Re: Project No. 0570039-046-AC
Big Bend Station, Units 1 and 2
Letter of Authorization, PM Testing Requirements for 2011

Dear Mr. Burrows:

On May 23, 2011, the Department received a letter from Mr. Robert Velasco, TECO, which requests temporary relief from the current stack testing requirements for Units 1 and 2 in Title V air operation Permit No. 0570039-045-AV. Condition A.43 requires annual stack testing for particulate matter (PM), nitrogen oxides (NO_x) and sulfur dioxide (SO₂). The emissions standards for Units 1 and 2 are identical. After NO_x control by selective catalytic reduction (SCR) and particulate control by separate electrostatic precipitators (ESP), the flue gas exhaust from Units 1 and 2 are combined by common ductwork, controlled by a common wet flue gas desulfurization (FGD) system and exit a common exhaust stack. There is a single continuous emissions monitoring system (CEMS) for SO₂ emissions at the shared inlet to the FGD system as well as a single CEMS (SO₂, NO_x carbon dioxide and flow) in the shared exhaust stack (CS0W1). Because of the shared equipment, Condition A.53 requires Unit 2 to be shut down when Unit 1 is tested for PM and vice-versa.

Although there was a planned outage for Unit 1 in February 2011, Unit 2 could not be tested due a forced outage. Scheduling conflicts or forced outages of other units have made it difficult to test Unit 1 or Unit 2. Unit 2 is not currently scheduled for a planned outage this year. Therefore, TECO requests relief from the requirement to test one unit while the other unit is shut down.

Based on the given circumstances, the Department grants relief from the requirement to shut down one unit to test the other (Condition A.53) for the current federal fiscal year (October 1, 2010 through September 30, 2011), provided:

For this fiscal year, the permittee shall conduct PM stack tests and visible emissions observations on the exhaust stack common to Units 1 and 2 (CS0W1) to demonstrate compliance with the PM and visible emissions standards for Units 1 and 2. Particulate matter emissions determined in the common stack shall demonstrate compliance with the emissions standards (pounds per million British thermal units) for each unit. The mass emission rates (lb/hour) determined in the common stack shall be prorated based on the heat input rate contribution from a given unit to demonstrate compliance for that unit.

Prior to January 30, 2012, the permittee shall submit an application to revise the Title V permit to accurately identify the installed equipment configuration and correct any errors in the descriptions in Permit No. 0570039-045-AV. The application shall include an updated diagram that identifies each piece of primary

Letter of Authorization

equipment including the boilers, SCR, ESP, FGD, CEMS (with monitored pollutants/parameters) and the stack. The updated diagram shall also identify the approximate flue gas flow rates and temperatures as these parameters change throughout the system. The revised application should also recommend changes to Condition A.53 to address the restrictive test scenario.

The Department will consider this action final unless a timely petition for an administrative hearing is filed pursuant to Sections 120.569 and 120.57, of the Florida Statutes (F.S.). Mediation under Section 120.573, F.S., will not be available for this proposed action.

A person whose substantial interests are affected by the proposed decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S.. The petition must contain the information set forth below and must be filed (received) in the Department's Office of General Counsel, MS #35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000. Petitions filed by the applicant or any of the parties listed below must be filed within 14 days of receipt of this notice. Petitions filed by any other person must be filed within 14 days of receipt of this proposed action. A petitioner must mail a copy of the petition to the applicant at the address indicated above, at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of how and when each petitioner received notice of the agency action or proposed action; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle the petitioner to relief; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action; and, (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

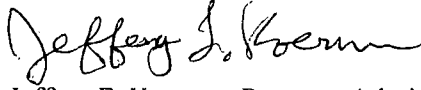

A petition that does not dispute the material facts upon which the permitting authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the permitting authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Any party to this order has the right to seek judicial review of it under Section 120.68, F.S., by the filing of a Notice of Appeal, under Rule 9.110 of the Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida, 32399-3000; and, by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within thirty days from the date this notice is filed with the Clerk of the permitting authority.

Letter of Authorization

Executed in Tallahassee, Florida.

Jeffery F. Koerner, Program Administrator
Permitting and Compliance Section
Division of Air Resource Management

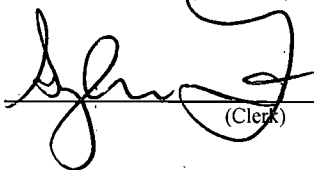

CERTIFICATE OF SERVICE

The undersigned duly designated deputy agency clerk hereby certifies that this authorization was sent by electronic mail (or a link to these documents made available electronically on a publicly accessible server) with received receipt requested before the close of business on 6/9/11 to the persons listed below.

Mr. Byron T. Burrows, P.E., TECO (btburrows@tecoenergy.com)
Mr. Robert Velasco, P.E., TECO (ravelasco@tecoenergy.com)
Ms. Cindy Zhang-Torres, P.E., DEP Southwest District Office (cindy.zhang-torres@dep.state.fl.us)
Mr. Jason Waters, P.E., Hillsborough County EPC (watersj@epchc.org)
Ms. Cindy Mulkey, DEP Siting Office (cindy.mulkey@dep.state.fl.us)
Ms. Kathleen Forney, EPA Region 4 (forney.kathleen@epa.gov)
Ms. Heather Abrams, EPA Region 4 (abrams.heather@epa.gov)
Ms. Vickie Gibson, DEP BAR Reading File (victoria.gibson@dep.state.fl.us)

Clerk Stamp

FILING AND ACKNOWLEDGMENT FILED, on this date, pursuant to §120.52(7), Florida Statutes, with the designated Department Clerk, receipt of which is hereby acknowledged.

The Bureau of Air Regulation is issuing electronic documents for permits, notices and other correspondence in lieu of hard copies through the United States Postal System, to provide greater service to the applicant and the engineering community. Access these documents by clicking on the link provided above, or search for other project documents using the "Air Permit Documents Search" website at <http://approd.dep.state.fl.us/air/emission/apds/default.asp>.

Project documents that are addressed in this email may require immediate action within a specified time frame. Please open and review the document(s) as soon as possible, and verify that they are accessible. Please advise this office of any changes to your e-mail address or that of the Engineer-of-Record. If you have any problems opening the documents or would like further information, please contact the Florida Department of Environmental Protection, Bureau of Air Regulation at (850) 717-9000.
