ATTN: 112(j) Program

RE: Section 112(j) Part 1 Title V Permit Revision Applications

On April 5, 2002, the Environmental Protection Agency published revisions in the Federal Register (FR 16591) to the final rule for 40 CFR Part 63, National Emission Standards for Hazardous Air Pollutants for Source Categories. These revisions affect the General Provisions and Requirements for Control Technology Determinations for Major Sources in Accordance with Clean Air Act Sections, Sections 112(g) and 112(j).

STYLE CREST owns a reinforced plastic composite manufacturing plant in Plant City, Florida. This plant has the potential to be a major source of Hazardous Air Pollutants (HAPs) and may be subject to several source categories for which Section 112(d) standards have not been promulgated. Therefore, the Plant City plant has the potential to be subject to the provisions of Section 112(j).

Sources subject to Section 112(j) must apply for a Title V (Part 70) permit or permit revision. The application process is a two-part process. Part 1 of the permit application requests basic information about the HAP sources. Part 2 of the application requests information to make the Maximum Achievable Control Technology (MACT) determination. Part 1 of the permit application must be submitted to the Florida Department of Environmental Protection and to the U.S. EPA Region IV office in Atlanta by May 15, 2002.

In order to comply with this requirement, a Part I application for the STYLE CREST plant in Plant City, Florida is attached hereto.

Please contact me if you have any questions, or require any additional information on this matter.

Sincerely,

Bryan T. Kern
General Manager

BUREAU OF AIR REGULATION

Brief description of the major source:

Reinforced Plastics Composites Production, including resin application, plastic coatings & adhesives; Steel Anchor Painting Dip Line

Identification of the potentially relevant section 112(j) emission standard subparts:

MMMM	Miscellaneous Metal Parts (Surface Coating)
PPPP	Plastic Parts/Products (surface coating)
WWWW	Reinforced Plastics Composites Production

Identification of the types of emission points or emission units belonging to the subject source category:

**Emission Unit - 001
002
Operating Permit Number 0570356-004-AV#**

Identification of any affected sources for which a Section 112(g) (Section 9 Construction Permit) MACT determination has been made.

Re: 112(j) Notification Information Submittal
Style Crest Products, Plant City, Florida

Dear Mr. Kern:

Thank you for submitting the referenced information in your letter dated May 14, 2002. Your information submittal appears to meet our current 112(j) requirements.

Please be aware that, although your letter refers to this information submittal as a "Section 112(j) Part 1 Title V (MACT) Permit Revision Application," the Department does not recognize your submittal as a state permit application and has no plans to process it as such.

No further 112(j) information is needed from you at this time.

If you have any questions, please call me at 850/921-9534.

Sincerely,

Cindy L. Phillips, P.E.
