RE: Request for Confidentiality

NOV 3 1986

Dear Mr. Winders:

BAQM

We are in receipt of your request to hold confidential Permit Application No. AC29-094093, dated February 5, 1985, and modification request, dated June 25, 1986.

As you know, such materials are public records and subject to public inspection and disclosure under Chapter 119, Florida Statutes, except as specifically provided by law to be confidential.

Section 403.111 Florida Statutes provides in part:

Any information, other than effluent data, relating to secret processes, methods of manufacture or production...shall be kept confidential...

For agency activities other than permitting, "trade secrets" are protected by Sections 403.73 and 403.772 Florida Statutes.

It is a misdemeanor to withhold information from public inspection that is not properly confidential. We, therefore, must request that you specifically identify the information which you claim as confidential and provide us with justification. The permitting application process contains considerable information which is not confidential and we, therefore, cannot simply withhold the entire submittal.

We will hold the application confidential pending your prompt response to this letter. Should a request to inspect the information be received prior to your response, we will immediately notify you. I am also forwarding your request and a copy of this letter to DER for their review.

Sincerely

Sara M. Fotopulos
