Re: Cargill Fertilizer, Inc.
Animal Feed Plant - Revised Draft Permit 0570008-013-AC (PSD-FL-234)

Dear Mr. Linero:

Cargill has received the revised draft permit referenced above for the Animal Feed Ingredients (AFI) plants located at the Riverview facility. Based on our review of the revised draft permit, we have several comments concerning the Technical Evaluation and Preliminary Determination (TE&PD), draft permit conditions, and best available control technology (BACT) determination. The comments are presented below.

TE&PD

The comments presented below on the TE&PD are to correct certain inconsistencies in the document. None of these comments require a revision to the draft construction permit.

Section 4.2.3, pg. 5 - The last paragraph of this section refers to production rates based on a 17-hour day. Note that the daily production rate should be referenced as 1,160 TPD. Page 5 of the permit correctly reflects this production rate.

Section 6.1, pg. 8 - The emission summary table incorrectly lists the new allowable for fluorides from the common stack to be 0.53 lb/hr instead of 7.7 lbs/batch. However, Table 1 of the draft permit is correct.

Section 6.4.3, pg. 14 - Note that the stack height for the AFI plants will not be 250 feet. The stack height will be 136 feet, which is less than the GEP de minimis stack height of 213 feet (65 meters).

DRAFT PERMIT

SECTION II

2.2 Unconfined Emissions of Particulate Matter

In paragraph (b) of this specific condition, the word "shall" should be removed in order to conform to the wording in Rule 62-296.320(4)(c).

3.2 Changes/Modifications

The exclusions from a physical change or change in the method of operation due to an increase in the production rate or operating hours, described in Rule 62-210(185), should be added at the end of this section as items 2. and 3.

SECTION III

SUBSECTION A

This source is not subject to NSPS, and therefore the reference to the NSPS in the title to this subsection should be deleted.

SUBSECTION B

B.2 - This condition referring to excess emissions is redundant with Common Specific Condition 3.5 (pg. 6 of 15), and therefore should be deleted.

B.5 - Retaining of records should be for 5 years, consistent with Rule 62-213.440(1)(b)2.b., and Specific Condition C.5 (pg. 15 of 15).

B.6 - This section needs to be reworded to allow for digital logging of data without use of strip chart recorders. Suggested rewording is as follows:

Cargill may, at its option, substitute continuous monitoring and data logging or recordings for the manual record keeping required by this specific condition. If this option is exercised, then all calibration and maintenance records and logged or recorded data shall be retained at least three years.

Also, retaining of records should be for 5 years, consistent with Rule 62-213.440(1)(b)2.b., and Specific Condition C.5 (pg. 15 of 15).

B.10, B.11 - This condition cites 62-297.400, F.A.C., which has been repealed.

B.13 - It is understood that the initial compliance test will be used to obtain representative fluoride emissions data over the entire batch cycle. After the initial compliance test, testing will only be required during the initial part of the batch, when emissions are highest. It is requested that the last sentence of this condition be worded to read as follows:

After the initial compliance test, the test run frequency will be reduced to three runs to be completed within 5 hours of the completion of the addition of diatomaceous earth to the batch tank. Compliance with the fluoride emission limit in Table 1 will be demonstrated if average emissions over the three test runs do not exceed 2.8 lb/hr.

B.15 - It is requested that the phrase "in writing" be deleted from the second sentence. This notification requirement has already been stated in Specific Condition 5.3. It should be reworded to be consistent with Specific Condition 5.3.

B.19 - The requirement for advance notification for testing (auditing) of any instrumentation has been deleted from Specific Condition C.5 (pg. 15 of 15), and should be deleted here to be consistent. Calibration and maintenance records will be retained. However, advance notification for these activities should not be required.

Mr. A. A. Linero
Page 3
May 30, 1997

SUBSECTION C

C.2 - This condition referring to excess emissions is redundant with Common Specific Condition 3.5 (pg. 6 of 15), and therefore should be deleted.

Table 1-1

The allowable emission limit in gr/dscf for AFI Plant No. 2 should be deleted, consistent with AFI Plant No. 1. Also, the lb/ton limit for fluorides for both AFI plants should be deleted. The correct limit for the plants is shown under the lb/hr and TPY columns. Also, it is understood that the NOx emission limit would be deleted from Table 1-1, since it is based on AP-42 emission factors; however, initial stack testing would be performed to verify the emission factor.

APPENDIX BD - BACT

BACT Determination Requested by Applicant

Note that Cargill withdrew the requested BACT limit for fluorides of 0.04 lb/ton. The requested limit is 7.70 lb/batch.

BACT Determination Procedure

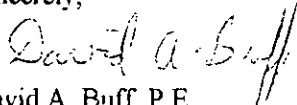

pg. BD-5: The fluoride BACT limit as reflected in the permit (Table 1-1) is 7.70 lb/batch and 1.63 TPY.

BACT Determination by DEP

pg. BD-6: The fluoride BACT limit as reflected in the permit (Table 1-1) is 7.70 lb/batch and 1.63 TPY.

Cargill appreciates your consideration of these comments. Please call if you have any questions or comments.

Sincerely,

David A. Buff, P.E.

