BUREAU OF AIR REGULATION

Re: Request for Additional Information DEP File Number: 0550061-001-AC

Dear Al:

On behalf of Highlands Ethanol LLC (Highlands Ethanol), AMEC Earth & Environmental (AMEC) is providing information requested by the Florida Department of Environmental Protection (FDEP). Specifically, the results of dispersion modeling of predicted fugitive emissions from plant roadways is being provided. Our letter dated April 14, 2009, provides reasons why roadway fugitive emissions were not modeled in the initial application package filed on February 17, 2009. While we believe those reasons remain valid, Highlands Ethanol is submitting the modeling results to facilitate FDEP's review of the application package.

In the course of performing the modeling of predicted fugitive roadway emissions, AMEC discovered that the meteorological data used in the modeling had been incorrectly processed. Consequently, the modeling results and meteorological data filed with our letter dated April 14, 2009, are not accurate. The Greenwich Mean Time (GMT) settings in the AERMET meteorological data processor had been incorrectly set for both the surface and upper air observations. The GMT settings have been corrected and AMEC is providing a CDROM with this letter that includes the corrected meteorological data, the AERMET processing files, and the AERMOD dispersion model results.

The CDROM includes two sets of processed meteorological data, one based on the surface characteristics of the proposed facility site and the other based on the surface characteristics of the NWS site at West Palm Beach Airport. AMEC ran the AERMOD dispersion model for the significant impact analysis and interactive analysis using both sets of meteorological data. The originally submitted February 2009 conclusions of the dispersion modeling analysis remain unchanged as a result of this additional modeling performed with the updated meteorological data sets and predicted fugitive roadway emissions. However, the values presented in the tables have changed. The updated tables are provided in Attachment A.

The roadways were constructed in AERMOD as a series of 209 volume sources with dimensions of 10 meters long by 10 meters wide by 9 meters high. The width and length were

AMEC Earth & Environmental, Inc.

Tel (207) 879-4222
Fax (207) 879-4223

www.amec.com

based on a roadway width of roughly 4 meters plus an allowance in accordance with mobile source modeling procedures of 6 meters to account for the turbulence caused by the vehicles as they move along the roads. The height was based on trucks with a height of 14.75 feet. This height was doubled in accordance with mobile source modeling procedures. The release height was assigned as the midpoint of the volume source height, or 4.5 meters above ground level. Initial dispersion dimensions were assigned by dividing each of the volume source width and height by 2.15. The volume sources were then placed along the roads with a spacing of no more than 10 meters apart to ensure no gaps between the sources. The fugitive emissions calculated for the roadways were distributed uniformly to each volume source, accounting for those portions of the roads that receive two-way traffic and those that receive one-way traffic. The two-way segments are assigned emissions twice that of the one-way segments.

The February 2009 application submittal provided emissions for unpaved road surfaces in the feedstock delivery area. Highlands Ethanol is now designing those road surfaces to be paved. Included in Attachment B are updated emission calculations for the feedstock delivery roads, which are intended to replace those provided in the February submittal.

In addition to the modeling results, AMEC is also enclosing in Attachment C both proof of publication of the public notice of application that was published in *Highlands Today* on July 4, 2009, and a full page of the newspaper issue that includes the notice.

We believe that these enclosed items will satisfy your current outstanding data requests. If you have any questions, please feel free to call me at (207) 879-4222, ext. 37.

Very truly yours,
AMEC Earth & Environmental

Updated Fugitive Emission Calculations for Feedstock Delivery Roads

VERENIUM BIOFUELS CORP.
HIGHLANDS ETHANOL
VEHICLE FUGITIVES (PAVED ROADS)

SOURCE DESCRIPTION

Approximately 130 trucks per day will be used to deliver feedstock and will use the feedstock roads, and an additional 100 vehicles per day will drive on the plant roads. The feedstock roads will be unpaved, consisting primarily of gravel. The plant roads will be paved with asphalt. To minimize fugitive dust (PM) emissions during dry periods, unpaved roads will be wet down with water. Because Highlands Ethanol is considering the use of supplemental biomass in its boilers, an additional 120 trucks per day are conservatively assumed for delivering the supplemental fuel. These trucks are conservatively assumed to use the unpaved feedstock roads.

OPERATING PARAMETERS

Operating Schedule	8,760 hr/yr

Public Notice of Application

Highlands Today and The Tampa Tribune

Published Daily

Sebring, Highlands County, Florida

NOTICE OF APPLICATION
STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL
PROTECTION
DEP File No. DEP File No. 0550061-001-AC
(PSD-PL-406)
Highlands Ethanol, LLC
Cellulosic Ethanol Production Facility
Highlands County

The Department of Environmental Protection (Department) announces receipt of an application for an air construction permit from Highlands Ethanol, LLC. The application is to construct a cellulosic ethanol production facility located in Highlands County, approximately 2 miles northeast of Brighton and north of State Road 70. The feedstocks for the facility will be dedicated energy crops, such as energy cane and forage sorghum, grown on adjacent farmland. The feedstocks will be converted to sugars that will be fermented to produce fuel ethanol. The ethanol will be subsequently denatured with gasoline to produce fuel grade ethanol/gasoline blend (E95). Residues such as stillage will be used for on-site steam generation.

