The Company has request-
ed permission to make modifi-
cations to increase production
of two existing sulfuric acid

emissions for each plant, after
modifications, will be 4.0 lb sulfur

mist per ton of acid produced,
and visible emissions of 3 per-
cent opacity. These emissions
will not cause or contribute to
an ambient air quality stan-
dard violation or violate any
federal, state or county regula-

changes in emissions of this
plant after this modification.
