Jeff Rankin, Senior Engineer
Environmental Planning
Tampa Electric Company
P. O. Box 111
Tampa, Florida 33601

Dear Jeff:

As you well know the compliance schedules established for TECO in 1972 and 1973 are presently still in effect. Proposals have been made by your company, EPA and the Department of Pollution Control to modify and/or completely change these compliance schedules but to date no actual changes have occurred.

The following compliance dates are scheduled to be achieved within the next few weeks. Please respond to each date as to whether or not that increment will be achieved. If an increment will not be achieved, explain.

Gannon Station ✓

4/30/75 Final Compliance Date, Units 1-4

Big Bend Station

5/4/75 Completion of construction for SO₂ cont rol, Units 1 & 2

Also no formal notification has been received by our office concerning those expired permits outlined in the letter to Alex Kaiser dated February 20, 1975 (copy enclosed).

Please respond to the aforementioned items as soon as possible.

Sincerely,

Bennie J. Caramella
Environmental Engineer
Hillsborough County Environmental
Protection Commission

Mr. Alex Kaiser
Director, Power Plant Engineering
and Environmental Planning
Tampa Electric Company
P. O. Box 111
Tampa, Florida 33601

Dear Mr. Kaiser:

Please be advised of the following deficiencies in Department of
Pollution Control Permits at TECO generating units.

Big Bend

AC-523 expired 9/15/74 Unit # 1 precipitator upgrade
AC-29-2209 expired 6/27/74 Gas Turbine Peaking Unit #1
AC-29-2210 expired 6/27/74 Gas Turbine Peaking Unit # 2

Hooker's Point

AO-29-2093 expired 6/30/74 Units # 1-6

Gannon

No construction permit for Unit # 4 upgrade

If you have any questions concerning the necessary procedure for obtaining
permits please contact this office.

Sincerely,

Ron Elliott
