CERTIFIED MAIL-RETURN RECEIPT REQUESTED

Mr. William H. Winders
Corporate Environmental Manager
General Portland, Inc.
P.O. Box 324
Dallas, Texas 75221

Dear Mr. Winders:

Attached is one copy of the Technical Evaluation and Preliminary Determination, and proposed permit to construct a clinker unloading, storage and transfer facility in Tampa, Hillsborough County, Florida.

Before final action can be taken on your draft permit, you are required by Florida Administrative Code Rule 17-103.150 to publish the attached Notice of Proposed Agency Action in the legal advertising section of a newspaper of general circulation in Hillsborough County no later than fourteen days after receipt of this letter. The department must be provided with proof of publication within seven days of the date the notice is published. Failure to publish the notice may be grounds for denial of the permit.

Please submit, in writing, any comments which you wish to have considered concerning the department's proposed action to Mr. Bill Thomas of the Bureau of Air Quality Management.

Sincerely,

C. H. Fancy, P.E.
Deputy Chief
Bureau of Air Quality
Management

State of Florida
Department of Environmental Regulation
Notice of Proposed Agency Action
on Permit Application

The Department of Environmental Regulation gives notice of its intent to issue a permit to General Portland, Inc. to construct a clinker unloading, storage and transfer facility, located at 2001 Maritime Boulevard, Hillsborough County, Florida. A determination of best available control technology (BACT) was not required.

Persons whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes. The petition must conform to the requirements of Chapters 17-103 and 28-5, Florida Administrative Code, and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Twin Towers Office Building, Tallahassee, Florida 32301, within fourteen (14) days of publication of this notice. Failure to file a request for hearing within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, Florida Statutes.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this preliminary statement. Therefore, persons who may not object to the proposed agency action may wish to intervene in the proceeding. A petition for intervention must be filed pursuant to Model Rule 28-5.207 at least five (5) days before the final hearing and be filed with the hearing officer if one has been assigned at the Division of Administrative Hearings, Department of Administration, 2009, Apalachee Parkway, Tallahassee, Florida 32301. If no hearing officer has been assigned, the petition is to be filed with the Department's Office of General Counsel, 2600 Blair Stone Road, Tallahassee, Florida 32301. Failure to petition to intervene within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, Florida Statutes.

The application is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Dept. of Environmental Regulation
Southwest District
7601 Highway 301 N.
Tampa, Florida 33509

Hillsborough County Environmental Protection Commission
1900 9th Avenue
Tampa, Florida 33605

Dept. of Environmental Regulation
Bureau of Air Quality Management
2600 Blair Stone Road
Tallahassee, Florida 32301

Any person may send written comments on the proposed action to Mr. Bill Thomas at the department's Tallahassee address. All comments mailed within 30 days of the publication of this notice will be considered in the department's final determination.

RULES OF THE ADMINISTRATIVE COMMISSION
MODEL RULES OF PROCEDURE
CHAPTER 28-5
DECISIONS DETERMINING SUBSTANTIAL INTERESTS

28-5.15 Requests for Formal and Informal Proceedings

- (1) Requests for proceedings shall be made by petition to the agency involved. Each petition shall be printed typewritten or otherwise duplicated in legible form on white paper of standard legal size. Unless printed, the impression shall be on one side of the paper only and lines shall be double spaced and indented.
- (2) All petitions filed under these rules should contain:
 - (a) The name and address of each agency affected and each agency's file or identification number, if known;
 - (b) The name and address of the petitioner or petitioners;
 - (c) All disputed issues of material fact. If there are none, the petition must so indicate;
 - (d) A concise statement of the ultimate facts alleged, and the rules, regulations and constitutional provisions which entitle the petitioner to relief;
 - (e) A statement summarizing any informal action taken to resolve the issues, and the results of that action;
 - (f) A demand for the relief to which the petitioner deems himself entitled; and
 - (g) Such other information which the petitioner contends is material.

publication of the public notice (copy attached) required pursuant to Rule 17-103.150, Florida Administrative Code, whichever occurs first. The petition must comply with the requirements of Section 17-103.155 and Rule 28-5.201, Florida Administrative Code (copy attached) and be filed pursuant to Rule 17-103.155(1) in the Office of General Counsel of the Department of Environmental Regulation at 2600 Blair Stone Road, Tallahassee, Florida 32301.

