BUREAU OF AIR REGULATION

**Re: Tampa Electric Company  
Big Bend Power Station Unit SCCT4  
Notification of Certification and Performance Testing Dates  
Air Permit No. 0570039-040-AC**

Dear Ms. Vielhauer and Ms. Danois:

On July 8, 2009, TEC submitted the Monitoring Plan and Test Protocol for Big Bend Station (BBS) Unit SCCT 4. TEC is required by 40 CFR Part 60.8 and 40 CFR Part 75.61 respectively to perform and notify of performance and CEM certification testing. TEC is hereby submitting notification that the anticipated performance and CEM certification testing will be conducted during the week of August 30th, 2009 for BBS SCCT 4. CEM shelter work for SCCT 4 will begin during the week of August 3<sup>rd</sup>, 2009. The CEM shelter work consists of the cycle response time, 7-day drift, linearity, calibrations and DAHS certification. The performance testing that will be held later in August will consist of the RATA and stratification testing.

As the schedule changes TEC will keep the FDEP and EPCHC updated. TEC appreciates your cooperation in this matter and if you have any questions, please call me at (813) 228-4740.

Sincerely,

Byron Burrows, P.E.  
Alternate Designated Representative  
Environmental, Health & Safety
