SUBJECT: CONSTRUCTION PERMIT NO. AC29-136776  
DOCK CONVEYING SYSTEM

Dear Mr. Fancy:

Gardiner has experienced manufactured equipment delays in completing the subject project. The dock conveying system should be completed and checked out by August 1, 1988.

In order to allow time for performance testing the unit and preparation of the operating permit application, Gardiner requests the subject permit expiration date be extended by 90 days to December 30, 1988.

If we can supply any additional information, please feel free to call.

Very truly yours,

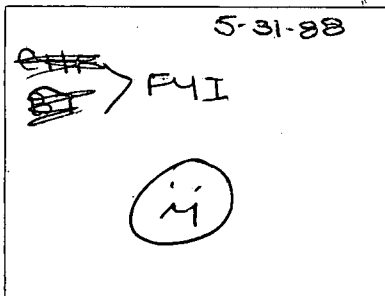

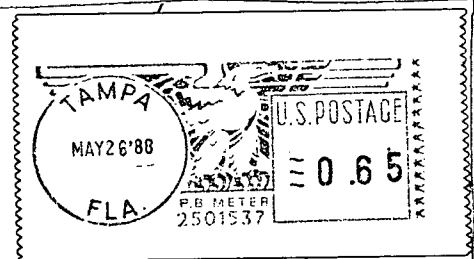

E. O. Morris

SUBJECT:            Construction Permit No. AC29-136776  
                      Dock Conveying System

Dear Mr. Fancy:

Due to the complex nature of the subject system, performance testing with the varied materials at maximum rates has been logistically difficult when coordinating with incoming vessels and agency personnel.

The Hillsborough County Environmental Protection has been excellent in working with us in performance testing this unit, however we have much more testing to do.

In order to allow time for appropriate performance testing the unit, Gardinier requests the subject permit expiration date be extended by 90 days to March 30, 1989.

Very truly yours,

E. G. Morris  
Environmental Manager