Petitions which are not filed in accordance with the above provisions are subject to dismissal by the Department. In the event a formal hearing is conducted pursuant to Section 120.57(1), all parties shall have opportunity to respond, to present evidence and argument on all issues involved, to conduct cross-examination of witness and submit rebuttal evidence, to submit proposed findings of facts and orders, to file exception to any order or hearing officer's recommended order, and to be represented by counsel. If an informal hearing is requested, the agency, in accordance with its rules of procedure, will provide affected persons or parties or their counsel an opportunity, at a convenient time and place, to present to the agency or hearing officer, written or oral evidence in opposition to the agency's action or refusal to act, or a written statement challenging the grounds upon which the agency has chosen to justify its action or inaction, pursuant to Section 120.57(2), Florida Statutes.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the proposed agency action. Therefore, persons who may not wish to file a petition, may wish to intervene in the proceeding. A petition for intervention must be filed pursuant to Model Rule 28-5.207 at least five (5) days before the final hearing and be filed with the hearing officer if one has been assigned at the Division of

Administrative Hearings, 2009 Apalachee Parkway, Tallahassee, Florida 32301. If no hearing officer has been assigned, the petition is to be filed with the Department's Office of General Counsel, 2600 Blair Stone Road, Tallahase, Florida 32301.

Failure to petition to intervene within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, Florida Statues.

Executed the 13 day of DECEMBER, 1984, in Tallahassee, Florida.

Clinker Unloading, Storage, and Transfer

Permit Number: AC 29-094093

Florida Department of Environmental Regulation
Bureau of Air Quality Management
Central Air Permitting

December 7, 1984

I. Project Description

A. Applicant

General Portland, Inc.
1111 North West Shore Boulevard
Tampa, Florida 33622

B. Project and Location

The applicant proposes to construct a ship unloading facility for cement clinker which will include two (2) storage silos having a combined capacity of 60,000 tons. The facility will be located at the applicant's existing facility at 2001 Maritime Boulevard, Hillsborough County, Tampa, Florida. The universal transverse mercator (UTM) coordinates of the source are zone 17, 358.0 km East and 3090.7 km North.

C. Process and Controls

The proposed ship unloading facility will be constructed in two phases. This will allow the applicant to unload and transfer cement clinker to existing silos while construction of the two 30,000 ton capacity silos continues. All appropriate control devices will be in operation prior to the startup of the first phase of the proposed project.

The cement clinker will be transported to the applicant's Tampa, Florida facility by ship. The ships utilized will be the Jebesen class (9,400 short tons) or the Havbjorn class (24,000 short tons) bulk carriers or equivalent. These cargo vessels will utilize specially engineered, totally enclosed, dust-free unloading systems. The applicant proposes to unload 60,000 tons of clinker per month as a rate of 1,000 tons per hour. Initially, only the smaller Jebesen class ships will be utilized.

The existing number 7 covered belt conveyor will be extended to dock side and any emissions that would result from the transfer of clinker from the ship to the belt conveyor will be controlled by an Industrial Filter model AA 1517 dust collector, or equivalent. This dust collector is labeled dust collector number 27 by the applicant. An additional dust collector, Industrial Filter model AA 1015 or equivalent (labeled number 26), will be located dockside. This dust collection will be used to supplement the ships onboard controls.

The clinker will move to an existing transfer tower where the clinker will be dropped onto another existing covered belt conveyor (number 9). Emissions will be controlled by an existing

dust collector (number 20) and a new Industrial Filter model AA 1010 or equivalent dust collector (number 28). Number 9 covered belt conveyor moves the clinker to existing clinker silos where it will be stored. Emissions from the silos will be controlled by two existing dust collectors (numbers 22 and 7A). Dust collector 7A will have a new fan installed to convert it from its 34,000 cfm capacity to 6,100 cfm so it will better fit this new application.

When the two proposed 30,000 ton capacity silos are completed, the larger, 24,000 short ton, Havbjorn class bulk carriers will be used to bring the clinker to the facility. The ships will be unloaded at the same rate of 1,000 tons per hour and the same transfer conveyor will be used. Additional covered belt conveyors, bucket elevators and drag conveyors will be utilized to transfer the clinker from the main conveyor line to these new storage silos.