The initial application was received on February 16, 2009. The most recent submittal in response to the Department's requests for additional information was received on April 17, 2009. The application is under review by the Department to determine whether it is complete. When complete, it will be processed under the rules for the Prevention of Significant Deterioration (PSD) of Air Quality, requiring adherence to Best Available Control Technology (BACT) and compliance with the National Ambient Air Quality Standards.

The application is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the following Department offices:

Dept. of Environmental Protection
Bureau of Air Regulation
111 South Magnolia Drive, Suite 4

Bridge
by Frank Stewart
Here's a play-or-defend deal from the ACBL Spring Championships... and I'll let you reconsider along the way.
West led the jack of hearts against the slam. Do you want to try to make six spades or try to beat it?
South won with the king and led a trump. Want to change your mind?
West took the ace of trumps and led a club. Play or defend?
South took the ace of clubs and cashed six trumps. At the 10th trick, he led a club to the king. Dummy had the ace of hearts and K-10 of diamonds; declarer had a trump and two hearts.
East was squeezed: If he bared his ace of diamonds, South would ruff a diamond, making dummy high. If East kept only one heart, South would cash the ace, making his hand high.
West could ruin the squeeze by leading a second heart at Trick Three. Still, you should have chosen to declare. If South ruffs a diamond at the second trick, he has enough dummy entries to ruff out East's ace and return to take the king for his 12th trick.

NOTICE OF PUBLIC HEARING FOR A SPECIAL EXCEPTION REQUEST HEARING NO. 1663

YOU ARE HEREBY NOTIFIED that a PUBLIC HEARING will be held before the Highlands County Board of Adjustment on the 14th day of July, 2009, beginning at 3:00 p.m., or as soon thereafter as possible, in the County Commissioners' Board Room, Highlands County Government Center Building, 600 South Commerce Ave., Sebring, Florida, to consider a special exception to allow for church and church related uses and buildings within the area described as follows: APPROXIMATELY TWO ACRES OF THE SOUTH SIDE OF C.R. 621, EAST OF THE INTERSECTION WITH LAKE CLAY DRIVE, AND LEGALLY DESCRIBED AS FOLLOWS: COMMENCE AT THE NORTHWEST CORNER OF THE SOUTHEAST 1/4 OF SAID SECTION 32, TOWNSHIP 36 SOUTH, RANGE 30 EAST, HIGHLANDS COUNTY, FLORIDA, BEING PARCELS EARLY DESCRIBED AS FOLLOWS: COMMENCE AT THE NORTHWEST CORNER OF THE SOUTHEAST 1/4 OF SAID SECTION 32, TOWNSHIP 36 SOUTH, RANGE 30 EAST, HIGHLANDS COUNTY, FLORIDA, BEING PARCELS EARLY DESCRIBED AS FOLLOWS: APPROXIMATELY 1/3 ACRE LOCATED AT THE INTERSECTION OF C.R. 64 AND AVON PINES ROAD, EAST OF AVON PARK, AND LEGALLY DESCRIBED AS FOLLOWS: APPROXIMATELY 1/3 ACRE LOCATED IN THE SOUTHWEST 1/4 OF THE NORTHWEST 1/4 OF SECTION 33, TOWNSHIP 33 SOUTH, RANGE 29 EAST, SOUTH OF C.R. 64 AND NORTH OF AVON PINES ROAD, HIGHLANDS COUNTY, FLORIDA.

Any person or persons interested or affected by this change are invited to attend this hearing. You may submit comments in writing to the attention of Linda Carter, the Zoning Supervisor, P.O. Box 1926, Sebring, Florida 33871-1926, or you may call (863) 402-6508 (TTY) or via Florida Relay Service 711. Requests for CART or interpreter services should be made at least 24 hours in advance to permit coordination of the service.

ANY PERSON WHO MIGHT WISH TO APPEAL ANY DECISION MADE BY THE BOARD OF ADJUSTMENT IN PUBLIC HEARING OR MEETING IS HEREBY ADVISED THAT THEY MUST INCLUDE THE TESTIMONY AND EVIDENCE UPON WHICH SUCH APPEAL IS TO BE BASED.

Anyone requiring reasonable accommodation as provided for in the Americans with Disabilities Act or Section 286.26 Florida Statutes should contact Mr. John A. Minor, ADA Coordinator at: 863-402-6508 (Voice), 863-402-6508 (TTY), or via Florida Relay Service 711, or by e-mail: jminor@hcbcc.org. Requests for CART or interpreter services should be made at least 24 hours in advance to permit coordination of the service.

ONE OR MORE COUNTY COMMISSIONERS MAY BE PRESENT AT THE MEETING.
Jim Brooks, Chairman
