Re: DEP File No. 0570057-023-AC (PSD-FL-404A)
Lead-Acid Battery Recycling Facility Upgrade and Production Increase
Extension of time to install ambient air monitoring stations

Dear Mr. Tapper:

On December 23, 2009, EFT requested additional time to install two additional ambient lead (Pb) monitors required by permit No. 0570057-020-AC (PSD-FL-404) in the vicinity of lead-acid battery recycling facility. The request is attached.

We understand that EFT and the Environmental Protection Commission of Hillsborough County (EPCHC) have been working closely to develop a contract whereby EPCHC will locate, install and operate the stations under a contract with EFT. The EPCHC is the approved local air program that operates an extensive monitoring network in Hillsborough County including the Pb monitors already located in the vicinity of the facility.

Determination:

The permit is hereby modified as shown below in ~~strikeout~~ and double underline format.

Section III – Emissions Units Specific Conditions, Subsection F, Condition 4 is modified as follows:

AMBIENT MONITORING AND MODELING REQUIRED

4. Lead–Total Suspended Particles (Pb-TSP) Monitors: The owner or operator shall install and operate two ambient monitoring stations for Lead in TSP (Pb-TSP) at offsite locations (sites) to be determined by the Department. The devices shall be installed and operational by April 30, 2010 ~~within 120 days of final issuance of this permit~~ and shall operate at a sampling frequency to be determined by the EPCHC, and/or the Ambient Monitoring Section (AMS) of the Department's Bureau of Air Monitoring and Mobile Sources (BAMMS). Access to the monitoring sites and instruments must be provided to the EPCHC, and/or the AMS of the Department's BAMMS. The monitoring devices shall be those designated as EPA reference or equivalent methods and must be operated in accordance with BAMMS-approved quality assured policies and procedures.

A copy of this letter shall be filed with the referenced permit and shall become part of the permit.

This air permit modification is issued under the provisions of: Chapter 403 of the Florida Statutes (F.S.) and Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297 of the Florida Administrative Code (F.A.C.). The permittee is authorized to conduct the proposed work in accordance with the conditions of this permit. This project is subject to the general preconstruction review requirements in Rule 62-212.300, F.A.C.

Upon issuance of this final permit modification, any party to this order has the right to seek judicial review of it under Section 120.68 of the Florida Statutes by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General Counsel (Mail Station #35, 3900 Commonwealth Boulevard, Tallahassee, Florida, 32399-3000) and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The notice must be filed within 30 days after this order is filed with the clerk of the Department.

Executed in Tallahassee, Florida.

Joseph Kahn, Director
Division of Air Resource Management

**RE: Request for Extension; Ambient Air Monitoring Stations
Project Number: Permit No. 0570057-020-AC/PSD-FL-404**

Dear Mr. Linero:

The purpose of this correspondence is to request an extension of the 120 day suspense date listed in Section 3. F. Facility Grounds and Roadways- AMBIENT MONITORING AND MODELING REQUIRED. Title V Permit No.0570057-020-AC was dated September 22, 2009. Accordingly, two (2) ambient monitoring stations for Lead-Total Suspended Particles (Pb-TSP) are to be installed and operated at offsite locations to be determined by the Department within 120 days of final issuance of the permit.

EFT has been working closely with the Environmental Protection Commission Hillsborough County (EPC) to implement the installation of the ambient monitoring stations. During a meeting between EPC and EFT on December 9, 2009, EPC utilized discretionary enforcement to interpret the terms of the permit and assumed the responsibility of installing, maintaining, developing the associated standard operating procedures, and operating the monitors. The coordination of these efforts continues. The monitors were purchased by EFT and were delivered to EPC (Tom Tamanini) on December 22, 2009. However, the following essential items have not been confirmed: Approval to install the offsite monitors in the nearby trailer park and local elementary school; the installation of power to the monitor locations once established; and the development of a logistics contract between EFT and EPC for the monitor, sample collection, normal data base management, lab services, and maintenance. In view of the multitude of time consuming efforts anticipated to achieve these objectives, EFT requests a **90 day extension or an extension until installed.**

EFT and EPC have been having weekly meetings coordinating these efforts and EPC is in agreement with this request. Please feel free to call me at 813-744-5004 with any questions or comments you may have regarding this request.

Sincerely,
EnviroFocus Technologies, LLC

Larry G. Eagan
Plant Manager

The Bureau of Air Regulation is issuing electronic documents for permits, notices and other correspondence in lieu of hard copies through the United States Postal System, to provide greater service to the applicant and the engineering community. Access these documents by clicking on the link provided above, or search for other project documents using the "*Air Permit Documents Search*" website at <http://www.dep.state.fl.us/air/emission/apds/default.asp>.

Permit project documents addressed in this email may require immediate action within a specified time frame. Please open and review the document(s) as soon as possible, and verify that they are accessible. Please advise this office of any changes to your e-mail address or that of the Engineer-of-Record. If you have any

Memorandum

**Florida Department of
Environmental Protection**

TO:	Joseph Kahn
THROUGH:	Trina Vielhauer <i>TV</i>
FROM:	David Read and Al Linero <i>DLR</i> <i>AL</i>
DATE:	April 15, 2010
SUBJECT:	EnviroFocus Technologies, LLC (EFT) DEP File No. 0570057-023-AC (PSD-FL-404A) Installation of Ambient Monitors

The attached permit modification provides additional time (until April 30, 2010) to install two neighborhood ambient lead (Pb) monitors required by the recent permit we issued for their lead-acid battery facility upgrade and expansion project.

We recommend approval.

FINAL DETERMINATION

Air Construction Permit
EnviroFocus Technologies, LLC
Lead-Acid Battery Recycling Facility
DEP File No. 0570057-023-AC (PSD-FL-404A)

PERMITTEE

EnviroFocus Technologies, LLC (EnviroFocus)
1901 North 66th Street
Tampa, Florida 33619

PERMITTING AUTHORITY

Florida Department of Environmental Protection (Department)
Division of Air Resource Management
Bureau of Air Regulation, Special Projects Section
2600 Blair Stone Road, MS #5505
Tallahassee, Florida 32399-2400

PROJECT

DEP File No. 0570057-023-AC (PSD-FL-404A)
EnviroFocus Lead-Acid Battery Recycling Facility
Facility Upgrade and Production Increase – Ambient Air Monitoring
Hillsborough County

The original project was reviewed under the rules for the Prevention of Significant Deterioration (PSD). The ongoing facility upgrade project consists of a production increase from 32,000 to 150,000 tons per year (TPY) of lead, enclosure of the recycling process and modernization of the air pollution control equipment. The project required installation of two ambient lead monitoring stations.

The present request is to extend the time allowed to install the monitors to April 30, 2010. The monitors will be operated by the Environment Protection Commission of Hillsborough County (EPCHC) under contract with EnviroFocus.

NOTICE AND PUBLICATION

The Department distributed a draft permit modification package on January 19, 2010. The applicant published the Public Notice of Intent to Issue Air Permit Modification in The Tampa Tribune on January 22, 2010. The Department received the proof of publication on February 1, 2010.

No written comments were received regarding the draft permit modification.

CONCLUSION

The final action of the Department is to issue the permit modification with no changes from the draft permit modification.
