Subject: Tampa Electric Company - Big Bend Station Transloading Project

Teresa,

As requested by Shelly Castro of Tampa Electric, a revised air construction permit application for the Big Bend Station Transloading Project is attached for your review.

The application was revised to clarify that maximum annual transloading rates for coal, petcoke, and slag will each be 150,000 tons for a total of 450,000 tons per year for all three materials.

Please contact me if you have any questions.