Four additional control devices will be installed to control emissions resulting from the transfer of clinker to these new silos. Dust collector number 29, a Industrial Filter model AA 1517 or equivalent, will control emissions from the bucket elevators to the silos. Dust collector number 30, Industrial Filter model AA 1517 or equivalent, will control emissions from the new silos. Dust collector number 31, Industrial Filter model A 1250 or equivalent, will control emissions from the silos drag conveyors. Dust collector number 32, Micropul model 64-6 or equivalent, will control the emissions from the reclaim system.

will read safe

II. Rule Applicability

The proposed project is located in the portion of Hillsborough County which is designated as a nonattainment area for the air pollutant particulate matter, FAC Rule 17-2.410(2).

The proposed project will not be subject to the New Source Review for Nonattainment Areas standards of FAC Rule 17-2.510 for particulate matter because the particulate matter emissions will be below the significant level, FAC Rule 17-2.510(2)(d)4.a. The existing facility is a major source of particulate matter.

The proposed project shall be subject to the particulate emission limits of FAC Rule 17-2.650(2). These limits are no visible emissions (five percent opacity) and particulate emissions not to exceed 0.03 gr/dscf, FAC Rule 17-2.650(2)(c)11.

III. Summary of Emissions and Air Quality Analysis

A. Emission Limitations

The pollutant emitted from the proposed sources is particulate matter. The emissions will be controlled by using

141910
1000

500 Maximum

covered conveyors and dust collectors. The emissions are summarized as follows:

Patable
conveyor
#27
#28
#29
#30
#31
#32
Cone

Capacity (CFM)	Hours of Operation	Tons/Year
10,000	720	0.93
18,000	720	1.67
6,000	720	0.56
16,000	720	1.48
15,000	720	1.39
7,000	720	0.65
2,500	1,800	0.58
Total		7.26

This chart is based on the allowable emission rate of 0.03 gr/dscf; the unloading of 720,000 tons per year of clinker, at a rate of 1,000 tons per hour, for dust collectors #26 and #31; and a 720,000 tons per year reclaimed, at a rate of 400 tons per hour, for dust collector #32.

B. Air Quality Analysis

Ambient monitoring or modeling is not required to provide reasonable assurance that the ambient air standards will not be violated.

IV. CONCLUSION

The emission limits that will be imposed have been determined to be in compliance with all applicable requirements of FAC 17-2. The permitted maximum allowable emission limits should not cause any violation of Florida's ambient air quality standards.

The general and specific conditions listed in the proposed construction permit (attached) will assure compliance with all applicable requirements of FAC 17-2.

720 500 TON

covered conveyors and dust collectors. The emissions are summarized as follows:

	Capacity (CFM)	Hours of Operation	Tons/Year
Dust Collector #26	10,000	720	0.93
Dust Collector #27	18,000	720	1.67
Dust Collector #28	6,000	720	0.56
Dust Collector #29	16,000	720	1.48
Dust Collector #30	15,000	720	1.39
Dust Collector #31	7,000	720	0.65
Dust Collector #32	2,500	1,800	0.58
Total			7.26

This chart is based on the allowable emission rate of 0.03 gr/dscf; the unloading of 720,000 tons per year of clinker, at a rate of 1,000 tons per hour, for dust collectors #26 and #31; and a 720,000 tons per year reclaimed, at a rate of 400 tons per hour, for dust collector #32.

B. Air Quality Analysis

Ambient monitoring or modeling is not required to provide reasonable assurance that the ambient air standards will not be violated.

IV. CONCLUSION

The emission limits that will be imposed have been determined to be in compliance with all applicable requirements of FAC 17-2. The permitted maximum allowable emission limits should not cause any violation of Florida's ambient air quality standards.

The general and specific conditions listed in the proposed construction permit (attached) will assure compliance with all applicable requirements of FAC 17-2.

