Bruce,

I can't remember if I asked you already, but I need an update on the FCS permit progress. I had thought you were supposed to receive the information you needed last month.

Thanks

Jason,

I'll e-mail you when I get their proof of publication of the Public Notice, which will give you a sense of when the 30-day PN is over and the potential posting of the PROPOSED permit. Take care.

Ok,

so that gives me a couple weeks to get the Chemical Lime Draft ready for mailing. Let me know when it goes proposed, so we can coordinate the timing issues.

I thought we were getting close, didn't want to miss out on the action.

Thanks for the update

Jason
