MEMORANDUM

DATE: August 4, 1998
TO: Joe Kohn
FROM: *RK* Rick Kirby
SUBJECT: TECO Big Bend 1 & 2 FGD application

As we discussed today, August 4, 1998, I am in agreement with the issues you plan to bring up in the incompleteness letter to TECO regarding this project. Please include the following 2 additional issues as part of your review:

1. TECO is listing all dry materials (fuel, limestone, and BPG) handling as fugitive sources of emissions. It should be clarified that these emissions will be controlled and can pass through a stack or vent if properly enclosed and, therefore, do not qualify as fugitive.
2. TECO should provide emissions calculations for material handling.

Thank you for the opportunity to provide comments.