STATE OF FLORIDA

DEPARTMENT OF ENVIRONMENTAL REGULATION

TWIN TOWERS OFFICE BUILDING
2600 BLAIR STONE ROAD
TALLAHASSEE, FLORIDA 32301-8241

BOB GRAHAM
GOVERNOR

VICTORIA J. TSCHINKEL
SECRETARY

PERMITTEE:
General Portland, Inc.
1111 Northwest Shore Blvd.
Tampa, Florida 33622

Permit Number: AC 29-094093
Expiration Date: July 31, 1986
County: Hillsborough
Latitude/Longitude: 27° 56' 04"N/
82° 26' 44"W
Project: Clinker unloading,
transfer, and storage

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Rule(s) 17-2 and 17-4. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawings, plans, and other documents attached hereto or on file with the department and made a part hereof and specifically described as follows:

For the construction of two (2) 30,000 ton capacity cement clinker storage silos; seven (7) dust collectors, labeled 26, 27, 28, 29, 30, 31, and 32; and the necessary covered conveyor, bucket elevators and drag conveyors to connect the new silos to an existing covered conveyor system, silos, and a new ship unloading operation. The dust collectors shall conform to the specifications submitted with the permit application.

Construction shall be in accordance with the attached permit application and additional information except as otherwise noted on pages 5, 6, and 7 specific conditions.

Attachments are as follows:

1. Application to construct an Air Pollution Source, DER Form 17-1.202(1).
2. General Portland Inc. letter dated October 23, 1984.
3. C. H. Fancy's letter dated October 25, 1984.
4. County of Hillsborough memorandum dated October 29, 1984.

PERMITTEE:
Portland, Inc.

Permit Number: AC 29-094093 General
Expiration Date: July 31, 1986

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations, and restrictions set forth herein are "Permit Conditions" and as such are binding upon the permittee and enforceable pursuant to the authority of Sections 403.161, 403.727, or 403.859 through 403.861, Florida Statutes. The permittee is hereby placed on notice that the department will review this permit periodically and may initiate enforcement action for any violation of the "Permit Conditions" by the permittee, its agents, employees, servants or representatives.

2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the department.

3. As provided in Subsections 403.087(6) and 403.722(5), Florida Statutes, the issuance of this permit does not convey any vested rights or any exclusive privileges. Nor does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state or local laws or regulations. This permit does not constitute a waiver of or approval of any other department permit that may be required for other aspects of the total project which are not addressed in the permit.

4. This permit conveys no title to land or water, does not constitute state recognition or acknowledgement of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the state. Only the Trustees of the Internal Improvement Trust Fund may express state opinion as to title.

5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, plant or aquatic life or property and penalties therefore caused by the construction or operation of this permitted source, nor does it allow the permittee to cause pollution in contravention of Florida Statutes and department rules, unless specifically authorized by an order from the department.

PERMITTEE:
General Portland, Inc.

Permit Number: AC 29-094093
Expiration Date: July 31, 1986

GENERAL CONDITIONS:

6. The permittee shall at all times properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed or used by the permittee to achieve compliance with the conditions of this permit, as required by department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by department rules.

7. The permittee, by accepting this permit, specifically agrees to allow authorized department personnel, upon presentation of credentials or other documents as may be required by law, access to the premises, at reasonable times, where the permitted activity is located or conducted for the purpose of:

- a. Having access to and copying any records that must be kept under the conditions of the permit;
- b. Inspecting the facility, equipment, practices, or operations regulated or required under this permit; and
- c. Sampling or monitoring any substances or parameters at any location reasonably necessary to assure compliance with this permit or department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately notify and provide the department with the following information:

- a. a description of and cause of non-compliance; and
- b. the period of noncompliance, including exact dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.

PERMITTEE:
General Portland, Inc.

Permit Number: AC 29-094093
Expiration Date: July 31, 1986

GENERAL CONDITIONS:

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the department for penalties or revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source, which are submitted to the department, may be used by the department as evidence in any enforcement case arising under the Florida Statutes or department rules, except where such use is proscribed by Sections 403.73 and 403.111, Florida Statutes.

10. The permittee agrees to comply with changes in department rules and Florida Statutes after a reasonable time for compliance, provided however, the permittee does not waive any other rights granted by Florida Statutes or department rules.

11. This permit is transferable only upon department approval in accordance with Florida Administrative Code Rules 17-4.12 and 17-30.30, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the department.

