Re: FINAL Permit No. 0570261-006-AV
Hillsborough County Resource Recovery Facility
Testing Flexibility

Dear Mr. Boldissar:

On May 12, 2008, the Department received your request (copy enclosed) to extend the time in which to perform testing under the subject permit. The Title V air operation permit is for the Hillsborough County Resource Recovery Facility. The facility is located at 350 Falkenburg Road, Tampa in Hillsborough County.

We have reviewed the federal regulation provisions and concur that the facility is allowed to test within the 15 month window afforded by the May 10, 2006 federal amendments which were adopted into the state Rule 62-204.800(9)(b), Florida Administrative Code (F.A.C.), effective May 31, 2007. Also, completion of the 2008 year testing by September 30, 2008, as you have proposed ensures the federal fiscal year test requirement from Rule 62-297.310(7)(a)4., F.A.C. contained in the specific conditions of the permit are met.

If you have any questions, please contact Mr. Scott M. Sheplak, P.E. by telephone at 850/921-9532 or by email at Scott.Sheplak@dep.state.fl.us.

Sincerely,

Jonathan Holtom, P.E.
Bureau of Air Regulation

Subject: Hillsborough County Resource Recovery Facility (HC-RRF)
Title V Air Operation Permit 0570261-006-AV

Mr. Scott Sheplak
Air Resource Division
Florida Department of Environmental Protection
2600 Blair Stone Road, MS 5000
Tallahassee, Florida 32399-2400

Dear Mr. Sheplak,

The revised MWC New Source Performance Standards as published on May 10, 2006 (71 FR 27324) establishes testing flexibility for the annual compliance tests to be conducted once per calendar year, but no less than 9 months and no more than 15 months since the previous test (as long as five performance tests are conducted in each 5-year calendar period). This update to the federal 40 CFR 60, Subpart Cb standards is a change from the previous required 12-month test requirement.

The Department adopted these rule revisions into 62-204.800(9)(b) F.A.C. by reference, which became effective on May 31, 2007. Although U.S. EPA recently filed a motion to remand the recent amendments to 40 CFR 60, Subparts Cb & Eb, the provisions are currently in effect. The facility has not acted to amend its current Title V permit choosing to wait for EPA reconsideration of these provisions.

The facility is modeling the effectiveness of its scrubber vessel to optimize its performance. It is our intention to be able to test the effectiveness of this optimization during our 2008 stack testing. Therefore Hillsborough County is requesting the Department approve this test flexibility as outlined above to allow the HC-RRF annual compliance stack test be moved from July to September for calendar year 2008 in accordance with 15 months provision.

Your consideration of this matter is appreciated.

Sincerely

A handwritten signature in black ink, appearing to read 'B. M. Boldissar', with a long horizontal flourish extending to the right.

Barry M. Boldissar, Director
Solid Waste Management Department

The Bureau of Air Regulation is issuing electronic documents for permits, notices and other correspondence in lieu of hard copies through the United States Postal System, to provide greater service to the applicant and the engineering community. Please advise this office of any changes to your e-mail address or that of the Engineer-of-Record.

Thank you,

DEP, Bureau of Air Regulation
