NOTICE OF PROPOSED AGENCY ACTION  
The Department of Environmental Regulation gives notice of its intent to issue permits to AMAX Phosphates, Inc. that will allow increased production and emissions from three defluorinating kilns located at the Company's Plant City chemical complex in Hillsborough County, Florida. No physical change in the process or control equipment is required for these modifications. The modifications will increase the emissions of air pollutants, in tons per year, by the following amounts:  
Particulate Matter 63  
Sulfur Dioxide 0  
Fluoride 0  
A Best Available Control Technology (BACT) determination was not required for the proposed modifications.  
Emissions from the modified facility will not impact the Hillsborough County particulate matter nonattainment area by a significant amount nor exceed the allowable increment consumption or cause an ambient air quality violation in other areas.  
A person who is substantially affected by the department's proposed permitting decision may request a hearing in accordance with Section 120.57, Florida Statutes, and Chapter 17-1 and 28-5, Florida Administrative Code. The request for hearing must be filed (received) in the Office of General Counsel of the department at 2600 Blair Stone Road, Twin Towers Office Building, Tallahassee, Florida 32301, within (14) days of publication of this notice. Failure to file a request for hearing within this time period shall constitute a waiver of any right such person may have to request a hearing under Section 120.57, Florida Statutes.  
The Technical Evaluation and Preliminary Determination for the proposed projects is available for public inspection during normal business hours at the following locations:  
Department of Environmental Regulation  
BAQM  
2600 Blair Stone Road