12. This permit is required to be kept at the work site of the permitted activity during the entire period of construction or operation.

13. This permit also constitutes:

- () Determination of Best Available Control Technology (BACT)
- () Determination of Prevention of Significant Deterioration (PSD)
- () Compliance with New Source Performance Standards.

14. The permittee shall comply with the following monitoring and record keeping requirements:

- a. Upon request, the permittee shall furnish all records and plans required under department rules. The retention period for all records will be extended automatically, unless otherwise stipulated by the department, during the course of any unresolved enforcement action.

PERMITTEE:
General Portland, Inc.

Permit Number: AC 29-094093
Expiration Date: July 31, 1986

GENERAL CONDITIONS:

- b. The permittee shall retain at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation), copies of all reports required by this permit, and records of all data used to complete the application for this permit. The time period of retention shall be at least three years from the date of the sample, measurement, report or application unless otherwise specified by department rule.
- c. Records of monitoring information shall include:
 - the date, exact place, and time of sampling or measurements;
 - the person responsible for performing the sampling or measurements;
 - the date(s) analyses were performed;
 - the person responsible for performing the analyses;
 - the analytical techniques or methods used; and
 - the results of such analyses.

15. When requested by the department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware that relevant facts were not submitted or were incorrect in the permit application or in any report to the department, such facts or information shall be submitted or corrected promptly.

SPECIFIC CONDITIONS:

1. The amount of cement clinker unloaded shall not exceed 720,000 tons per year.
2. The unloading rate of the cement clinker shall not exceed 1,000 tons per hour.
3. Only clinker transport ships of the Jebesen class, Havbjorn class, or equivalent shall be unloaded.

PERMITTEE:
General Portland, Inc.

Permit Number: AC 29-094093
Expiration Date: July 31, 1986

SPECIFIC CONDITIONS:

4. Hours of operation and emission rates shall not exceed:

Source	Operating Hours hr/yr	Maximum Allowable Rate lb/hr	Actual Emissions tons/yr
Dust Collector #26	720	2.57	0.93
Dust Collector #27	720	4.63	1.67
Dust Collector #28	720	1.54	0.56
Dust Collector #29 X	720	4.11	1.48
Dust Collector #30 X	720	3.86	1.39
Dust Collector #31 X	720	1.80	0.65
Dust Collector #32 X	1,800	0.64	0.58

5. The allowable particulate emission rate from the dust collectors shall not exceed 0.03 grains per dry standard cubic foot.

6. The operating permit covering dust collector 7A shall be modified to reflect the change in capacity of dust collector 7A.

7. Visible emissions shall not be greater than 5 percent opacity as demonstrated in accordance with DER Method 9 (Rule 17-2.700(6)(a)9., FAC).

8. An initial compliance test for dust collectors 26, 27, and 28 shall be performed and an operating permit applied for when the ship unloading facility becomes operational for the transfer of cement clinker to the smaller existing silos.

9. Following the completion of construction of the two (2) 30,000 ton capacity silos and prior to the expiration date of this permit, an initial compliance test shall be performed for dust collectors 29, 30, 31, and 32.

10. Fifteen (15) days prior notification of the compliance tests to DER's Southwest District Office Air Program is required.

11. Compliance tests shall be performed at 90-100% of the rated unloading capacity.

PERMITTEE:
General Portland, Inc.

Permit Number: AC 29-094093
Expiration Date: July 31, 1986

SPECIFIC CONDITIONS:

12. A visible emissions test indicating no visible emissions (5 percent opacity) may be submitted in lieu of a particulate stack test for materials handling sources subject to Section 17-2.650(2)(c)11. where the source is equipped with a baghouse.

13. Compliance tests, in accordance with Rule 17-2.700, FAC, shall be submitted to DER's Southwest District Air Office Air Program within 45 days after completion of the tests.

14. After satisfactory completion of the initial compliance test and prior to ninety (90) days before the expiration of this permit, a complete application for an operating permit shall be submitted to the Southwest District Office. The permittee may continue to operate in compliance with all terms of this construction permit until its expiration date or the issuance of an operating permit. The department may extend the expiration date of this permit as authorized by Rule 17-2.210(1), FAC.
