Dear Mr. Fancy:

This is to acknowledge receipt of your preliminary determination and draft Prevention of Significant Deterioration (PSD) permit for the above referenced source by letter dated May 23, 1995. The modification to the existing PSD permit will allow the source to increase the maximum heat input to the power boiler. The project triggers PSD review for PM/PM<sub>10</sub> emissions. We have reviewed the package as requested and have no adverse comments. If you have any questions on this determination, please contact Mr. Gregg Worley of my staff at (404) 347-3555, extension 4139.

Sincerely yours,

STATE OF FLORIDA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION  
NOTICE OF INTENT TO ISSUE PERMIT AMENDMENT PSD-FL-090  
The Department of Environmental Protection (Department) gives notice of its intent to issue a permit amendment to Central Power & Lime, Inc., 10311 Cement Plant Road, Brooksville, Florida 34601. This company operates a Portland Cement plant and power cogeneration facility, capable of generating a total of 150 megawatts of power. The amendment increases the allowable heat input rate while reducing the allowable particulate matter emissions. Additional control measures will prevent significant increases in actual sulfur dioxide and nitrogen oxides emissions. Therefore, this change will not cause or contribute to a violation of any air pollution standard or adversely affect the environment.  
A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing). In accordance with Section 120.57, Florida Statutes (F.S.), the petition must contain the information set forth below, and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within 14 days of publication of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, F.S.  
The Petition shall contain the following information: (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number, and the county in which the project is proposed; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts disputed by the petitioner, if any; (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; and (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interest will be affected by any decision of the Department with regard to the application/request have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, Florida Administrative Code.  
The application/request is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Department of Environmental Protection, Bureau of Air Regulation, 111 S. Magnolia Drive, Suite 4 Tallahassee, Florida 32301.
