**Subject:** Re: Fw: E-stone initial Title V application

Hi Susan,

Most of the construction on line 2 is complete however, before line two is placed in operation E-Stone needs to get another RTO and this will require a permit modification or a construction permit.

Please let me know if you have any other questions.

Thanks,  
Sara

Good Morning Bruno, \*

Our office personnel who were at E-Stone in December for their compliance demonstration testing, have communicated to me that polymerizing line 2 construction is complete, but not in operation. Would you please confirm this? I am just trying to figure out how to handle that unit in the permits.

Thanks,

Susan Machinski
