Re: Lafarge Corporation - AC29-185895

Dear Mr. Fancy:

On behalf of Lafarge Corporation we request that the above construction permit be extended until September 31, 1991. The new baghouse was recently tested for particulate and opacity as required, but the testing was performed at night and a visible emissions observation could not be performed on the shiphold per specific conditions No. 2. The next ship transfer is not expected until the end of May.

Lafarge Corporation also requests that the required duration of the shiphold visible emissions test be set at one hour, rather than three hours as required under 40CFR 60.11.

If you have any questions, please contact me at 1-800-229-3311.

Sincerely,

ENVIRONMENTAL ENGINEERING CONSULTANTS, INC.

Carl F. Fink  
Senior Environmental Engineer
