RE: PSD Permit Application -
Sebring Utilities (PSD-FL-071)

Dear Jeff:

Enclosed please find a copy of a federal PSD permit application package submitted to the Bureau of Air Quality Management (BAQM) by the Sebring Utilities Commission. The application was received by the BAQM on January 9, 1981, and is currently undergoing a completeness review. The review team assigned to the application consists of Teresa Heron (review engineer) and Tom Rogers (meteorologist).

In accordance with our planned use of TRW contractual assistance during this quarter, we would like you to review this application in parallel with us. We will assume responsibility for all direct contact with the applicant; however, we would like members of your staff to bring their thoughts to our attention, while we in turn discuss our findings with them. I will telephone you on Tuesday, January 27, 1981 to discuss with you in greater detail procedures appropriate for processing this application.

Sincerely,

Lawrence A. George
Environmental Administrator
