signed November 20, 1992, and all associated documents and conditions are incorporated by reference.

3. Whole tire utilization shall not exceed 8300 hours per year. Monthly tabulation of the hours operated while utilizing whole tires shall be initiated and submitted in an annual operation report (AOR) to the Department's Southwest District by March 1 of each year. The files shall contain the last two years of operation data.

4. The cement kiln's maximum utilization/firing rate of whole tires shall not exceed 15.0 percent of the total Btu heat input, or 1.33 tons per hour.

5. The utilization/firing rate of whole tires shall be quantified (weighed) continuously and recorded; and, the records shall be kept on file for a minimum of two years.

6. The quantity of all deliveries of whole tires shall be documented and kept on record/file for a minimum of two years.

PERMITTEE:
Florida Crushed Stone Company

Permit Number: AC 27-222095
PSD-FL-091C
Expiration Date: December 31, 1994

SPECIFIC CONDITIONS:

7. Tire-derived fuel (TDF) may be introduced into the cement kiln only at a point at the base of the preheater (i.e., kiln inlet).

8. TDF firing in the cement kiln shall not commence or be conducted unless the cement kiln has reached an operating temperature of at least 1,400°F for one hour. The operating temperature shall be measured at the cement kiln inlet.

9. TDF firing in the cement kiln shall not commence or be conducted unless the oxygen level in the kiln, as measured at the cement plant induced draft fan, is at least 3 percent (1-hour average).

10. Permittee shall continuously monitor NO_x concentrations in the stack gases in the CPL (cement, power, and lime) main plant stack, and convert the same to a mass emission rate (lb/hr on a 1-hour average) using an FDER approved conversion factor. Within 6 months following EPA promulgation of final regulations on continuous emission monitoring (40 CFR Part 75), a flow monitor and NO_x emission monitor (EPA-approved or equivalent) shall be installed in the CPL main plant stack to continuously measure the stack gas flow rate and NO_x concentration. The monitors shall be maintained and calibrated periodically to insure adequate data. The data shall be recorded on an hourly basis and used in the determination of NO_x stack emissions.

11. Any change in the method of operation, etc., pursuant to Florida Administrative Code (F.A.C.) Rule 17-210.200 (Definitions-Modification), the permittee shall submit an application along with the appropriate processing fee to the Department's Bureau of Air Regulation.

12. Objectionable odors shall not be allowed off the facility's property in accordance with F.A.C. Rule 17-296.320.

13. The permittee shall comply with all of the applicable provisions and requirements of F.A.C. Chapters 17-210 and 17-4, and 40 CFR (July, 1991 version).

14. For PSD tracking purposes only, the projected total hydrocarbon emissions are 22.8 tons per year.

15. The cement kiln and its associated equipment are subject to the applicable provisions of F.A.C. Rules 17-210.650: Circumvention; 17-210.700: Excess Emissions; and, 17-4.130: Plant Operations-Problems

PERMITTEE:
Florida Crushed Stone Company

Permit Number: AC 27-222095
PSD-FL-091C
Expiration Date: December 31, 1994

SPECIFIC CONDITIONS:

16. An AOR shall be submitted to the Department's Southwest District office by March 1 reporting the kiln's averaged process input rate and clinker production of each month of the previous year. The AOR shall also contain the total amount, separately and by weight, of shredded and whole tires utilized/fired during the previous year.

17. The permittee, for good cause, may request that this construction permit be extended. Such a request shall be submitted to the Department's Bureau of Air Regulation prior to 60 days before the expiration of the permit (F.A.C. Rule 17-4.090).

18. An application for an operation permit must be submitted to the Department's Southwest District office at least 90 days prior to the expiration date of this construction permit. To properly apply for an operation permit, the applicant shall submit the appropriate application form, fee, certification that construction was completed and noting any deviations from the conditions in the construction permit, and compliance test reports as required by this permit (F.A.C. Rules 17-4.055 and 17-210.350).