NOTICE OF INTENT TO ISSU
PERMIT FOR MODIFIED
PROJECT
STATE OF FLORIDA
DEPARTMENT OF
ENVIRONMENTAL
PROTECTION
DRAFT Permit No.: 0570008
013-AC (PSD-FL-234)
Cargill Riverview Fertilizer
Facility
Animal Feed Ingredient Plant
Hillsborough County
The Department of Environ
mental Protection (Depart
ment) gives notice of its inter
to issue a permit for modify
project to Cargill Fertilize
Inc. for a revision of the emis
sion limits at a recently con
structed animal feed ingred
ent (AFI) plant, and addition o
a second 150,000 ton per yea
AFI plant at the fertilizer ma
nufacturing facility located o
Highway 41 in Riverview
Hillsborough County. This is
revised public notice based o
project modifications submit
ted by Cargill since publica
tion of the original notice o
October 18, 1996. The revis
ions exclude the scrubber fo
the second AFI plant and mod
ify the existing scrubber to
support both AFI plants. The
applicant's name and address
are: Cargill Fertilizer, Inc.,
8813 Highway 41 South, River
view, Florida 33569.

Emissions and Impacts on
ambient air quality pursuant
to rules for the Prevention of
Significant Deterioration
were discussed in the prev
ious notice. The modifications
related to the scrubbers do
not affect the previous deter
mination.

The Department will issue
the FINAL Permit, in accor
dance with the conditions of
the DRAFT Permit unless a
response received in accor
dance with the following pro
cedures results in a different
decision or significant change
of terms or conditions.

The Department will accept
written comments and re
quests for public meetings
concerning the proposed
DRAFT Permit issuance ac
tion for a period of 30 (thirty)
days from the date of publica
tion of this Notice. Written
comments and requests for
public meetings should be
provided to the Department's Bu
reau of Air Regulation, 2600
Blair Stone Road, Mail Station
#5505, Tallahassee, Florida
32399-2400. Any written com
ments filed shall be made
available for public inspection.
If written comments received
result in a significant change
in this DRAFT Permit, the De
partment shall issue a Revised
DRAFT Permit and require, if
applicable, another Public No
tice.

The Department will issue
FINAL Permit with the condi
tions of the DRAFT Permit
unless a timely petition for an
administrative hearing is filed
pursuant to Sections 120.569
and 120.57 F.S. or a party re
quests mediation as an alter
native remedy under Section
120.573 before the deadline for
filing a petition. Choosing me
diation will not adversely af
fect the right to a hearing if
mediation does not result in a
settlement. The procedures
for petitioning for a hearing
are set forth below, followed
by the procedures for request
ing mediation.

A person whose substantial
interests are affected by the
Department's proposed per
mitting decision may petition
for an administrative hearing
in accordance with Sections
120.569 and 120.57 F.S. The
petition must contain the in
formation set forth below and
must be filed (received) in the
Office of General Counsel of
the Department, 3900 Com
monwealth Boulevard, Mail
Station #35, Tallahassee,
Florida 32399-3000, telephone:
904-488-9370, fax: 904/487-

4938. Petitions must be filed within fourteen days of publication of the public notice or within fourteen days of receipt of this notice of intent, whichever occurs first. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition (or a request for mediation, as discussed below) within the appropriate time period shall constitute a waiver of the person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57 F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-5.207 of the Florida Administrative Code.

A petition must contain the following information: (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Permit File Number and the county in which the project is proposed; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of the material facts disputed by petitioner, if any; (e) A statement of the facts that the petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement identifying the rules or statutes that the petitioner contends require reversal or modification of the Department's action or proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take with respect to the Department's action or proposed action addressed in this notice of intent.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice of intent. Persons whose substantial interests will be affected by any such final decision of the Department on the application have the right to petition to become

a party to the proceeding, in accordance with the requirements set forth above.

A person whose substantial interests are affected by the Department's proposed permitting decision, may elect to pursue mediation by asking all parties to the proceeding to agree to such mediation and by filing with the Department a request for mediation and a written agreement of all such parties to mediate the dispute. The request and agreement must be filed in (received by) the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, by the same deadline as set forth above for the filing of a petition.

A request for mediation must contain the following information: (a) The name, address, and telephone number of the person requesting mediation and that person's representative, if any; (b) A statement of the preliminary agency action; (c) A statement of the relief sought; and (d) Either an explanation of how the requester's substantial interests will be affected by the action or proposed action addressed in this notice of intent

or a statement clearly identifying the petition for hearing that the requester has already filed, and incorporating it by reference.

The agreement to mediate must include the following: (a) The names, addresses, and telephone numbers of any persons who may attend the mediation; (b) The name, address, and telephone number of the mediator selected by the parties, or a provision for selecting a mediator within a specified time; (c) The agreed allocation of the costs and fees associated with the mediation; (d) The agreement of the parties on the confidentiality of discussions and documents introduced during mediation; (e) The date, time, and place of the first mediation session, or a deadline for holding the first session, if no mediator has yet been chosen; (f) The name of each party's representative who shall have authority to settle or recommend settlement; and (g) The signatures of all parties or their authorized representatives.

As provided in Section 120.573 F.S., the timely agreement of all parties to mediate will toll the time limitations imposed by Sections 120.569

and 120.57 F.S. for requesting and holding an administrative hearing. Unless otherwise agreed by the parties, the mediation must be concluded within sixty days of the execution of the agreement. If mediation results in settlement of the administrative dispute, the Department must enter a final order incorporating the agreement of the parties. Persons whose substantial interests will be affected by such modified final decision of the Department have a right to petition for a hearing only in accordance with the requirements for such petitions set forth above. If mediation terminates without settlement of the dispute, the Department shall notify all parties in writing that the administrative hearing processes under Sections 120.569 and 120.57 F.S. remain available for disposition of the dispute, and the notice will specify the deadlines that then will apply for challenging the agency action and electing remedies under those two statutes.

A complete project file is available for public inspection during normal business hours: 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays.
