CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. David B. Jellerson, P.E.
Environmental Superintendent
Cargill Fertilizer, Inc.
P.O. Box 9002
Bartow, Florida 33831

Dear Mr. Jellerson:

The Department received a letter from Golder Associates, Inc., on January 26 requesting modification of Permit AC29-241660 (PSD-FL-209) to allow the shifting of 200 tons per day of sulfuric acid capacity from the No. 8 plant to the No. 9 plant at the Riverview facility. To establish reasonable assurance that there will be no increase in actual emissions from the proposed change, please provide continuous emission monitoring and production data from both plants for 1997 and for other periods over the last three years during which the respective units were operated at or near the proposed rates. If there is a recognizable difference in actual emissions, please indicate whether Cargill would be willing to accept a reduction in total production sufficient to offset the increase in actual emissions in lieu of a new permit application.

The Department will resume processing this request (0570008-022-AC) after receipt of the information specified above. If you have any questions on this matter, please call John Reynolds at 850/921-9536.

Sincerely,

A. A. Linero, P.E. Administrator
